

OVERHEARD!

WE JUST RECEIVED A LETTER FROM A PARENT AND COACH ABOUT OUR NEW SCHOOLS!

Dear Fairfield City School District & Community,

Thanks to the community and the district for the investment in our kids in the form of the new school buildings. Being a parent of four kids that have gone through the district from K-12, I realize the increased opportunities that the new schools are providing our students, particularly in the freshman building. There are many improvements in resources and space for many academic and extracurricular activities. There seems to be an increased use of the building by various groups for practices and performances.

Additionally, being located adjacent to the high school helps tremendously, since many activities are high school level 9-12 and not just for Frosh. A sense of pride best describes being able to coach in the new building. The venue is top notch. The girls on the team have pride playing there. Visiting parents, teams, and coaches have been very impressed with the facilities. They have shared many positive comments about the school itself and the gym.

We are very fortunate to have a first-rate facility in which to train and host other schools. It certainly benefits the kids.

Thank you,

Randy Sharrock
