

## **IDEA Public Charter School Local Wellness Policy School Years 2017 – 2020**

This Local Wellness Policy (LWP) outlines IDEA’s approach to ensuring environments and opportunities for all students to practice healthy eating and physical activity behaviors are available throughout the school day while minimizing commercial distractions. This policy applies to all students and staff at IDEA Public Charter School. Specific measurable goals and outcomes are identified within each section below.

### **Local Wellness Committee**

#### **Committee Role and Membership**

IDEA will establish a Local Wellness Committee that meets at least two times per year to develop goals for and oversee implementation of school health and safety policies and programs, including periodic reviews and updates of this LWP.

The Local Wellness Committee will represent all school levels and include (to the extent possible), but not be limited to: parents and caregivers; students; representatives of the school nutrition program (e.g., school cafeteria staff); physical education teachers; health education teachers; school health professionals (e.g., health education teachers, school health services staff, nurses, physicians, dentists, health educators, and other allied health personnel who provide school health services), and mental health and social services staff (e.g., school counselors, psychologists, social workers, or psychiatrists); school administrators (e.g., superintendent, principal, vice principal); school board members; health professionals (e.g., dietitians, doctors, nurses, dentists); and the general public.

#### **Leadership**

IDEA will designate a school wellness policy coordinator, who will ensure compliance with the policy.

The designated official for oversight is Nicole Seward:

<b>Name</b>	<b>Title / Relationship to the School or District</b>	<b>Email address</b>	<b>Role on Committee</b>
Nicole Seward	Chief Operations Officer	<a href="mailto:nseward@ideapcs.org">nseward@ideapcs.org</a>	Assists in the evaluation of the

			wellness policy implementation

## **Wellness Policy Implementation, Monitoring, Accountability and Community Engagement**

### **Implementation Plan**

IDEA Public Charter School will develop and maintain a plan for implementing this LWP. This plan will delineate roles, responsibilities, actions, and timelines and include information about who will be responsible to making what change, by how much, where, and when. The implementation plan will also outline specific goals and objectives for nutrition standards for all foods and beverages available on the school campus, food and beverage marketing, nutrition promotion and education, physical activity, physical education, and other school-based activities that promote student wellness.

IDEA will use a variety of tools (see list below) to complete school-level assessments of implementation of this plan. Based on the results, IDEA will create an action plan, implement the plan, and generate an annual report. IDEA will retain records to document compliance with the requirements of this LWP in its main office and with the Office of the State Superintendent of Education.

Documentation maintained in these locations will include but is not limited to:

- This written LWP
- Documentation demonstrating that the policy has been made available to the public
- Documentation of efforts to review and update the LWP, including an indication of who is involved in the update and methods the LEA uses to make stakeholders aware of their ability to participate on the Local Wellness Committee
- Documentation to demonstrate compliance with the annual public notification requirements
- The most recent assessment on the implementation of the LWP
- Assessment documents made available to the public

IDEA will actively inform families and the public each year of basic information about this policy, including its content, any updates to the policy and implementation status. The school will make this information available via the school website (<http://www.ideapcs.org>) and through school-wide communications. This will include a summary of IDEA's events and activities related to wellness policy implementation. Annually, IDEA also will publicize the name and contact information of the school officials leading and coordinating the Local Wellness Committee, as well as information on how the public can get involved with the Committee.

### **Triennial Progress Assessments**

At least once every three years, IDEA will conduct a Triennial Progress Assessment and develop a report that reviews IDEA's compliance with this LWP. This assessment and report will include a full description of the progress made in attaining the goals of IDEA's LWP.

The positions and persons responsible for managing the triennial assessment and report are *Nicole McCrae, Principal, [nmccrae@ideapcs.org](mailto:nmccrae@ideapcs.org) 202-399-4750*

*Nicole Seward, Chief Operating Officer, [nseward@ideapcs.org](mailto:nseward@ideapcs.org) 202-399-4750*

These individuals will monitor IDEA's compliance with this LWP and develop the triennial progress reports by using, among other tools, the annual LEA self-evaluations described in the above section. IDEA will actively notify households and families of the availability of the triennial progress report.

### **Establishing a Plan to Measure the Impact and Implementation of the Local Wellness Policy**

IDEA will evaluate compliance and effectiveness of this LWP using existing data collection tools, such as, but not limited to:

- OSSE Health and Physical Education student assessments
- DC Healthy Schools Act School Health Profiles
- Centers for Disease Control and Prevention School Health Profiles
- USDA triennial administrative review

### **Revisions and Updating the Local Wellness Policy**

The Local Wellness Committee will update or modify this LWP based on the results of IDEA's annual self-assessment, the USDA triennial administrative review, and on other variables, including if or when IDEA's health priorities change or the community's

health needs change, the wellness goals are met, new health science arises, new technology emerges, or and new federal or state guidance or standards are issued.

### **Community Involvement, Outreach and Communications**

IDEA Public Charter School is committed to being responsive to community input, which begins with awareness of the LWP. IDEA PCS will actively communicate ways in which representatives of the Local Wellness Committee and others can participate in the development, implementation and periodic review and update of the LWP through a variety of means appropriate for IDEA. IDEA also will inform parents of the improvements that have been made to school meals and compliance with school meal standards, availability of child nutrition programs and how to apply, and a description of and compliance with Smart Snacks in School nutrition standards. IDEA PCS will actively notify the public about the content of or any updates to this LWP annually, at a minimum. IDEA will also use these mechanisms to inform the community about the availability of the annual and triennial reports. Additionally, IDEA will disseminate this LWP to parents through posting it in the school office, on the school website, and through any parent-teacher organizations.

### **Nutrition**

IDEA is committed to serving healthy meals to children, with plenty of fruits, vegetables, whole grains, lean protein, and fat-free or low-fat dairy, that are moderate in sodium, low in saturated fat, and have zero grams trans-fat per serving (nutrition label or manufacturer's specification). IDEA works to meet the nutrition needs of school children within their calorie requirements. The school meal programs aim to improve the diet and health of students, help mitigate childhood obesity, model healthy eating habits to support the development of lifelong healthy eating patterns, and support healthy choices while accommodating cultural food preferences and special dietary needs.

IDEA is committed to offering school meals through the National School Lunch Program (NSLP), School Breakfast Program (SBP), and other supplemental programs, that:

- Are accessible to all students
- Are appealing and attractive to students
- Are served in clean and pleasant settings
- Meet or exceed current nutrition requirements established by local and federal statutes and regulations

- Ensure all qualified students will become eligible for free lunch
- Provide at least 30 minutes for students to eat lunch and sufficient time during the lunch period for every student to pass through the service line
- Operate a Universal “Free for All” School Breakfast Program in the cafeteria
- Promote healthy food and beverage choices by using Smarter Lunchroom techniques, such as the following:
  - Whole fruit options offered in attractive, accessible settings
  - Sliced or cut fruit offered, especially for age-appropriate students
  - Alternative entrée options (e.g., salad bar, vegetarian options, etc.) are highlighted on posters or signs within all service and dining areas
  - Student surveys and taste testing opportunities are used to inform menu development, dining space décor, and promotional ideas
  - Healthy cooking class offered bi-monthly to students
  - Attractive food posters are displayed in dining and service areas
  - Compost, recycling, and trash cans are in dining facility

### **Staff Qualifications and Professional Development**

All school nutrition program directors, managers, and staff will meet or exceed hiring and annual continuing education and training requirements in the [USDA Professional Standards for Child Nutrition Professionals](#).

### **Water**

To promote hydration, free, potable drinking water will be available to all students throughout the school day. IDEA will make drinking water available where school meals are served during mealtimes.

### **Competitive Foods and Beverages**

IDEA is committed to ensuring that all foods and beverages available to students on the school campus during the school day support healthy eating. The foods and beverages sold and served outside of the school meal programs (e.g., “competitive” foods and beverages) will meet the USDA Smart Snacks in School nutrition standards, at a minimum. Smart Snacks aim to improve student health and well-being, increase consumption of healthful foods during the school day, and create an environment that reinforces the development of healthy eating habits.

To support healthy food choices and improve student health and well-being, all foods and beverages outside the reimbursable school meal programs that are sold to

students on the school campus during the school day will meet or exceed the USDA Smart Snacks nutrition standards and the DC Healthy Schools Act 2010.

### **Rewards**

IDEA will not use foods or beverages as rewards, incentives, or prizes for academic performance or good behavior that do not meet the nutritional requirements above.

### **Third-Party Vendors**

IDEA will not permit third-party vendors to sell foods or beverages of any kind to students on school property from midnight on the day school begins to 90 minutes after the school day ends, in accordance with Healthy Schools Act and USDA Smart Snacks Standards.

### **Fundraising**

Foods and beverages that meet or exceed the USDA Smart Snacks in Schools nutrition standards may be sold through fundraisers on the school campus during the school day. IDEA will make available to parents and teachers a list of healthy fundraising ideas. Fundraising during and outside school hours will encourage the sale of non-food items or foods and beverages that meet or exceed the Smart Snacks nutrition standards.

### **Food and Beverage Marketing in Schools**

IDEA is committed to providing a school environment that ensures opportunities for all students to practice healthy eating and physical activity behaviors throughout the school day while minimizing commercial distractions. IDEA strives to teach students how to make informed choices about nutrition, health and physical activity. It is IDEA's intent to protect and promote students' health by permitting advertising and marketing for only those foods and beverages that are permitted to be sold on the school campus, consistent with this LWP.

Any foods and beverages marketed or promoted to students on the school campus during the school day will meet or exceed the USDA Smart Snacks in School nutrition standards. Food and beverage marketing is defined as advertising and other promotions in schools. Food and beverage marketing often includes an oral, written, or graphic statements made for the purpose of promoting the sale of a food or beverage product made by the producer, manufacturer, seller or any other entity with

a commercial interest in the product. This term includes, but is not limited to the following:

- Brand names, trademarks, logos or tags, except when placed on a physically present food or beverage product or its container
- Displays, such as on vending machine exteriors
- Corporate brand, logo, name or trademark on school equipment, such as marquees, message boards, scoreboards or backboards (note: immediate replacement of these items are not required; however, IDEA will replace or update scoreboards or other durable equipment when existing contracts are up for renewal or to the extent that is financially possible over time so that items are in compliance with the marketing policy)
- Corporate brand, logo, name, or trademark on cups used for beverage dispensing, menu boards, coolers, trash cans and other food service equipment; as well as on posters, book covers, pupil assignment books or school supplies displayed, distributed, offered or sold by IDEA
- Advertisements in school publications or school mailings
- Free product samples, taste tests or coupons of a product, or free samples displaying advertising of a product

As IDEA's school nutrition services, athletics department, and Parent Volunteer Program reviews existing contracts and considers new contracts, equipment and product purchasing (and replacement) decisions should reflect the applicable marketing guidelines established by this LWP.

### **Nutrition Promotion**

IDEA will promote healthy food and beverage choices for all students throughout the school campus, as well as encourage participation in school meal programs. This promotion will occur through at least:

- Implementing 10 or more evidence-based healthy food promotion techniques through the school meal programs using Smarter Lunchroom techniques

- Ensuring 100 percent of foods and beverages promoted to students meet the USDA Smart Snacks nutrition standards

### **Ensuring Quality Nutrition Education, Health Education, and Physical Education**

IDEA aims to provide age-appropriate and culturally sensitive instruction in nutrition, health, and physical education that help students develop the knowledge, attitudes, and skills to enjoy healthy eating habits and a physically active lifestyle.

#### **Nutrition Education**

IDEA will teach, model, encourage, and support healthy eating by all students.

Schools will provide nutrition education and engage in nutrition promotion that:

- Is designed to provide students with the knowledge and skills necessary to promote and protect their health
- Is part of not only health education classes, but also integrated into other classroom instruction through subjects such as math, science, language arts, social sciences, and elective subjects
- Includes enjoyable, developmentally appropriate, culturally relevant, and participatory activities, such as cooking demonstrations or lessons, promotions, taste-testing, farm visits, and school gardens
- Promotes fruits, vegetables, whole-grain products, low-fat and fat-free dairy products and healthy food preparation methods
- Emphasizes caloric balance between food intake and energy expenditure (promotes physical activity and exercise)
- Links with school meal programs, cafeteria nutrition promotion activities, school gardens, Farm to School programs, other school foods, and nutrition-related community services
- Teaches media literacy with an emphasis on food and beverage marketing
- Includes nutrition education training for teachers and other staff

#### **Essential Healthy Eating Topics in Health Education**

IDEA will include in the health education curriculum essential topics on healthy eating.

#### **Health Education**

IDEA is dedicated to providing formal, structured health education, consisting of planned learning experiences that provide the opportunity to acquire information and the skills students need to make quality health decisions. As such, IDEA will provide students a comprehensive school health education that address a variety of topics such as alcohol and other drug use and abuse, healthy eating and nutrition, mental and emotional health, personal health and wellness, physical activity, safety and injury prevention, sexual health, tobacco use, and violence prevention. IDEA will provide health education that:

- Is incorporated into classroom instruction in subjects such as math, science, language arts, social sciences, and elective subjects
- Incorporates an age-appropriate sequential health education curriculum that is consistent with District and national standards for health education
- Incorporates active learning strategies and activities that students find enjoyable and personally relevant
- Incorporates opportunities for students to practice or rehearse the skills needed to maintain and improve their health
- Incorporates a variety of culturally appropriate activities and examples that reflect the community's cultural diversity
- Incorporates assignments or projects that encourage students to have interactions with family members and community organizations
- Requires the health instructors to participate at least once a year in professional development in health education
- Requires professional development for all teachers in classroom management techniques in the past two years

Additionally, in an effort to ensure reinforcement of health messages that are relevant for students and meet community needs, IDEA will base its health education program, at least in part, on the results of the Health and Physical Education Assessment and in collaboration with the community. IDEA will also seek to embed health education as part of student visits with the school nurse, through posters or public service announcements, and through conversations with family and peers.

### **Improving Environmental Sustainability**

IDEA will seek to improve its environmental sustainability and engage in sustainable agriculture practices through:

- Contracting with food service vendors that utilize locally grown, locally processed and unprocessed foods from growers engaged in sustainable agriculture practices
- School-wide recycling programs

### **Physical Education and Physical Activity**

IDEA acknowledges the positive benefits of physical activity for student health and academic achievement. Recognizing that physical education is a crucial and integral part of a child's education, we will provide opportunities to ensure that students engage in healthful levels of vigorous physical activity to promote and develop the students' physical, mental, emotional, and social well-being.

The components of IDEA's physical education program shall include a variety of kinesthetic activities, including team, individual, and cooperative sports and physical activities, as well as aesthetic movement forms.

Students shall be given opportunities for physical activity through a range of before-school and/or afterschool programs including, but not limited to, intramurals, interscholastic athletics, and physical activity clubs.

IDEA will ensure that:

- Physical education teachers shall develop and implement a curriculum that connects and demonstrates the interrelationship between physical activity, good nutrition, and health
- 50 percent of physical education class time is devoted to actual physical activity
- Suitably adapted physical activity shall be provided as part of the individualized education plan (IEP) developed for students with disabilities
- Physical education staff shall appropriately limit the amount or type of physical exercise required of students during air pollution episodes, excessively hot weather, or other inclement conditions
- Physical activity is neither required nor withheld as punishment.
