

STUDENT HEALTH CARE

It is the practice of the Tooele County School District to have a health care plan in place for children who have a health concern. The classroom health care plan (HCP) helps to ensure a better understanding of your child's health care needs and is directly reviewed with your child's teacher and principal.

Issues that need to be addressed are:

- Administration of medication to student by school personnel
- Students carrying and self-administering their own medication
- Diet modifications
- Medical conditions
- Physical cares that need to be done during school hours

HCP's require signatures from parents/guardians and health care providers. Under Utah Code 53-A-11-601 medication administration and possession of medication is allowed at school as long as consents are signed by parents/guardians and health care provider.

If your student requires any of these services or attention regarding a health care concern, it is the parent's/guardian's responsibility to contact the student's school. The school will provide you with the appropriate paperwork so that your student's health concerns can be addressed at school.
