

Parents' Perspective

AMES Parent/Guardian Suggestion Form

Your input is vitally important to us!

The purpose of this form is to address suggestions made by AMES parents and to provide feedback on the status of the suggestions.

Please fill out the form below and email to haunbd@spart6.org or turn into the office. Please provide specific and/or detailed information concerning your suggested improvement. Completed forms will be reviewed by the school principal and assistant principals as they are received. The suggestion will then be directed to the appropriate school related group (PTO, teachers, principal, district office etc.). Please allow time for this process. If you provide an email address or phone number, you will be notified which group is addressing the suggestion. Please understand that suggestions may not be implemented for various reasons. This is a school improvement suggestion form. We are looking for positive, constructive suggestions.

Please do not use this form to address the following:

- 1) Issues specific to your child only---contact teacher, counselor or principal
- 2) Emergency or immediate safety concerns---contact the principal immediately

Name: _____
