

Clever Instructions for Students

How to Login:

The link for Clever is found on the district webpage www.cpsbla.us

Click on Students and then click Clever Portal or go directly to

<https://clever.com/in/cpsb>

Student Username: Student's first name initial + last name initial + 7 digit JCampus student id number. Ex: SC1234567

Student Password: 7 digit JCampus student id number. Ex: 1234567

Note: Teachers when you log in through your teacher account, you'll be able to see your students' logins

There are still a few programs that we offer in our district that are not currently partnered with Clever. These include: Reading Eggs and Accelerated Reading. Clever has plans to partner with these companies soon. Therefore, you will receive separate login information for those programs.

Grades PreK-5 will be able to use Clever Badges. These badges are QR codes that a student can hold up to a camera on a computer. The camera will scan the code and log the student in. These work great if your students are using laptops, iPads or chromebooks. If you'd like to use Clever badges in your classroom, email sarah.wiley@cpsbla.us and the badges will be emailed back to you.

To use Badges, you'll need to allow Clever access to your device's camera.

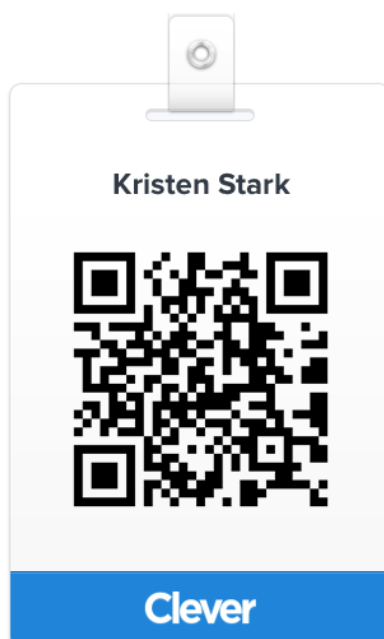

For Young Ones

Badges are perfect for students who have trouble typing or remembering complex passwords

A Safer Alternative

Clever Badges replace less-secure practices like sharing or posting passwords

Direct Login with Chromebooks

Students can log directly into Chromebooks by holding up a Clever Badge

No More Troubleshooting

Teachers get more time to teach, and students get more time to learn

Download the free Clever app in the App Store!
