

Brookhaven School District

Student Internet & Technology Appropriate Use Policy

The Brookhaven School District is pleased to offer to its students, faculty, and staff access to the Internet in accordance with the terms and conditions of this policy.

Overview

Internet access is coordinated through a complex association of government agencies and regional state networks. In addition, the smooth operation of the network relies upon the proper conduct of the users who must adhere to strict guidelines. To this end, Congress has passed and President signed into law, the Children's Internet Protection Act (CIPA). CIPA requires that schools receiving certain federal funds including E-Rate discounts and Title III of the Elementary and Secondary Education Act put into place Internet safety policies. These Internet safety policies must include a technology protection measure for blocking access to "visual depictions" of obscene materials, child pornography, and materials that is "harmful to minors" when minors are accessing the computer. CIPA also requires that the Internet safety policy include monitoring all online activities of minors. Additionally, the policy must address all of the following: (a) access by minors to inappropriate matter on the Internet and World Wide Web, (b) the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications, (c) unauthorized access, including so-called "hacking", and other unlawful activities by minors online, (d) unauthorized disclosure, use, and dissemination of personal information regarding minors; and (e) measures designed to restrict minors access to materials harmful to minors.

Recognizing that no filtering solution can be 100% effective, it is understood that all technology protection measures do not and will not work perfectly. In complying with CIPA, schools are expected to engage in a "good faith effort" to abide by the requirements of CIPA. CIPA does not create a private right to action, meaning that the discovery of objectionable material on a computer cannot result in a lawsuit complaining that a school violated CIPA.

These guidelines are provided so that you, the user and/or parent of the user, are aware of the responsibilities you are about to assume. In general, this requires efficient, ethical, and legal utilization of the network resources. If a Brookhaven School District user violates any of these provisions, his or her account will be terminated and future access could possibly be denied. The signature(s) at the end of this document is (are) legally binding and indicated the party (parties) who signed has (have) read the terms and conditions carefully and understand (s) their significance.

Specifically, as required by the Children's Internet Protection Act, blocking shall be applied to visual depictions of material deemed obscene or child pornography, or to any material deemed harmful to minors.

Subject to staff supervision, technology protection measures may be disabled for adults or, in the case of minors, minimized only for bona fide research or other lawful purposes.

Procedures for the disabling or otherwise modifying any technology protection measures shall be the responsibility of The Technology Director or designated representatives.

The Brookhaven School District or designated representatives will provide age-appropriate training for students who use the Brookhaven School District Internet facilities. The training provided will be designed to promote the Brookhaven School District commitment to:

2. User agrees not to download large files unless it is absolutely necessary. If absolutely necessary to download large files, user agrees to download the file at a time when the system is not being heavily used.

4. User agrees to immediately notify his/her teacher or other school administrator should user access inappropriate information. This will assist protecting user against a claim of intentional violation of this policy.

User Rights

1. The Internet is considered a limited forum, similar to a school newspaper, and therefore the Brookhaven School District may restrict user's right to free speech for valid educational reasons. Brookhaven School District will not restrict user's right to free speech on the basis of disagreement with the opinions expressed by user.
2. User shall have the responsibility to use computer resources for academic purposes only. Therefore, as mandated by CIPA, filtering will be utilized on all computers accessing the Internet. The only exception will be for academic research by a staff member with the approval of school administration.
3. Users should not expect files stored on school-based computers to remain private. Authorized staff will periodically inspect folders and logs of network usage will be kept at all times. Routine review and maintenance of the system may indicate that user has violated this policy, school codes, municipal law, state law or federal law, state law or federal law. Parents of minor users shall have the right to inspect the contents of user's files.
4. Brookhaven School District will fully cooperate with local, state or federal officials in any investigation related to illegal activities conducted through the user's Internet account.

Individual schools within the district may create additional guidelines and procedures consistent with this policy. Such guidelines and procedures will be appropriate for the electronic information resources being used and the student served at the school. Use of the Internet is a privilege, not a right, and inappropriate use will result in cancellation of those privileges. The principal or his designee may deny, revoke, or suspend user privileges to any user determined to be using the system in an inappropriate manner. The decision of the principal will be final.

Consequences for Failure to Follow Terms and Conditions of Internet Use Policy

There will be consequences for any user who fails to follow Brookhaven School District and school guidelines and policies. The consequences may include paying for damage, denial of access to technology, detention, suspension, expulsion or other remedies applicable under the school disciplinary policy, and state or federal law. At the discretion of Brookhaven School District, law enforcement authorities may be involved and any violations of state and or federal law may result in criminal or civil prosecution.

When a user is using the Brookhaven School District system, it may seem as though these policies could be easily broken and that the user would not get caught. This is not true. Electronic footprints are left behind on a machine each time it is used, and the potential for apprehension always exists.

I have read the Brookhaven School District Internet Appropriate Use Agreement as stated in the previous three pages. I understand and will abide by the terms and conditions as stated. I understand that some Internet violations are unethical and may constitute a criminal offense resulting in legal action.
