

# Your Measure P Dollars at Work

On November 2, 2010, voters in the Monterey Peninsula Unified School District overwhelmingly approved Measure P, a \$110 million locally-controlled bond measure to fund the first phase of critical repairs and improvements to our local schools. The district's newest school was built in 1965, more than 50 years ago, and our comprehensive Facilities Needs Assessment (FNA) has identified over \$680 million in critical repairs to all schools. To review the recently updated FNA, visit [www.mpusd.net](http://www.mpusd.net).

With so many improvements needed, upon Measure P's approval, the district's first task was to prioritize the most important repairs and renovations into Phase I and deliver on its promise to local voters, understanding that the remaining projects would need to be addressed at a later date. **We are proud to share all that we have accomplished under Measure P.**

## ✓ **Repaired and Replaced Aging Heating, Plumbing and Ventilation Systems**

Severely outdated heating, plumbing, electrical and air conditioning systems threatened the quality of education in local classrooms. Several modern, energy-efficient systems were installed so that our teachers and students can focus on learning when they're in the classroom.

## ✓ **Installed Educational Technology to Support 21st-Century Student Success**

The requirements for student success are rapidly changing in the 21st Century and a modern education requires access to up-to-date instructional technology. Many classrooms now have the learning tools students need for success in the modern world.

## ✓ **Improved Utility and Energy Efficiency to Save Money for Academic Programs**

By installing solar panels in local schools and replacing aging heating, plumbing and electrical systems with modern, energy-efficient alternatives, we've been able to save money and focus on educating our students.

## ✓ **Protected Student Safety**

The safety of our students is our number one concern. New alarms, fencing and security systems have been installed to maintain a safe learning environment in many schools. Accessibility improvements were made to ensure students with disabilities can safely get to and from class and receive a quality education.

## **Committed to Transparency and Fiscal Accountability**

Our district is dedicated to fiscal responsibility, especially when managing taxpayer dollars. Every year since the passage of Measure P, an independent Citizens' Oversight Committee has closely examined every penny to ensure the proper use of funds. # How Has Measure P Improved Education at Your School?

## **Crumpton Elementary**

- Installed energy-efficient solar
- Installed security fencing and curtains for student safety
- Replaced outdated heating, ventilation, air conditioning
- Paved/resurfaced old parking lot and walkways to ensure ADA accessibility
- Repaired leaky roofs

## **Del Rey Woods Elementary**

- Replaced outdated heating, ventilation, air conditioning
- Provided 21st-century instructional technology
- Provided safe/modern desks for students
- Paved/resurfaced old parking lot and walkways to ensure ADA accessibility
- Repaired leaky roofs

## **Dual Language Academy of the Monterey Peninsula**

- Provided safe/modern desks for students
- Paved/resurfaced old parking lot and walkways
- Installed security curtains for student safety
- Repaired leaky roofs

## **Foothill Elementary**

- Replaced old gas line
- Ensured ADA accessibility
- Provided safe/modern desks for students
- Repaired leaky roofs

## **Highland Elementary**

- Replaced outdated heating, ventilation, air conditioning
- Installed security fencing and curtains for student safety
- Provided 21st-century instructional technology
- Repaired leaky roofs

## **King Elementary**

- Replaced outdated heating, ventilation, air conditioning
- Relocated and upgraded classrooms and science labs
- Installed security fencing and curtains for student safety
- Provided 21st-century instructional technology
- Repaired leaky roofs

## **La Mesa Elementary**

- Ensured ADA accessibility
- Installed locksets for student safety
- Modernized outdated student restrooms
- Repaired leaky roofs

## **Marina Vista Elementary**

- Replaced outdated heating, ventilation, air conditioning
- Ensured ADA accessibility
- Installed security fencing and curtains for student safety
- Provided 21st-century instructional technology
- Repaired leaky roofs

## **Marshall Elementary**

- Updated aging electrical/communication systems
- Upgraded aging playground equipment for student safety
- Installed security fencing and curtains for student safety
- Repaired leaky roofs

## **Monte Vista Elementary**

- Upgraded aging playground equipment for student safety
- Installed alarm system for student safety/security
- Paved/resurfaced old parking lot and walkways to ensure ADA accessibility
- Repaired leaky roofs

## **Olson Elementary**

- Replaced aging flooring
- Installed security fencing and curtains for student safety
- Paved/resurfaced old parking lot to ensure ADA accessibility
- Repaired leaky roofs

## **Ord Terrace Elementary**

- Replaced outdated heating, ventilation, air conditioning
- Provided safe/modern desks for students
- Paved/resurfaced old parking lot and walkways to ensure ADA accessibility
- Repaired leaky roofs

## **Los Arboles Middle School**

- Replaced aging flooring
- Installed security fencing and curtains for student safety
- Installed energy-efficient solar
- Provided 21st-century classrooms and instructional technology
- Repaired leaky roofs

## **Seaside Middle School**

- Replaced outdated heating, ventilation, air conditioning
- Installed energy-efficient solar
- Provided 21st-century classrooms and instructional technology
- Repaired leaky roofs

## **Walter Colton Middle School**

- Replaced outdated heating, ventilation, air conditioning
- Provided 21st-century instructional technology
- Provided safe/modern desks for students
- Repaired leaky roofs

## **Marina High School**

- Replaced aging water main
- Installed security fencing and curtains for student safety
- Updated aging electrical/communication systems
- Relocated portable classrooms
- Paved/resurfaced old parking lot and walkways to ensure ADA accessibility
- Repaired leaky roofs

## **Monterey High School**

- Replaced outdated heating, ventilation, air conditioning
- Modernized pool to ensure ADA accessibility
- Resurfaced unsafe tennis courts
- Paved/resurfaced old parking lot and walkways to ensure ADA accessibility
- Installed security curtains for student safety
- Repaired leaky roofs

## **Seaside High School**

- Ensured ADA accessibility
- Replaced outdated heating, ventilation, air conditioning
- Installed energy-efficient solar
- Replaced aging flooring
- Provided 21st-century classrooms and instructional technology
- Paved/resurfaced old parking lot and walkways to ensure ADA accessibility
- Repaired leaky roofs
