

Child Protection for Adults
Including CyberSafety
Skills & Strategies

Parents, educators, & other adult leaders: learn skills to keep kids safe with people including strangers, peers, & others at school, out in the world, & at home as well as online - including on social media.

Experts worldwide recommend Kidpower for our age-appropriate, effective, & empowering approach to teaching child protection, positive communication, and social safety

Kidpower skills prepare adults and kids alike to develop healthy relationships and make safe choices with people including strangers, siblings, peers, and other people they know, in the real world and online.

We'll practice ways to protect kids from harm and to prepare them to take charge of their own safety - over time and in developmentally appropriate ways - in the real world & online, including on social media. We'll practice ways to help kids learn how

- Make safety plans for public places
- Move away from possible trouble
- Follow Stranger Safety rule
- Set & respect boundaries
- Apply safety skills online
- Be & act aware & confident
- Stay safe from hurtful words
- Get help from adults to be safe
- Stop unwanted touch & attention
- Deal with peer pressure & bullying
- Build good digital citizenship habits
- Make online & real-world safety agreements

Presented by Kidpower®, the global nonprofit leader in 'People Safety' Skills Education for all ages since 1989
