

School Safety is a Priority!

Our first priority in the Tulare City School District is to provide a “safe, secure and healthy learning and work environment.” To that end we have made, and continue to make, safety upgrades at each of our schools. Additional fencing has

been a focus, to provide greater protection from intruders. New fencing funnels all visitors to the office. At each of our school office doors, we now have additional security – all visitors must be let into the office through a doorbell / buzzer system. While we continue to train staff and students in ways

to prevent violence in our schools, as well as ways to respond in an emergency, we continue to layer in additional security. Together, we can all ensure a safe, secure and healthy learning and work environment for all!
