SUBJECT: INTERIM SERVICES TO STUDENTS AWAITING RESIDENTIAL PLACEMENT

The Board of Education recognizes its responsibility for providing special education and related services for individual students with disabilities. Therefore, the Board of Education instructs the Committee on Special Education to follow provisions within Part 200 of the Regulations of the Commissioner of Education. This outlines the continuum of services provided to students with disabilities. The CSE provides the least restrictive appropriate education to all students awaiting a residential placement. Implementation of IEP services are appropriately provided during whatever placement is agreed upon. This includes the provision of interim services while awaiting residential placement.
