I DATA AND ACCESS

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents and community members should contact the school principal or the district office.

DataQuest

%DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., state Academic Performance Index [API], federal Adequate Yearly Progress [AYP]), test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).%

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (School Year 2016–17)

The Edenvale community develops high-achieving students, life-long learners, and productive global citizens. We accomplish this through our mission: by promoting relevant, engaging and rigorous standards of learning and behavior to guide the student in their overall development, by advocating for the greater good of our diverse community by building meaningful relationships and creating a collaborative learning environment, and by preparing our students with 21st century skills which empower them to contribute to the global society. In response to this data, the Edenvale staff and ILT (Instructional Leadership Team) has developed a Theory of Action and an Instructional Focus, including six SMARTE goals as well as key teacher practices and a Professional Learning Plan (PLP) [PDs, Staff Meetings, Leadership Meetings, Grade Level Collaboration, and Coaching} to support the attainment of these goals.

A. CONDITIONS OF LEARNING

STATE PRIORITY: BASIC

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

School Facility Conditions and Planned Improvements

As per the Williams' settlement, all Oak Grove schools are maintained in a manner that assures a clean, safe, and functional site as determined by periodic evaluation.

Measure P: On November 4, 2014 the voters in Oak Grove School District approved the issuance of Measure P. Measure P authorized the issuance of \$89.8 million in bonds to benefit the Oak Grove School District. The funds are meant to be used to renovate, repair, acquire, construct and modernize classrooms and facilities, and increase student access to computers and technology.

Proposed for the summer of 2016, will be a HVAC and Roofing removal and replacement: budgeted for this site is 5 million dollars of Measure P funds.

After the successful completion of the Measure Q Bond program, the Oak Grove community approved Measure S in November 2008 that authorized an additional \$125 million General Obligation Bond to continue needed school modernization projects, construct two new intermediate school gymnasiums, and consider solar technology systems throughout the district. Combined with local Routine Repair funds and State Deferred Maintenance funds, future facility improvements will insure that critical services continue to be provided for our students for years to come.

School Facility Good Repair Status

Using the most recent FIT data (or equivalent), provide the following:

- Determination of repair status for systems listed
- Description of any needed maintenance to ensure good repair
- The year and month in which the data were collected

B. PUPIL OUTCOMES

STATE PRIORITY: PUPIL ACHIEVEMENT

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP], Science California Standards Tests) System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

C. ENGAGEMENT

STATE PRIORITY: PARENTAL INVOLVEMENT

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each school site.

Opportunities for Parental Involvement - (School Year 2016–17)

The school provides opportunities for all parents to participate, including parents with limited English proficiency, parents with disabilities, and parents of migratory students. This includes providing information and school reports in a form and language parents understand. The school uses various means of communication to reach out their diverse parents, such as the ConnectEd, Oak Grove Mobile App, Facebook/Twitter, Peachjar Flyer System, Call System, audiovisuals, personal phone calls, home visits, informational meetings, flyers, letters, handouts, and others. Special accommodations and materials are provided for persons with disabilities, parents who speak a language other than English, migratory farm workers, and others. The school report cards, parent letters, brochures, and all communications for parents are provided in English and the parents' primary language.

The school conducts the following activities to involve parents:

a). The school holds meetings with all parents at least three times per year: Back to School Night, Open House and English Learner/Title I Orientation. Title I-Parent Involvement funds are used to provide translation, child care, snacks, home visits, and other services to support parent involvement. The school holds open meetings with School Site Council, English Learner Advisory Committee and other parent committees six times per year. The school uses various means to provide parents with timely information about Title I Programs, such as letters, flyers, written handouts, phone calls, home visits, and informational meetings. All documents addressed to parents are written in English and Spanish. The ConnectEd Automated Phone Call System is used to ensure all parents receive information about parent meetings, parent education programs, Title I programs, parent-teacher conferences, and school and district events. The school provides adequate number of professional translators/interpreters who can perform two way translations to facilitate the communication between school staff (administrators, teachers, office staff) and families at all events. The school provides parents with an explanation of the curriculum, assessments, and proficiency levels students are expected to meet.

All parents receive an explanation during parent-teacher conferences and family literacy/math nights, at least three times per year, about the curriculum used at the school, content standards, academic assessments used to measure student progress, and the proficiency levels students are expected to reach.

The school provided parents with opportunities for regular meetings to participate in decisions relating to the education of their children. All parents are invited and encouraged to participate in decision making at school by attending parent meetings, making suggestions, volunteering at school, participating in their children's class, observing classroom activities, and serving on district and school committees such as School Site Council, English Learner Advisory Committee, Migrant Parent Advisory Committee, Parent Advisory for Gifted and Talented Education, Parent-Teacher Association, School Leadership Team, District Advisory Committee, District English Learner Advisory Committee, District Assistance and Intervention Team, Community Action Committee for Special Education, and other leadership groups. The school and district provide regular meetings, training and parent education programs to help parents develop their leadership skills and enhance their knowledge to successfully support their children's education. A district-wide training is provided for all parents every other year to prepare them for the SSC/ELAC elections.

School Safety Plan – Most Recent Year

Providing a safe school is a high priority for Edenvale School. To this end, there are continuous improvement processes and collaborative efforts that provide comprehensive health education and a strong academic foundation within a safe and secure learning environment that ensures success for all students.

Prevention education at Edenvale includes the implementation of Positive Behavior Intervention Support (PBIS) school wide. We also have supplemental programs and policies including Second Steps, conflict/peer mediation, positive discipline, refusal training for students and parents, drug, gangs, alcohol, substance abuse, bullying, harassment, graffiti, tobacco prevention education, developmental assets, and the Wellness Policy including physical education and nutritional education.

Attendance is closely monitored and students with unexcused absences of 10% or more receive law/school district/partnership intervention. Truancy abatement is a common goal of the school/district and other agency collaborative partnerships. Currently Edenvale has instituted an Attendance Incentive Program, which is targeting attendance and tardies.

In order to reduce the number of incidents of bullying and harassment among students and to ensure that students feel neither intimidated nor threatened by bullying or harassment, Edenvale has an ongoing program that specifically addresses issues of race, ethnicity, gender, sexual orientation, perceived sexual orientation, and perceptions which commonly surface in bullying/harassment incidences. Positive Behavior Intervention Support (PBIS) also addresses bullying and provides strategies for the aggressor, victim, bystander and adults.

We also have ongoing classroom instruction and use social settings inside and outside the classroom to focus on the life skills of empathy, anger management, and problem solving.

Each year staff is educated, trained, and practices the concepts of the National Emergency Management System which includes fire drills, earthquake evacuation, first aid procedures, communicable disease action plan, and emergency evacuation maps.

We balance the school discipline plan with positive incentives, as well as appropriate alternative consequence plans. School-wide rules are posted in each classroom. Positive incentives are offered for positive behavior/attitude, good attendance, positive wellness, and practices, academics. Alternatives reviewed as options to positive discipline include campus clean-up, campus projects, incentives, community services, behavior plans/contracts, Friday School, site or off-site group or individual counseling, and/or alternative placements.

We strive to improve the system of publications to students, staff, and community which will include or focus on student awards/recognition, rewards, school activities, achievements, acknowledgments, and announcements.

Professional Development

This section provides information on the annual number of school days dedicated to staff development for the most recent three-year period.

Our school provides extensive training for teachers in the implementation of standards, development of effective assessment, and understanding the Closing the Achievement Gap Plan. There are numerous opportunities for participation in district in-services, workshops, and committees. Tuesday afternoons are dedicated to professional development in addition to three AB days. Currently much emphasis at the site level has been dedicated to understanding the implementation of the Houghton Mifflin Language Arts Program and the Results Oriented Cycle of Inquiry (ROCI) process. All staff has also been trained in providing Systematic English Language Development (SELD) to the students learning English. We have a leadership team/continuous improvement team that leads site staff development around analyzing student work, developing effective strategies for the classroom, and using grade level time to improve instruction. We are in the 2nd year of Positive Behavior Intervention Support (PBIS), and have begun to implement Check In, Check Out. We are in the beginning stages of implementing a collaborative model of Response to Intervention.

In short, the data points to the need for comprehensive growth in ELA, ELD, and Math achievement for all students. Specifically, the data shows that a vastly higher percentage of those students who become reclassified as English Proficient become proficient in math and ELA in the CAASPP and i-Ready test. In response to this data, the Edenvale staff and ILT (Instructional Leadership Team) has developed a Theory of Action, including six SMARTER goals as well as key teacher practices and a Professional Learning Plan (PLP) [PDs, Staff Meetings, Leadership Meetings, Grade Level Collaboration, and Coaching} to support the attainment of these goals. Our professional development focal areas this year are writers workshop, guided reading, number talks and designated ELD. We will do this by

1. Defining goals, contribute to the theory of action, provide input on plans, and begin monitoring progress.
2. Defining a systematic approach for two-way communication between the ILT members and the rest of the staff.
3. ILT members take a more active role in leading professional learning opportunities through actions such as facilitation of professional development sessions and teacher collaboration.
4. Beginning to develop a shared awareness of the role that race and culture play in creating an equitable learning environment for all students.
