

“Ready Genesee” & “Orleans Aware”

Community Preparedness Mobile Applications

All-in-one customizable Preparedness App that helps the residents and communities in Genesee and Orleans Counties be prepared, informed and continuously engaged.

This App is brought to you by the Genesee and Orleans County Emergency Management Services and Health Departments, Quickseries Publishing, and EOC Ready.

The QuickSeries[®] Community Preparedness App was built to prepare Counties for every possible emergency, while allowing officials to guide people to shelters and services when disaster strikes.

AT A GLANCE

The **Ready Genesee App** and **Orleans Aware App** comes standard with every feature and tool needed to prepare users for various emergency situations and keep them safe during an event.

*Need to Know	In-depth and interactive instructional eGuides designed to help users prepare for every possible emergency. Provides users with instruction, tips, and tutorials. New eGuides can be uploaded by the County based on needs.
*Make a Plan	Make-My-Plan gets users disaster-ready by automatically creating go kits, emergency supplies and shopping lists. It also coordinates a plan for meeting up and provides one-button communication (A.K.A. - My Status) to friends and family in the event of an emergency.
News	Automatic regional FEMA and County created alerts are connected to the App home screen and visible at all times. High level alerts generated appear on the user's phone home screen until acknowledged.
Weather	Interactive County weather from National Oceanic and Atmospheric Administration (NOAA) but designed and optimized specifically for mobile devices.
Evacuation	Provides users with maps of evacuation routes. County has the ability to close any routes. This tool also plots important emergency and safety locations, such as hospitals, fire stations and police departments.
*Shelters	List of all County shelters and services, with the ability to turn on/off specific locations in real-time. Includes important information and resources, including special needs requirements and pet shelters.
Alerts	County alerts, updates or cautions can be pushed directly to the devices of all users.
I am Safe	During time of emergency, users may broadcast safety status to anyone on their contact list, including their out-of-town emergency contact

**Available online and offline
All features also available in Spanish*
