## **SCHOOL BOARD LEGISLATIVE PROGRAM**

The School Board, as an agent of the state, must operate within the bounds of state and federal law affecting public education. If the School Board is to meet its responsibilities to the residents and students of the community, it must work vigorously for the passage of new laws designed to advance the cause of good schools and for the repeal or modification of existing laws that impede this cause. To this end:

1. When appropriate, the School Board will work for the achievement of common legislative objectives through association with state and national school board groups and with other concerned groups.
2. The School Board will also seek both direct and indirect representation of its position on pending legislation with appropriate state and federal legislators and legislative committees.
3. The School Board will designate one of its members to serve as legislative representative with the New Hampshire School Boards Association.
