**LETTER FOR PARENTS OF USERS OF**  
**DISTRICT TECHNOLOGY RESOURCES**

Dear Parents:

Your child has an opportunity to be given access to the District's technology resources, meaning electronic communication systems and electronic equipment, and needs your permission to do so.

With this educational opportunity comes responsibility. It is important that you and your child read the enclosed District policy, administrative regulations, and agreement form and discuss these requirements together. Inappropriate use of the District's technology resources may result in suspension or revocation of the privilege to use these educational tools, as well as other disciplinary or legal action, in accordance with the Student Code of Conduct and applicable laws.

As a user of the District's technology resources, your child will be able to access:

- An unlimited number of databases, libraries, and resources;
- The Internet and other electronic information systems/networks, which can be used to communicate with schools, colleges, organizations, and individuals around the world; and
- Shared electronic equipment, which may have stored temporary Internet and electronic files of other users.

Please be aware that the Internet is an association of diverse communication and information networks. While the District is required by federal law to use technology protection measures to limit access to material considered harmful or inappropriate to students, it may not be possible for us to absolutely prevent such access. Despite our best efforts and beyond the limits of filtering technology, your child may run across areas of adult content and some material you might find objectionable.

Please return the attached agreement form indicating your permission or denial of permission for your child to access the District's technology resources.

If your child is being issued a District technology device, you will be given additional materials addressing the proper use, care, and return of these devices.

Sincerely,

---

Principal
