# VICKSBURG CATHOLIC SCHOOL

## St. Aloysius High School

### 2018-2019

#### **Scheduling Procedures:**

In the spring term, current St. Aloysius students are presented materials about the courses being offered in the upcoming school year. They are instructed to review the list, course catalog, graduation requirements and their transcript and to discuss their choices with their parents, teachers and school counselor.

- The course request process concludes with verification forms which are sent with students after the counselor meeting and must be returned with the required parent/guardian signatures.

The requests of all St. Aloysius students are used to assign faculty and create the master schedule. Once the master schedule is completed, students are placed in the best available schedule.

- Electives, AP courses and DC courses may vary each year depending on student interest, faculty availability, and scheduling. Refer to the complete course catalog for potential offerings. Courses may be canceled due to insufficient number of requests.
- Every attempt will be made to place a student in his/her requested courses whenever possible.
- Please be advised that students who request honors math or honors English are very likely to be placed into the honors section of the other subject as well due to scheduling constraints.
- A student may also be placed in different courses based on principal, counselor, or department recommendation after reviewing his/her final grades at the conclusion of the current school year.
- Final schedules will be published online approximately one week before school starts in August. If necessary, requests for a change of schedule will be accepted per instructions provided at that time.

#### **Advanced Placement Courses (+2.0 QP):**

Advanced Placement (AP) courses are high school courses that provide curriculum that is accelerated and often equated with college level material. AP course curriculum is determined by the College Board. Students may earn college credit with satisfactory completion of the course and scoring successfully on the related AP exam at the end of the term. College acceptance varies from one institution to another based on its own policies.

#### **Dual Credit Courses (+1.0 QP, +3 College Hours):**

Dual Credit (DC) courses are offered in partnership with Hinds Community College. Dual Credit students receive high school Carnegie units as well as college credit for their course work. Certain eligibility requirements must be met for placement in Dual Credit courses. High school students participating in Dual Credit are enrolled at Hinds and must follow all college policies. Out-of-State and Private College acceptance varies from one institution to another based on its own policies.

#### **Honors Courses (+1.0 QP):**

Honors courses provide a more in-depth curriculum that is taught at a rapid pace. Students must demonstrate that they are committed to a strong work ethic, willing to work independently and routinely contribute to a productive class environment.
