

## Construction Project Advisory Committee

August 24, 2016

Drew Patin, Jen Guitet, parent/ET @WMS, Kyle Rhoads, Jeff Vermette (absent), Michele Jordan, Kim Hartwell, Sandy Prince and DSD (Bill Hansen arrived to greet folks and departed due to a prior engagement)

Drew brought the meeting to order at 6:40 PM

Please see agenda as distributed by Drew.

Drew went over general information regarding the location/light dinner, etc. It was agreed that folks would contact Drew if they are not able to attend a scheduled meeting.

Drew went over committee makeup and noted that others may be brought in as needed (expertise).

Drew noted the School Board charge. It was noted that this committee will not be involved in the actual design of the building. There was further discussion as relates to the conceptual design of the building.

The committee will work on back-planning dates to recommend to the School Board.

We will distribute the PDT back-planning timeline and the PowerPoint presentation that went to the School Board on June 15, 2016.

Data collection is imperative to the success of the initiative.

The committee will need to communicate the benefits of a new school to a diverse stakeholder group. Who is the audience? What are people going to want to know?

Re-visit the demographic data from Planning Decisions, Inc.

Consider other sites (Field Allen, etc.)

**Consider bringing PDT to meeting---it was decided to do so...**

Committee members need a history---perhaps an executive summary---infographics.

What method of communication will we employ? The committee is in favor of a survey.

Can a survey be legally done at the polls? ---Use of technology?

What is the impact on Raymond---vote---new vs. reno?

Next 21<sup>st</sup>---3 to 5 PM, also the 28<sup>th</sup> same timeframe...
