Re: Raptor Volunteer/Visitor Management System

Dear Parent/Gaurdian,

As we enter into the new year, Lammersville Unified School District will be implementing a new volunteer/visitor management system, Raptor, beginning January 22nd, 2018. Raptor is a volunteer/visitor management system that enhances school security by reading a visitor's drivers' license (or other approved state issued ID) and comparing it to information in a sex offender database. If a match is found school administration will be alerted.

Raptor helps our schools track visitors and keep unwanted visitors out. By proactively alerting personnel to certain potential threats, Raptor allows school administrators and law enforcement personnel to take appropriate steps to keep the students, employees, and visitors safe. For verified visitors, the system prints badges that include the visitor's name, photo, date, and destination. Badges enable personnel within the building to quickly determine if visitors are in areas where they should or should not be.

The scanner is able to scan all state licenses, state identification cards, concealed handgun licenses, consular ID cards, green cards, active military cards, and passport cards (not the full passport). It does not officially scan other countries' IDs. Visitors without a government issued ID can be verified and allowed entry to campuses by providing their last name, first name, and date of birth through the main office. We request that all visitors and volunteers bring in a form of identification each time you check-in to campus.

Raptor is only scanning the visitor's name, date of birth, and photo for comparison with a national database of registered sex offenders and any confidential alerts at the school. Additional visitor data will not be gathered and no data will be shared with any outside company or organization.

By employing the Raptor volunteer/visitor management system, it is our goal to increase the safety of our schools and provide an enhanced customer service experience that increases accuracy and is user friendly. Should you have questions regarding the new system, please contact your school administration or Human Resources.
