

Fall and Winter Upcoming

As Fall and Winter approach, cooler and wet weather will prevail. Please have your porch light on and be waiting for the bus during inclement weather. During these times, safety concerns increase. My main goal as Transportation Director is the safety and security of all students and employees.

- Dress your children appropriately for cold or wet days.
- During bad weather days, ALL buses will stop at each house or bus stop, and drop off at each home as close as possible in the afternoons.
- During sunny days, continue to have your child ready 5 minutes early for their bus routes.

It is my privilege to serve the student and faculty of Westwood ISD for my 11th year.

Bus concerns or rider information—please call 903-723-0425 and visit with me or my assistant, Angela Thompson.

Thank you,

Phil Nedbalek

Director of Transportation

Westwood ISD
