**Course Description**

Connecting Math Concepts (CMC) is a teacher directed math program designed to help students master basic math skills while teaching them how mathematical concepts are linked together and applied to real-life. This program uses a variety of instructional tools through workbooks, games and hands-on activities.

**Students placed in CMC Level C will be working on the following concepts:**

- **Writing numerals from dictation**
- **Solve story problems**
- **Solve addition and subtraction problems**
- **Solve simple multiplication problems**
- **Solve problems involving money and telling time.**

**Classroom Supplies**

Paper  
Pencils/eraser  
Folder or small binder
