Parents/Guardians of EHS Biology Students,

Elkhart High School Biology teacher Stephanie Taylor has made a professional career decision to begin studies to become a nurse. In her absence we will have high school science teacher Mrs. Dona Coppedge and long-term substitute teacher Mrs. Krista Bell co-teach the biology classes until we find a replacement. Mrs. Coppedge, who is a certified biology teacher, has taught biology in our district in the past and she along with Mrs. Bell will do a great job with all of our students.

Mrs. Taylor informed us this summer of her plans to leave at the end of the fall semester and we immediately posted the vacant position at several universities and on several educational websites. We will continue our search for a certified biology teacher in the meantime and, as always, we will continue to provide the best educational services possible for your child.

Should you have any questions about this please feel free to come by and visit with me at any time. I can also be reached at our office number listed above and by email at jives@elkhartisd.org.

Sincerely,

Jason Ives
Elkhart High School Principal
