REPORTS AND INFORMATION ITEMS

- A. An update was given by Becky Wetzel, Consultant to STAR (Alternative Governance) Team, on Garvey Intermediate and Temple Intermediate Schools.

Ms. Wetzel gave a background on the purpose of the STAR Team as the alternative governance structure for the Program Improvement schools, Garvey and Temple Intermediate Schools. The STAR Team is comprised of District administrators and Ms. Wetzel. The STAR Team met with the two middle schools monthly for half a day to monitor the restructuring plan that the schools developed. Ms. Wetzel indicated that the job of the STAR Team is to ensure and provide necessary support to the schools from the District to implement the restructuring plan.

Temple Intermediate School

Ms. Wetzel indicated that as of January 2013, there were some difficulties in getting staff to see a sense of urgency around the changes that were being recommended. The data indicated that a lot of students are at the basic level and those students could move more easily into proficient. Ms. Wetzel indicated that in 2012, there were 16 of the 21 targets met; none of the language arts-subgroups met the targets. In mathematics, the targets met were through Safe Harbor but were not met

for the Hispanic subgroup. The STAR Team discussed what targeted assistance and interventions the District can use to help students move up in Language Arts and Mathematics Ms. Wetzel spoke of a concern across the District, where most English-language learners would have been re-classified by the time they reach middle schools, except for students that came into the District later in the year.

Ms. Wetzel stated that the gap of achievement for English Learners compared to all students in the District is quite significant. The data was shared with the staff hoping we could get staff to really addressing the restructuring plan and the recommendations given by the STAR Team for implementation. These recommendations were related to learning objectives, monitoring of progress reports for consistency, checking the understanding, and consistency in implementing the learning objectives in the lesson plans. Ms. Wetzel indicated that the last progress report showed very little reduction in student grades of D's and F's.

Ms. Wetzel spoke of coaching support and professional development that was provided. Ms. Wetzel addressed the departments that have increased collaboration and those that have not. This concept of leadership model has not been embraced by the staff.

Ms. Wetzel spoke of the next steps for the school. Ms. Wetzel recommended the STAR Team review and revise the restructuring plan with the new principal. Ms. Wetzel indicated that a system of safety nets needs to be in place at Temple Intermediate School with Response to Intervention (RtI).

Garvey Intermediate School

Ms. Wetzel indicated that the school is in a different place than just one year ago. Leadership has been consistently embracing change, with positive comments made by school staff. The STAR Team has seen in the last six months a true willingness to try to learn and implement the strategies every day. Learning objectives were seen consistently and of high quality. The report showed an understanding of concepts and increasingly implementing modeling and the use of graphic organizers, especially for students in science and social studies. The staff needs to continue working on checking for understanding.

Ms. Wetzel spoke of regular collaboration within departments. Ms. Wetzel stated that the departments need to discuss data to begin considering the next steps for student achievement. Staff is using the FAST Framework, and now the staff needs to meet and discuss benchmarks. The academic coaches have been warmly received at both Garvey and Temple Intermediate Schools. Ms. Wetzel encouraged teachers to do learning walks and see evidence of what the STAR Team sees at Garvey Intermediate School. The restructuring plan called for ongoing professional development (PD) and the coaches and the RISE, teachers provided this training. With District support, the staff at Garvey provided and established criteria for English language learners and implemented a new curriculum for the EL program.

Ms. Wetzel stated that Garvey staff provided two periods of instruction for newcomers, and used the Safe Schools Ambassadors program for connecting students to school. A celebration to have improved CST scores was held before students took their test. An academic counselor did work with the parents and students identified as needing help.

Ms. Wetzel spoke of the next steps for Garvey Intermediate School. Staff needs to continue to use data, to work on collaboration, and to plan for student needs using formative assessment. Staff needs to continue the learning walks; coaching and PD using the FAST Framework and Common Core Standards needs to continue and staff needs to increase accountability in student talk.

Ms. Wetzel stated that the staff needs to work on strategies to assist English learners and students with disabilities. One of the few things that were not accomplished was the implementation of student mentoring student and teacher celebrations for their accomplishments. Grading practices need to have

consistency within departments. Ms. Wetzel indicated that the staff needs to revise the restructuring plan because many areas have now been accomplished.

Ms. Wetzel stated that staff needs to celebrate the fact that Garvey ranked nine in similar schools (with similar school demographics). They are hoping to reach a rank of ten next year.

John Yuen thanked the staff for all their hard work.

Bob Bruesch commented on Temple Intermediate School having a change of principal with two master schedules and turmoil that would have an impact on teacher collaboration.

Janet Chin cautioned about making an unfair comparison of Garvey and Temple Intermediate School. She clarified that this is not the purpose of the STAR Team report to the Board. Ms. Chin congratulated Garvey Intermediate staff for getting the rank of nine, hoping that the process of the STAR Team will move at a faster rate so the community does not have to undergo more of these types of continuing conversations. Ms. Chin asked to hear from members of the STAR Team at the next Board report from the Team. Ms. Wetzel indicated her intent is only to give a report on the progress made by both of the intermediate schools.

Henry Lo asked about the STAR Team leadership model and whether the Board can have a report on the meetings taking place so the Board can know the concerns from everyone involved. Mr. Lo asked if the number of D and F grades have been improving or declining. Ms. Wetzel felt the overall numbers have stayed the same; however she will confirm the information the Ms. Tina Cunningham. Tony Ramos thanked Ms. Wetzel and asked for a statement to the Board through the Superintendent regarding Mr. Lo's request on meetings regarding the leadership model brought up by Ms. Wetzel.

John Yuen commented on his understanding that in the last couple of years, Temple Intermediate School has improved. He stated he needs to understand the leadership model presented tonight and acknowledged that Temple staff has some relationships to work on. Mr. Yuen stated he is very impressed that everybody is willing to work together.

- B. Robert McEntire presented a fiscal update. He gave new information since the Governor's May Revision, the ongoing debate on the LCFF (Local Control Funding Formulas) for Garvey School District. He noted that the LCFF did not include the traditional budget items we are accustomed to like: COLA's (cost of living adjustments), and deficit factors. He also discussed how the original LCFF had almost complete local accountability and how much of that was not out of the LCFF.

Mr. McEntire stated that while the Governor's May Revise includes an increase of \$4.5 billion in funding to schools, the Governor projects a slower growth for next year but the State's Legislative Analyst and the legislature are not in agreement with the budget projections. Mr. McEntire stated that until the State law is amended, revenue limits will be the mechanism for funds to be distributed to all school districts.

Mr. McEntire stated that at this time, School Services is recommending that Districts recognize a COLA increase of 1.56 percent and reduction to the deficit factor which would bring additional funding to \$298 per ADA (average daily attendance). Changing the deficit factor requires legislative action at this time. Therefore the L.A. County Office of Education is taking a position to only recognize the COLA of \$101 per ADA, for purposes of adopting a budget. When the laws are enacted, there will be revisions.

Under the recommendation from School Services, our District would have budgeted over \$1 million of increased revenue. Under LACOE's guidance, and; given declining enrollment, the District would lose a net of about \$100 thousand per year when only adding COLA. Mr. McEntire spoke of how much of

the additional funding for education was for one-time revenue; this resulted in some funds being used to partially fund Common Core Standards. The State is only proposing to fund about 1/3 the estimated cost of implementing Common core State Standards.

Bob Bruesch commented on the declining enrollment and the need to advocate for more affordable housing in the local cities to help increase student enrollment.

Henry Lo asked about the impact the LCFF will have on those districts with declining enrollment. Mr. McEntire spoke of the Department of Finance published enrollment figures for our District that needs some corrections. Mr. Lo asked if the concentration grant which is being debated in the State now would be of benefit to our District. Mr. McEntire stated that if SB 69 passes, the bill would specifically remove the concentration grant converting the funding to a supplemental grant. This debate will be decided on June 15, 2013, however, we may not know of the final decisions until July or August, 2013. Henry Lo commented that the Governor may veto SB69.

Tony Ramos asked about the accuracy of our enrollment projections. Mr. McEntire stated that last year's projections were extremely accurate.

MOTION TO EXTEND THE MEETING

On the motion of Tony Ramos, seconded by Bob Bruesch, and carried by a vote of 5 to 0, the Board extended the meeting to 12:00 Midnight.

C. Dr. Mary Suzuki presented a Common Core Update.

Dr. Suzuki provided a binder with information on the Common Core transition plan updated in March 2013. She spoke of the full day exploration and awareness trainings for K-8 teachers and having a joint training with the Alhambra Unified School District for 7th-8th ELA and mathematics teachers. Staff training took place throughout the year in 2011-2012 and 2012-2013. Dr. Suzuki thanked the academic coaches for their work in updating the K-2 pacing guides with Common Core State Standards (CCSS). She talked about the Board adopting the K-2 Common Core Envision Math curriculum that provides the necessary resources to teachers. Dr. Suzuki indicated that in May, parents were provided with information on Common Core Standards and multiple parent meetings are scheduled for next year which will include a handbook in all four languages (English, Chinese, Spanish, and Vietnamese). Dr. Suzuki noted the key shifts in English Language Arts Common Core Standards, relating to text complexity, writing arguments, and integration of technology and hardware needs to support the Standards.

Dr. Suzuki described the staff discussions around the similarities and differences of CCSS and the 1997 State Standards in Mathematics for elementary and middle schools. She spoke of a monthly meeting of assistant superintendents in the San Gabriel Valley discussing the various stages of CCSS and the training needs for teachers and academic coaches, including the staff training needs at all different levels of transition. Planning has begun to align the curriculum for elementary grades and this discussion will follow for middle schools.

Dr. Suzuki addressed the Smarter Balanced assessments and technical skills students will need in order to perform. She stated that Dewey and Sanchez staff participated in a spring pilot assessment that showed some challenges in some areas while in other areas our District seems to be well prepared.

Dr. Suzuki spoke of the next steps for the year 2013-2014. Staff will be working on deconstructing the State Standards and integrating technology for the new CCSS. The District is preparing students for college and career readiness. Dr. Suzuki spoke of the integration of the FAST Framework with CCSS.

Tony Ramos asked if there is information on the building being a danger or a hazard. Robert McEntire indicated that the last inspection was done two years ago and did not identify the structure as a fire hazard or structurally not sound. Dr. Sandra Johnson stated that the lead paint needs to be removed and that it would not be good time for the Board or administration to consider building a warehouse with the state of many of our schools and several that were build in 1926. The District has serious facilities issues that can be resolved with bond funds
