

I remember what First grade was like for me! I went to Southwood Elementary and it was my First year going all day. I had to spend the whole day without my parents! Mrs. Wilhelm made it all better though. She was a great teacher with a smile always on her face. That year I made some friends I still have today!

I now go to college. I go to Indiana university Kokomo. I am going to college for business management and Finance. I love math so I choose a career with lots of math! Indiana University Kokomo is very small, that is why I love it so much! You get to know your teachers very well. Maybe one day you will go to Indiana university Kokomo!
