

WABASH COUNTY PROMISE

Presenting Sponsor: Beauchamp McSpadden

Activity 3: What Can We Find on a College Campus?

Learning Goals

- Students will learn about what a college campus is like by taking a virtual tour.
- Students will prepare for their field trip to a college campus by learning the different buildings.

Materials Needed

Handout: *What Can We Find on a College Campus?* and SMARTboard/projector with internet connection

Activities

What Can We Find on a College Campus?

1. Visit campustours.com or ecampustours.com prior to the activity to determine what elements of the college campus you will highlight and discuss with students.
2. If, during this activity, you will virtually tour the campus you attended, you may want to share some stories with students or wear clothing from your campus. You may also wish to tour the campus of Manchester University in preparation for the field trip and Walk Into My Future event.
3. Share with students the types of buildings and outdoor spaces they will find on a college campus.
4. Project the campus map or use the 360 degree photos to show students details about the particular campus you are "visiting" in class.
5. Distribute *What Can We Find on a College Campus?* handout and help students complete it based on the campus that you visited together.
