

## Incoming 7th Graders Immunization Requirements

Updated immunization records are **REQUIRED** for all incoming 7th graders.

State law requires the following immunizations **PRIOR** to your child attending 7th grade:

- Tdap booster
- Meningitis Vaccine
- 2nd Varicella vaccine or history of Chicken Pox disease

**If you are unsure about your child's immunization status, contact your child's doctor's office. Be sure to tell them your child is going into the 7th grade to ensure they are compliant for next year's requirements. Your child may have had these but we need the updated record. Most children get these shots at age 11.**
