2015-2016 SCIENCE FAIR

Science Fair Winners

Upper Science Winners

44 Winners

Lower Science Winners

35 Winners

There are so many different types of science! Behavioral, social, chemistry, physics, zoology....the list goes on. After doing research, developing a hypothesis, performing the experiment(s), and finally coming up with a conclusion, students were able to determine if their hypothesis

was proven correct or incorrect. Each student presented their project to guest judges on January 21. Students learned a lot while having a great time. Thank you students, judges, teachers, and Vicki Moorehead for an **OUTSTANDING Science Fair**

Upcoming Events

1ST Grade – Are you brushing and flossing regularly? Well the 1st grade got a lesson on this when Dr. Matthew Harris (John’s Dad) and his crew from Mississippi Smiles paid them a visit. As part of their Community Helper Unit, the students had a great lesson with fun activities on keeping their teeth clean and healthy. Thank you to

[Mississippi Smiles Dentistry](#) for coming out!

As the 1st Grade continues their Community Helper Unit, they had a visit from Michael Schuhmann (Harper’s Dad) with the Gluckstadt Fire Department and Officer Gaines with the Madison County Police Department. Thank you, Michael and Officer Gaines!

Regarding “Community Helpers”, the Fifth Grade had their hand in helping the 1st Grade get ready for their Patriotic Play. They assisted the students with writing and learning their vocabulary words. STA teaching service to others.

SPORTING NEWS

STA EAGLE BASKETBALL
