

# What is iReady ?

iReady is online, interactive learning environment it provides individualized instruction based on each student's needs.

## How can I help my child get the most out of *i-Ready*?

- Talk with your child about iReady. Ask questions about what they have been learning.
- Have students participate at home as well as school.
- For students to make the most growth they need to do 45 minutes per subject per week.
- Encourage your child to take each lesson and question seriously. Emphasize "think before clicking," because just clicking through will not give an accurate report of what your child knows and is able to do .

## Student Instructions for Completing Online Lessons

1. Open an internet browser (Internet Explorer, Firefox, or Safari).
2. Go to: [login.i-ready.com](http://login.i-ready.com)
3. Enter your Username and Password. If you do not have your Username and Password, ask your teacher.
4. Select your state and click Go!

5. Select either Reading or Math. Your teacher will tell you which one to start with.

6. Keep track of your progress using the tabs in the "My Progress" box.

7. Click on Start Lessons to begin next assigned lesson.

8. Earn credits to play games with every lesson you complete! Keep track of credits, select games, change Study Buddies, and change themes in the "My Stuff" box.
