LEGISLATIVE COUNSEL'S DIGEST

AB 1639, Maienschein. Pupil health: The Eric Paredes Sudden Cardiac Arrest Prevention Act.

Existing law requires a school district, charter school, or private school that elects to offer an athletic program to comply with certain requirements relating to pupil safety, including, among other things, removing an athlete who is suspected of sustaining a concussion or head injury from an athletic activity.

This bill would create the Eric Paredes Sudden Cardiac Arrest Prevention Act and would require the State Department of Education to post on its Internet Web site guidelines, videos, and an information sheet on sudden cardiac arrest symptoms and warning signs, and other relevant materials relating to sudden cardiac arrest. The bill would require a pupil in any public school, including a charter school, or private school that elects to conduct athletic activities, and the pupil's parent or guardian, to sign and return an acknowledgment of receipt of an information sheet on sudden cardiac arrest symptoms and warning signs each school year before the pupil participates in an athletic activity, as specified. The bill would require an athletic director, coach, athletic trainer, or authorized person, as defined, to remove from participation a pupil who passes out or faints while participating in or immediately following an athletic activity, and would require a coach of an athletic activity to complete a sudden cardiac arrest training course every other school year. The bill would impose penalties, on and after July 1, 2019, for a violation of the provision requiring a coach to complete a sudden cardiac arrest training course, as specified. The bill would make the act's provisions operative on July 1, 2017.
