Please respond below in the space provided.

Provide us with a brief overview/history of the program or need for materials for which you are requesting funds. Please include the number of students who will be impacted and the age/grade levels.

Describe the rationale for requesting funds and the impact (current and/or future impact) it will have on student learning. Include information that will help us understand your (students') need for these funds. Specifically, what is already in place and how will these funds be used to supplement/impact learning for students. *ie: I already have four iPads and a fifth will help me teach a larger group at a time and/or I currently do not have an iPad in my classroom, but acquiring one iPad will allow me to provide interventions for individual students, etc., etc.*

Provide specific information/description (and fill in the information below) for example: the number of items, description, costs, (including any additional costs which may not be covered by a grant award), etc.
