Public Notification:

In conjunction with the Texas Department of State Health Services of Madison County, part of the mission of Madisonville Consolidated Independent School District is to provide for the health and safety of our students.

There are concerns in regards to meningitis at our Elementary campus. In response to these concerns, Madisonville CISD is sending the attached information sheet about meningitis home with students. As a district, we have taken all necessary precautions to ensure the safety of our students.

Should you suspect someone of having meningitis, seek prompt medical attention.

The nursing staff for Madisonville CISD is in daily contact with the Texas Department of State Health Services regarding this matter. Additional information may also be found at the web sites for the Centers for Disease Control and Prevention: www.cdc.gov, the Texas Department of State Health Services: www.dshs.state.tx.us, and Madisonville CISD: www.madisonvillecisid.org.

At this time there are no recommendations for treatment of schoolmates. As of yet, we still have not received confirmation on the type of meningitis in question. This website will be updated and parents will be contacted if recommendations change.

Investing in the Future
