- **Budget**

Budget was returned back for more revision. Anything funded at the state level is evidence based. Revision(s) must be made for 1003(a) budget. There is an idea to partner with an outside source that would supply other alternatives to incorporate into the budget for approval. Ms. Jaeger would like to supply 2 strategists within the budget. Some revisions were made to the Title 1 Budget in the areas of monitoring progress, prep buy outs, extra duty licensed personnel. Revisions were also made to Title 1 for extra duty help and parent meeting refreshments.

**New Agenda Items**

- **ANet**

We had guests who were from an organization known as ANet to introduce to the SOT team their educational product. ANet is a non-profit organization that provides coaching, leadership and on-line tools to study data from testing. The organization will bring in groups of instructional teams into the school to assist educators. ANet coaches would make 20 visits per school year. ANet would build support/capacity and phase out after 3 years of instruction. ANet is also an approved state vendor for Nevada.

**General Discussion**

- **Discussion was open to ANet representatives**

Questions were asked by team members in order to gain more key information on how this system will help the school educators succeed. From Q & A it was noted that Data is collected and developed as a collective reviewing within the parameters of the school leadership and its needs. ANet partners with 700 schools across the country, this includes district
