

FREING SPACE IN YOUR EMAIL

First, look on the right side of your screen. Click on Search Folders at the bottom, and see if the folder “Larger than 500 KB” has anything in it. If it does, delete those items.

Next, make sure that your Sent Items Junk E-Mail, & Deleted Items folders are empty. Right-click on them to empty/delete their contents.

Make sure you empty your Sent Items & Junk E-Mail folders first.
