

Breakfast and Lunch Programs

- 1) The breakfast and lunch programs adhere to the Indiana Department of Education's guidelines for Nutrition and are therefore eligible for free and reduced prices for lunch. Families who qualify will be given these reduced rates and participation is kept in strict confidence. Applications are available the Meet and Greet or can be obtained at the school office. Direct Certification will be available this summer and all participants will be sent a letter with their eligibility status.
- 2) LSUS's hot lunches are prepared off-site and transported daily, to be served that day. Breakfast is prepared and served on site. Milk is available for students who wish to purchase one when lunch is brought from home.
- 3) All meals include one (1) milk.

Breakfast: \$1.25	Reduced: \$0.30
Lunch: \$2.75	Reduced: \$0.40
Extra milk: \$0.30	

If students bring a lunch, they can purchase a milk for \$0.30
- 4) There is not a microwave available for student use.
- 5) *Fast food is not to be brought in the school for student consumption during the lunch hour.*
- 6) Lunch accounts are separate from your school accounts and a separate form of payment is needed. Accounts will be kept for each family and lunches for all children will be deducted from these accounts. Replenish notes will be sent home when funds are getting low. Please clearly mark payments as being for the lunch program. You will only be charged for the meals your children eat. Lunch counts are taken at the beginning of each school day. If your child forgets their lunch, one will be available for them.
- 7) Lunch accounts must be kept current. Any account falling behind by more than **five** school days will result in student given an alternate lunch and parents will be called. Accounts falling more than **ten** school days behind will result in student calling home for parent to bring lunch and money into the school.
