FEDERAL RACE-TO-THE-TOP GRANT (RTTT-D)**

1. Are you looking at specific apps from Google Play or the Google Play education store?

**We are a Google Apps district and will be using the Google Apps suite. In addition, we'll be looking at Google Play Edu to find and install apps.**

2. Is the vendor enrolling the devices in Google Apps for Education (GAFE) or will the district do that?

**The district will do that.**

3. Is the district currently using charging carts or other type of charging/security appliance?

**We plan on doing that for the Nexus 7. That will be a different contract.**
