

# Junior and Senior Leadership P.E. Programs

Teacher: Mrs. Levicke

## Description of the Program:

The overall goal of the Junior/Senior Leadership Program is to provide opportunities for leadership development in our students within a physical education environment. Students involved in the leadership experience will learn the character qualities necessary for successful relationships in all aspects of their life, education, and future careers. These relationships will be the springboard that empowers future student leaders to take the educational risks necessary for personal growth.

Through a comprehensive curriculum of team building and cooperative based learning strategies, students will have an opportunity to explore leadership roles, build positive, respectful relationships with peers and teachers, exemplify characteristics of an outstanding citizen, demonstrate skills, acquire knowledge related to the field of physical education, and stimulate an interest in the teaching/leadership profession. The overall goal of the Junior/Senior Leadership Program is to provide opportunities for leadership development in our students within a physical education environment.

Students accepted into the Junior/Senior Leadership Program will receive physical education credit. Physical education exemptions and early major disciplinary infractions are not permitted during the two year Junior/Senior Leadership Program. Failure to comply will result in a dismissal from the program.

Please come see Mrs. Levicke or the Counseling Office for an application. Please return the COMPLETED application to Mrs. Levicke.

*Try something new in P.E. and be a LEADER!*
