

### Mentors

Once students select their topic of choice, mentors are matched up with a group of students with the same interest. Each exhibition group is assigned mentors to help assist in questions, find resources, and guide in the making of the students' presentation. Mentors meet with their groups on a weekly basis to guide in the progress of their project.

### Parents

If you are the parent of a 5<sup>th</sup> grade child, you can get informed of your child's progress by visiting with your child's teacher and talking with your child about exhibition.

### Exhibition is a Community Event

Are you wondering what to expect at an exhibition? All exhibition groups present at the same time. Once they have a crowd, their presentation begins. Each presentation runs about 10 minutes so you are able to view several. Students display their findings on a display board, they give an oral presentation, and have a performance in a medium of their choice such as a skit, dance, music, video, etc.

Exhibition

## What is 5<sup>th</sup> grade Exhibition all about?

Exhibition is an opportunity for 5<sup>th</sup> grade students to exhibit the Learner Profile that they have developed throughout the Primary Years Program (PYP). 5<sup>th</sup> grade students are required to take part in a collaborative inquiry process in which they identify a world problem, research on it, and come up with an action to try to solve the issue.

### Purpose

The purpose of exhibition is for students to take part in their own learning by seeking answers to their own inquiry. Students use their knowledge from previous years and take action on real world problems as a result of their learning. Exhibition is a time to bring students, teachers, parent and all of the school community to come together to celebrate what the students have learned in the PYP and their transition into the Middle Years

Program (MYP).

### Process

Students will:

- Identify a real-world issue
- Gather resources for research
- Decided on an action
- Prepare the exhibition
- Assess the process
- Celebrate and reflect on their exhibition

### **Join In On the Fun!!!**

Alvarez Elementary would like to invite you to this year's Exhibition.

Thursday  
December 14, 2017  
9-11A.M.

See you there!!!

### **The Learner Profile**

Inquirers  
Thinkers
