INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees of
Lexington Independent School District

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lexington Independent School District as of and for the year ended August 31, 2017, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lexington Independent School District as of August 31, 2017, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis section which precedes the basic financial statements and the pension related schedules following the notes to the financial statements be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

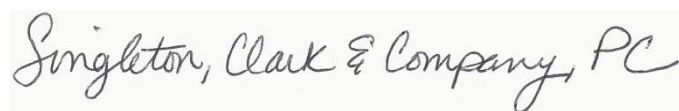

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Lexington Independent School District's basic financial statements. The combining statements of individual nonmajor funds and the Texas Education Agency required schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining statements of individual nonmajor funds and the Texas Education Agency required schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining statements and the Texas Education Agency required schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 17, 2017 on our consideration of Lexington Independent School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Lexington Independent School District's internal control over financial reporting and compliance.

LEXINGTON INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED AUGUST 31, 2017

MANAGEMENT'S DISCUSSION AND ANALYSIS

In this section of the Annual Financial and Compliance Report, we, the managers of Lexington Independent School District (the "District") discuss and analyze the financial performance of the District for the fiscal year ended August 31, 2017. Please read this information in conjunction with the District's basic financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The District's net position for governmental activities and business-type activities increased by \$85,303 total as a result of this year's current operations, to end at \$8,630,956.
- Total Governmental Funds of the District (the General Fund plus all Special Revenue Funds, the Capital Projects Fund and the Debt Service Fund) reported an overall fund balance decrease of \$515,780, to end at \$3,336,438.
- The General Fund of the District reported a fund balance increase of \$404,225 for the year, to end at \$2,889,677.

OVERVIEW OF THE FINANCIAL SECTION

The Financial Section is the most substantial part of this Annual Financial and Compliance Report. It consists of the independent auditor's report, management's discussion and analysis (this section), a set of basic financial statements with required note disclosures, and finally required supplementary information and other supporting statements and schedules as applicable.

Independent Auditor's Report

State law requires the District's financial statements to be audited by an independent certified public accountant each year. The primary purpose of the annual audit is for the auditor to express an opinion as to whether the financial statements of the District appear to be free from material misstatement. In addition, the auditor reports any deficiencies noted within the financial internal controls of the District and whether any noncompliance with rules, regulations, or grant agreements was observed.

Management's Discussion and Analysis

The Management's Discussion and Analysis (MD&A) section of the report is intended to introduce the financial statements and to provide discussion and analysis regarding the financial performance of the District during the year. The MD&A is written by management of the District and provides for a less formal presentation of the financial activities of the District than is found within the basic financial statements themselves.

Basic Financial Statements

The Basic Financial Statements consist of a series of financial statements and required note disclosures. These statements include government-wide financial statements which present the District in a consolidated and long-term manner using full-accrual accounting similar to that of a business enterprise, and fund financial statements which present a more detailed view of the District using a more short-term view and traditional modified-accrual governmental accounting. These financial statements are followed with detailed notes which provide narrative explanations and additional data for full disclosure of information.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED AUGUST 31, 2017

Required Supplementary Information

The previously discussed Management's Discussion and Analysis section is considered to be required supplementary information, however, the governmental reporting framework requires that it be presented before the financial statements. When applicable, additional required supplementary information must follow the financial statements. Within this financial report, the District presents required schedules related to its participation in the Teacher Retirement System of Texas pension plan.

Combining and Individual Fund Statements and Schedules

The combining statements provide detailed information about the District's nonmajor funds. While the primary financial statements present the nonmajor funds in a consolidated manner, the combining statements list all of the nonmajor funds separately, each in its own column. In addition, this section also includes schedules required by the Texas Education Agency to report tax collection information and budget to actual information for the District's debt service and child nutrition functions.

Reporting the District as a Whole

The Statement of Net Position and the Statement of Activities

The analysis of the District's overall financial condition and operations begins with the government-wide financial statements which immediately follow this section. The government-wide financial statements include the Statement of Net Position and the Statement of Activities. The primary purpose of these financial statements is to show whether the District is better off or worse off as a result of the year's activities. The Statement of Net Position includes all the District's assets and liabilities at the end of the year while the Statement of Activities includes all the revenues and expenses generated by the District's operations during the year. These apply the accrual basis of accounting which is the basis used by private sector companies.

All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid. The District's revenues are divided into those provided by outside parties who share the costs of some programs, such as tuition received from students from outside the district and grants provided by the U.S. Department of Education to assist children with disabilities or from disadvantaged backgrounds (program revenues), and revenues provided by the taxpayers or by the State of Texas in equalization funding processes (general revenues). All the District's assets are reported whether they serve the current year or future years. Liabilities are considered regardless of whether they must be paid in the current or future years.

The Statement of Net Position and the Statement of Activities report the District's net position and changes in net position. The District's net position (the difference between assets and liabilities) provides one measure of the District's financial health. Over time, increases or decreases in the District's net position are one indicator of whether its financial health is improving or deteriorating. To fully assess the overall health of the District, however, you should consider nonfinancial factors as well, such as changes in the District's average daily attendance or its property tax base and the condition of the District's facilities.

LEXINGTON INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED AUGUST 31, 2017

In the Statement of Net Position and the Statement of Activities, school districts divide up their financial activities as follows:

- Governmental activities – School districts report basic services here, including the instruction of students, counseling, co-curricular activities, child nutrition services, transportation, maintenance, community services, and general administration. Property taxes, state block grants based on student attendance and demographics, and other state and federal grants finance most of these activities.
- Business-type activities – School districts may charge a fee to "customers" to help it cover all or most of the cost of services it provides for child care programs or other activities that closely model a business venture.

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements follow the government-wide statements and provide detailed information about the most significant funds of the District, not the District as a whole. Laws and regulations require the District to establish separate funds, such as for grants received from the state and federal government, money received from bond issues for capital projects, or for money raised specifically for debt service purposes, in order to clearly display financial accountability for use of these funds.

School districts use two different kinds of funds for operations, governmental funds and proprietary funds, which use different accounting approaches.

- A school district will use *governmental funds* to account for basic services. These use modified accrual accounting (a method that measures the receipt and disbursement of cash and all other financial assets that can be readily converted to cash) and report balances that are available for future spending. The governmental fund statements provide a detailed short-term view of the District's general operations and the basic services it provides. We describe the differences between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds in reconciliation schedules following each of the fund financial statements.
- A school district will use *proprietary funds* to account for the activities for which it charges users (whether outside customers or other units of the district). Proprietary funds use the same accounting methods employed in the Statement of Net Position and the Statement of Activities. In fact, when a district utilizes enterprise funds, (one category of proprietary funds) these are the business-type activities reported in the government-wide statements but they contain more detail and additional information, such as cash flows. Internal service funds (the other category of proprietary funds) report activities that provide supplies and services for a district's other programs and activities, such as a district's self-insurance programs.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED AUGUST 31, 2017

The District as Trustee

Reporting the District's Fiduciary Responsibilities

The District is the trustee, or fiduciary, for money raised by student activities and alumnae scholarship programs. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position and Changes in Fiduciary Net Position on pages that follow the governmental fund and proprietary fund financial statements. We exclude these resources from the District's other financial statements because the District cannot use these assets to finance its operations. The District is however responsible for applying sound financial internal controls over these funds and for ensuring that these resources are used for their intended purposes.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

The following analysis focuses on the net position (Table I) and changes in net position (Table II) of the District's governmental activities and business-type activities.

Net position of the District's governmental activities increased from \$8,538,252 to \$8,624,613. Unrestricted net position – the part of net position that can be used to finance day-to-day operations without constraints established by debt covenants, enabling legislation, or other legal requirements – was \$2,129,214 at August 31, 2017. The increase in governmental net position was primarily due to results from 2016-2017 operations.

LEXINGTON INDEPENDENT SCHOOL DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED AUGUST 31, 2017

THE DISTRICT'S FUNDS

As the District completed this annual period, the General Fund reported a fund balance of \$2,889,677, which is \$404,225 more than last year's total of \$2,485,452. The increase in fund balance is mainly attributable to greater than expected local revenues as well as lower than expected expenditures for the year.

The District's other governmental funds reported combined ending fund balances of \$446,761. This combined balance is \$920,005 less than the previous year. The primary reason for this change in the combined fund balance was decrease in the fund balance of the Capital Project Fund due to the construction of new high school building during the year.

Over the course of the year, the Board of Trustees generally revises the District's budget based on financial updates provided by management of the District. These amendments involve moving funds from programs that did not need all the resources originally appropriated to them to programs with resource needs, or to react to originally unforeseen circumstances, such as unanticipated new revenues or unavoidable new costs. None of the budget amendments made during the year were considered significant.

CAPITAL ASSET AND DEBT ADMINISTRATION

Capital Assets

As of August 31, 2017, the District had \$15,261,403 (net of accumulated depreciation) invested in a broad range of capital assets, including facilities and equipment for instruction, transportation, athletics, administration, and maintenance.

A summary of the ending balances of capital assets by major category for both 2017 and 2016 is as follows:

	Governmental Activities 2017	Governmental Activities 2016	Change

Debt

At year-end, the District had \$11,015,422 in bonds and other long-term debt outstanding versus \$11,334,410 last year. The decrease is attributable to the District making scheduled payments on its long-term debt during the year.

A summary of the ending balances of long-term debt by type for both 2017 and 2016 is as follows:

	Governmental Activities 2017	Governmental Activities 2016	Change
General Obligation Bonds	\$ 9,092,469	\$ 9,471,773	\$ (379,304)
Notes Payable	109,977	-	109,977

Total	<u>\$ 11,015,422</u>	<u>\$ 11,334,410</u>	<u>\$ (318,988)</u>

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District's elected and appointed officials considered many factors when setting the fiscal year 2017-2018 budget and tax rates. Those factors include property values, changes in enrollment, the economy, projections of future budget years, and legislative mandates. The District has adopted a General Fund budget of approximately \$9.4 million for the 2017-2018 fiscal year. This reflects an approximate increase of \$820,000 in budgeted expenditures from fiscal year 2016-2017 to fiscal year 2017-2018.

For the 2017-2018 budget year, the District has held constant its maintenance and operations tax rate at \$1.04 per hundred of taxable value. The District has the capability to call a tax ratification election which could authorize up to \$1.17 cents for maintenance and operations. The District has no current plans to call a tax ratification election. The District adopted a debt service tax rate of \$.17224 for the 2017-2018 budget year in order to fund required debt payments in the coming year. The combined tax rate of the District for the 2017-2018 budget year is \$1.21224 per hundred of taxable value.

LEXINGTON INDEPENDENT SCHOOL DISTRICT
RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES,
EXPENDITURES, AND CHANGES IN FUND BALANCE TO THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED AUGUST 31, 2017

	Total Net Change in Fund Balances – Governmental Funds	\$	(515,780)
1	Governmental funds report the portion of capital outlay for capitalized assets as expenditures. However, in the Statement of Activities, the costs of those assets are allocated over their estimated useful lives as depreciation expense.		
	Expenditures for capitalized assets	\$	1,081,412
	Less current year depreciation	<u>(741,628)</u>	339,784
2	Repayment of principal on bonds, notes, and capital leases is an expenditure in the governmental funds, but this expenditure is removed from the Statement of Activities and the repayments instead reduce long-term liabilities on the Statement of Net Position.		385,239
3	Issuance of long-term debt increases current financial resources to governmental funds, but this increase is not shown on the Statement of Activities and instead increases long-term liabilities on the Statement of Net Position.		(125,540)
4	Since long-term debt is not recorded in governmental funds, amortization of related issuance premiums and discounts is also not recorded.		44,304
5	The change in accrued interest due on long-term debt issued for governmental activities does not affect current financial resources and therefore is not reported in the governmental funds.		293
6	Property taxes are recognized as revenue in the governmental funds when collected but recognized on the Statement of Activities in the year levied. Therefore the uncollected amount of the current year levy is added to current year property tax revenue on the Statement of Activities.		16,728
7	Governmental funds report pension contributions as expenditures. However, pension contributions are reported as deferred outflows of resources on the Statement of Net Position if made after the net pension liability measurement date. In addition, the change in the net pension liability, adjusted for changes in deferred pension items, is reported as pension expense in the Statement of Activities.		(76,225)
8	The District uses an Internal Service Fund to charge the costs of certain activities, such as the provision of workers compensation insurance, to other individual funds. Even though the Internal Service Fund is a proprietary fund, this fund is consolidated with the governmental activities column on the Statement of Activities.		17,558

LEXINGTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2017

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Financial Reporting Entity

This report includes those activities, organizations and functions related to Lexington Independent School District (the “District”), which are controlled by or dependent upon the District’s governing body, the Board of Trustees (the “Board”). The Board, a seven member group, is the level of government having governance responsibilities over all activities related to public elementary and secondary school education within the jurisdiction of the District. Since the District receives funding from local, state, and federal government sources, it must comply with the requirements of the entities providing those funds. However, the District is not included in any other governmental “reporting entity” as defined by Statement No. 14 of the Governmental Accounting Standards Board (GASB), since Board members are elected by the public and have decision making authority. Furthermore, there are no legally separate organizations, known as “component units”, included within the reporting entity.

The accounting policies of the District comply with the rules prescribed by the Texas Education Agency (TEA) in its Financial Accountability System Resource Guide (FASRG). These accounting policies conform to generally accepted accounting principles applicable to state and local governments.

Government-wide and Fund Financial Statements

The government-wide financial statements (i.e. the Statement of Net Position and the Statement of Activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity has been removed from these statements. Governmental activities, which are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Agency funds have no measurement focus. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided and 2) operating grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes. As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

LEXINGTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2017

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures are recorded only when payment is due.

Major revenue sources considered susceptible to accrual include state and federal program revenues and property taxes. No accrual for property taxes collected within sixty days of year end has been made as such amounts are deemed immaterial; delinquent property taxes at year end are reported as deferred inflows of resources within the governmental fund financial statements.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

Major Funds and Fund Types

The District reports the following major governmental fund:

The General Fund includes financial resources that are not required to be reported separately in another fund. It is a budgeted fund, and any unrestricted fund balances are considered to be resources available for current operations.

Additionally, the District reports the following fund types:

Special revenue funds are governmental funds which include resources restricted, committed, or assigned for specific purposes by a grantor or the Board. Federally financed programs where unused balances are returned to the grantor at the close of specified project periods are accounted for in these funds.

Enterprise funds are proprietary funds used to account for operations of the District whereby individuals or others are charged a fee for a specific benefit or service and there is a desire to measure a specific gain or loss on the activity. The District reports the Concession Stand Fund as a major enterprise fund.

Internal service funds are proprietary funds used to account for activities such as workers' compensation self-insurance, self-funded health insurance, and employee health savings accounts. The District utilizes an Internal Service Fund to account for its participation in a workers' compensation shared risk pool.

Private purpose trust funds are fiduciary funds used to account for donations for which the donors have stipulated that both the principal and the income may be used for purposes that benefit parties outside the District. The District utilizes this fund type to account for money collected and held for the purpose of awarding scholarships to selected students.

Agency Funds are fiduciary funds used to account for resources held for others in a custodial capacity. The District utilizes this fund type to account for funds held on behalf of student clubs and organizations.

LEXINGTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2017

Budgetary Information

Budgets are prepared annually for the General Fund, the Debt Service Fund, and the Child Nutrition Fund on the modified accrual basis, which is consistent with generally accepted accounting principles. A formal budget is prepared by the end of August and is adopted by the Board at a public meeting after public notice of the meeting has been given no earlier than the 30th day or later than the 10th day before the public hearing. The legal level of control for budgeted expenditures is the function level within the budgeted funds. Amendments to the budget are required prior to expending amounts greater than the budgeted amounts at the function level. Budgets are controlled at the departmental or campus level, the same level at which responsibility for operations is assigned. The budget was monitored by the administration throughout the year and amendments were brought to the Board as needed.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Fund Balance

Investments - The District's investment policies and types of investments are governed by Section 2256 of the Texas Government Code ("Public Funds Investment Act"). The types of investments allowed under the Public Funds Investment Act are detailed in Note 2 - Deposits and Investments. The District's management believes that it complied with the requirements of the Public Funds Investment Act and the District's investment policies. The District accrues interest on temporary investments based on the terms and effective interest rates of the specific investments. Temporary investments throughout the year consisted of investments in external investment pools, which are recognized at amortized cost, and money market accounts.

Inventories - Inventories are generally not recorded in the General Fund or Child Nutrition Fund due to amounts of expendable supplies held or purchased food not being deemed material. When inventories are recorded, they are charged to expenditures when consumed. Amounts recorded are offset by a fund balance classification titled "nonspendable" which indicates that the inventory does not represent "available expendable resources."

Capital Assets - Capital assets, which include land, buildings and improvements, construction in progress, furniture and equipment, and vehicles are reported in the governmental activities column in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of at least \$5,000 and a useful life of greater than one year. Such assets are recorded at historical cost, if purchased, or estimated fair value at the date of donation, if donated. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend assets lives are not capitalized. Capital assets (other than land and construction in progress) are depreciated using the straight-line method over the following estimated useful lives: buildings and improvements - fifteen to thirty years, furniture and equipment - three to twenty years, and vehicles - five to ten years.

Prepaid Items - Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. Prepaid items are charged to expenditures when consumed. When prepaid items are recorded, they are charged to expenditures when the value represented by the prepaid item has been used. Amounts recorded are offset by a fund balance classification titled "nonspendable" which indicates that the prepaid item amount does not represent "available expendable resources."

LEXINGTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2017

Ad Valorem Property Taxes - Delinquent taxes, when received, are prorated between maintenance and debt service based on rates adopted for the year of the levy. Allowances for uncollectibles within the General and Debt Service Funds are based upon historical experience in collecting property taxes. Uncollectible personal property taxes are periodically reviewed and written off, but the District is prohibited from writing off real property taxes without specific statutory authority from the Texas Legislature.

Accumulated Sick Leave Liability - The State of Texas (the "State") has created a minimum sick leave program consisting of five days of sick leave per year with no limit on accumulation and transferability among districts for every person regularly employed in Texas public schools. Each district's local Board is required to establish a sick leave plan. Local school districts may provide additional sick leave beyond the state minimum.

Pensions - The fiduciary net position of the Teacher Retirement System of Texas (TRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Deferred Outflows and Deferred Inflows of Resources - The District complies with GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position*, which provides guidance for reporting the financial statement elements of deferred outflows of resources, which represent a consumption of the District's net position that is applicable to a future reporting period, and deferred inflows of resources, which represent the District's acquisition of net position applicable to a future reporting period.

The District complies with GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities*, which establishes accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities.

Fund Balance/Deficit - The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

Statement of Cash Flows - For purposes of the statement of cash flows when Proprietary Funds are used, cash and cash equivalents include demand deposits.

LEXINGTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2017

Fair Value Measurements - The District adopted GASB Statement No. 72, *Fair Value Measurement and Application*, which defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction. Fair value accounting requires characterization of the inputs used to measure fair value into a three-level fair value hierarchy as follows:

- Level 1 inputs are based on unadjusted quoted market prices for identical assets or liabilities in an active market the entity has the ability to access
- Level 2 inputs are observable inputs that reflect the assumptions market participants would use in pricing the asset or liability developed based on market data obtained from sources independent from the entity
- Level 3 are unobservable inputs that reflect the entity's own assumptions about the assumptions market participants would use in pricing the asset or liability developed based on the best information available

There are three general valuation techniques that may be used to measure fair value:

- Market approach - uses prices generated by market transactions involving identical or comparable assets or liabilities
- Cost approach - uses the amount that currently would be required to replace the service capacity of an asset (replacement cost)
- Income approach - uses valuation techniques to convert future amounts to present amounts based on current market expectations

Data Control Codes

The Data Control Codes shown on the financial statements refer to the account code structure prescribed by the FASRG. TEA requires school districts to display these codes in their financial statements to ensure accuracy in building a state-wide data base for policy development and funding plans.

LEXINGTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2017

2. DEPOSITS AND INVESTMENTS

The Public Funds Investment Act authorizes the District to invest in funds under a written investment policy, which is approved annually by the Board. The primary objectives of the District's investment strategy for operating and agency funds, in order of priority, are safety, investment liquidity, and maturity sufficient to meet anticipated cash flow requirements. The primary objective of the District's investment strategy for Debt Service and Capital Projects Funds is sufficient investment liquidity to meet related obligations.

The District is authorized to invest in the following investment instruments provided that they meet the guidelines established in the investment policy:

- Obligations of, or guaranteed by, governmental entities
- Certificates of deposit and share certificates
- Fully collateralized repurchase agreements
- Securities lending program
- Banker's acceptances
- Commercial paper
- No-load money market mutual funds and no-load mutual funds
- Guaranteed investment contracts as an investment vehicle for bond proceeds
- Public funds investment pools

The District's funds are required to be deposited and invested under the terms of a depository contract pursuant to the School Depository Act. The depository bank deposits for safekeeping and trust with the District's agent approved pledged securities in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance. Therefore the District is not exposed to custodial credit risk.

Under the depository contract, the District, at its own discretion, may invest funds in time deposits and certificates of deposit provided by the depository bank at interest rates approximating United States Treasury Bill rates.

At August 31, 2017, the carrying amount of the District's deposits was \$2,025,783 and the bank balance was \$2,172,528. The District's deposits with financial institutions at August 31, 2017 and during the year ended August 31, 2017 were entirely covered by FDIC insurance or by pledged collateral held by the District's agent bank in the District's name. The deposits were collateralized in accordance with Texas law and TEA maintains copies of all safekeeping receipts in the name of the District.

The District maintains a cash pool consisting of demand deposits. The combined pool is available for use by most special revenue funds. If a fund overdraws its share of the pool, the overdraft is reported as an interfund payable in that fund. The offsetting interfund receivable is reported in the General Fund.

LEXINGTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2017

The following is disclosed regarding coverage of combined balances on the date of highest deposit:

- a) Name of depository bank: Round Top State Bank, Texas.
- b) The amount of bond and/or security pledged as of the date of the highest combined balance on deposit was \$6,800,724.
- c) The largest cash, savings and time deposit combined account balance amounted to \$6,087,182 and occurred during the month of February, 2017.
- d) Total amount of FDIC coverage at the time of highest combined balance was \$500,000.

Investments held at August 31, 2017 consisted of the following:

Investment Type	Fair Value	Weighted Average Maturity (Days)	Standard & Poor's Rating
Local Government Investment Pool:			
Lone Star	\$ 278,493	1	AAA
TexPool	24,636	1	AAAm
TexStar	15,128	1	AAAm
Certificates of Deposit	1,386,513	180	
Total Investments	\$ 1,704,770		

The District had investments in three external local governmental investment pool at August 31, 2017, consisting of the Lone Star, Texas Local Governmental Investment Pool (“TexPool”) and TexStar and in Certificates of Deposit with Round Top State Bank.

Lone Star

Lone Star is governed by an eleven member board of trustees, in which all of the members are also participants in Lone Star. The board meets quarterly to review operations, adopt or make changes to the investment policy, review financial activity and approve contractor agreements. Lone Star also has an advisory board consisting of participants and nonparticipants. RBC Dain Rauscher, Inc. is an independent consultant for Lone Star that reviews daily operations, analyzes all investment transactions for compliance with the Public Funds Investment Act, and performs monitoring activities. The Bank of New York provides custody and valuation services for Lone Star. American Beacon Advisors and Standish Mellon provide other investment management services. Lone Star’s investment policy stipulates that it must invest in accordance with the Public Funds Investment Act.

TexPool

Although TexPool is not registered with the Securities and Exchange Commission (SEC) as an investment company, it operates in a manner consistent with the SEC’s Rule 2a7 of the Investment Company Act of 1940. These investments are stated at amortized cost in accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*.

LEXINGTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2017

TexPool is overseen by the Texas State Comptroller of Public Accounts, who is the sole officer, director and shareholder of the Texas Treasury Safekeeping Trust Company which is authorized to operate TexPool. TexPool also has an advisory board to advise on TexPool's investment policy, which is made up equally of participants and nonparticipants who do not have a business relationship with TexPool. Federated Investors manages daily operations of TexPool under a contract with the Comptroller and is the investment manager for the pool. TexPool's investment policy stipulates that it must invest in accordance with the Public Funds Investment Act.

TexStar

TexStar is administered by First Southwest Company and JPMorgan Chase. TexStar is overseen by a five member governing board made up of three participants and one of each of the program's professional administrators. The responsibility of the board includes the ability to influence operations, designation of management and accountability for fiscal matters. In addition, TexStar has a Participant Advisory Board which provides input and feedback on the operations and direction of the program. Standard and Poor's reviews the pool on a weekly basis to ensure the pool's compliance with its rating requirements. TexStar's investment policy stipulates that it must invest in accordance with the Public Funds Investment Act.

Credit Risk - Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. The ratings of securities by nationally recognized agencies are designed to give an indication of credit risk. At August 31, 2017, investments were included in local governmental investment pools with ratings from Standard & Poor's in compliance with the District's investment policy.

Custodial Credit Risk - Deposits are exposed to custodial credit risk if they are not covered by depository insurance and the deposits are uncollateralized, collateralized with securities held by the pledging financial institution, or collateralized with securities held by the pledging financial institution's trust department or agent but not in the District's name. Investment securities are exposed to custodial credit risk if the securities are uninsured, are not registered in the name of the District, and are held by either the counterparty or the counterparty's trust department or agent but not in the District's name. At August 31, 2017, the District was not exposed to custodial credit risk.

Concentration of Credit Risk - Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investments in a single issuer. Information regarding investments in any one issuer that represents five percent or more of the District's total investments must be disclosed under GASB Statement No. 40, excluding investments issued or explicitly guaranteed by the U.S. government. At August 31, 2017, the District had 100% of its investments in certificates of deposit and local governmental investment pools.

Interest Rate Risk - As a means of minimizing risk of loss due to interest rate fluctuations, the District's investment policy requires that maturities will not exceed the weighted average maturity of 180 days for any internally created pool fund group and one year from the time of purchase for any other individual investment. The Board may specifically authorize a longer maturity for a given investment, within legal limits. The District considers the holdings in the local governmental investment pools to have a one day weighted average maturity due to the fact that the share position can usually be redeemed each day at the discretion of the shareholders, unless there has been a significant change in value. At August 31, 2017, investments were included in local government investment pools which have a weighted average maturity of one day and in certificates of deposit which have a weighted average maturity of 180 days.

LEXINGTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2017

3. PROPERTY TAXES

The Texas Legislature in 1979 adopted a comprehensive Property Tax Code (the “Code”) which established a county-wide appraisal district and an appraisal review board in each county in the State. The Lee County Central Appraisal District (the “Appraisal District”) is responsible for the recording and appraisal of all property in the District. Under the Code, the school board sets the tax rates on property and the Lee County Tax Assessor/Collector provides tax collection services. The Appraisal District is required under the Code to assess property at 100% of its appraised value. Further, real property must be reappraised at least every three years. Under certain circumstances, taxpayers and taxing units, including the District, may challenge orders of the Appraisal Review Board through various appeals and, if necessary, legal action.

Property taxes are levied as of October 1 in conformity with Subtitle E, Texas Property Tax Code. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed. On January 1 of each year, a tax lien attaches to property to secure the payment of all taxes and penalties and interest that are ultimately imposed. Property tax revenues are considered available when they become due or past due and receivable within the current period, including those property taxes expected to be collected during a 60 day period after the end of the District’s fiscal year. The assessed value at January 1, 2016, upon which the October 2016 levy was based was \$395,229,137. The District levied taxes based on a combined tax rate of \$1.2174 per \$100 of assessed valuation for local maintenance (general governmental services) and debt service.

4. DUE FROM/TO OTHER GOVERNMENTS

The District participates in a variety of federal and state programs from which it receives grants to partially or fully fund certain activities. The District also receives entitlements from the State through the School Foundation and Per Capita Programs. Grants and entitlements are recorded as revenue when earned, therefore at year end amounts earned but not yet received in cash may be recorded as due from the grantor government. Amounts already received in cash but not yet earned are recorded as due to the grantor government.

A summary of amounts recorded as Due From/Due To Other Governments in the basic financial statements as of August 31, 2017 are summarized below:

Due From Other Governments:		Non-Major		
	General	Governmental		
	Fund	Funds	Total	
Governmental Activities:				
Foundation & Per Capita entitlements	\$ 201,529	\$ -	\$ 201,529	
State grants	-	681	681	
Federal grants	-	23,053	23,053	
Total - Governmental Activities	<u>\$ 201,529</u>	<u>\$ 23,734</u>	<u>\$ 225,263</u>

5. INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

During the course of operations, the individual funds of the District may engage in temporary borrowings of money between one another to meet liquidity needs. These interfund receivables and payables are recorded on the balance sheet of the loaning fund as “Due from Other Funds” and on the balance sheet of the borrowing fund as “Due to Other Funds”. Amounts are repaid when funds are available in the borrowing fund.

Individual funds may also make payments between one another which are intended to be permanent and therefore not repaid. These transactions are recorded on the statement of revenues, expenditures, and changes in fund balance as “Transfers Out” for the paying fund and “Transfers In” for the receiving fund.

During the year, the General Fund transferred \$43,176 to the Child Nutrition Fund to provide for supplemental financing needs.

The composition of interfund balances as of August 31, 2017 was as follows:

Receivable Fund	Payable Fund	Amount
General Fund	General Fund	\$ 16,698
	Special Revenue Funds	27,367
Total General Fund		<u>44,065</u>
Trust and Agency Funds	General Fund	\$ 9,000
Total Trust and Agency Funds		<u>9,000</u>

8. DEFINED BENEFIT PENSION PLAN

Plan Description

Lexington Independent School District participates in a cost-sharing multiple-employer defined benefit pension plan that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported education institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position

Detailed information about the Teacher Retirement System’s fiduciary net position is available in a separately issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.state.tx.us/about/documents/cafr.pdf#CAFR>; by writing to TRS at 1000 Red River Street, Austin, Texas, 78701-2698; or by calling (512) 542-6592. The information provided in the Notes to the Financial Statements in the 2016 Comprehensive Annual Financial Report for TRS provides the following information regarding the Pension Plan fiduciary net position as of August 31, 2016.

 Net Position as a Percentage of Total Pension Liability	 78.00%

Benefits Provided

TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member’s age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member’s age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on the date of employment, or if the member was grandfathered under a previous rule. There are no automatic post-employment benefit changes; including automatic cost-of-living-adjustments (COLAs). Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Contributions

Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas legislature to establish a member contribution rate of not less than 6% of the member’s annual compensation and a state contribution rate of not less than 6% and not more than 10% of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS’ unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Employee contribution rates are set in state statute, Texas Government Code 825.402. Senate Bill 1458 of the 83rd Texas Legislature amended Texas Government Code 825.402 for member contributions and established employee contribution rates for fiscal years 2014 thru 2017. The 84th Texas Legislature,

LEXINGTON INDEPENDENT SCHOOL DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED AUGUST 31, 2017

General Appropriations Act (“GAA”) established the employer contribution rates for fiscal years 2016 and 2017.

<u>Contribution Rates</u>	<u>2016</u>	<u>2017</u>
Member	7.2%	7.7%
Non-Employer Contributing Entity (State)	6.8%	6.8%
Employers	6.8%	6.8%
 <u>Contribution Amounts</u>		
Employer Contribution	\$ 137,594	\$ 192,345
Member Contributions	402,895	443,588
State On-Behalf Contributions	345,084	363,199

Contributors to the plan include members, employers, and the State of Texas as the only non-employer contributing entity (“NECE”). The State contributes to the plan in accordance with state statutes and the GAA.

As the non-employer contributing entity for public education, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers. Public school employers are required to pay the employer contribution rate in the following instances:

- On the portion of the member’s salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code
- During a new member’s first 90 days of employment
- When any part or all of an employee’s salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds

In addition to the employer contributions listed above, there are two additional surcharges an employer is subject to:

- When employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge
- When a school district does not contribute to the Federal Old-Age, Survivors, and Disability Insurance (OASDI) Program for certain employees, they must contribute 1.5% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees

Actuarial Assumptions

The total pension liability in the August 31, 2016 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2016
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Actuarial Assumptions:	
Single Discount Rate	8.00%
Long-Term Expected Investment Rate of Return	8.00%
Municipal Bond Rate*	N/A*
Last year ending August 31 in the 2016 to 2115 Projection period (100 years)	2115
Inflation	2.50%
Salary Increases	3.50% to 9.50% including inflation
Benefit Changes During the Year	None
Ad Hoc Post-Employment Benefit Changes	None

*If a municipal bond rate was to be used, the rate would be 2.84% as of August 2016 (i.e. the weekly rate closest to but not later than the Measurement Date). The source for the rate is the Federal Reserve Statistical Release H.15, citing the Bond Buyer Index of general obligation bonds with 20 years to maturity and an average AA credit rating.

The total pension liability is determined by an annual actuarial valuation. The actuarial methods and assumptions have been selected by the Board of Trustees based upon analysis and recommendations by the System's actuary. The Board of Trustees has sole authority to determine the actuarial assumptions used for the plan. The actuarial methods and assumptions are primarily based on a study of actual experience for the four year period ending August 31, 2014 and were adopted in September 2015.

The active mortality rates were based on 90% of the RP 2014 Employee Mortality Tables for males and females. The Post-retirement mortality rates were based on the 2015 TRS of Texas Healthy Pensioner Mortality Tables.

Discount Rate

A single discount rate of 8.0 % was used to measure the total pension liability. There was no change in the discount rate since the previous fiscal year. This single discount rate was based on the expected rate of return on pension plan investments of 8.0%. The projection of cash flows used to determine this single discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity will be made at the rates set by the legislature during the 2013 legislative session.

Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability with no cross-over point to a municipal bond rate.

The long-term expected rate of return on pension plan investments is 8.0%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce

LEXINGTON INDEPENDENT SCHOOL DISTRICT

the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Best estimates of geometric real rates of return for each major asset class included in the systems target asset allocation as of August 31, 2016 are summarized below:

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2017, Lexington Independent School District reported a liability of \$1,697,481 for its proportionate share of the TRS net pension liability. This liability reflects a reduction for State pension support provided to Lexington Independent School District. The amount recognized by Lexington Independent School District as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with Lexington Independent School District were as follows:

District's Proportionate Share of the Collective Net Pension Liability	\$ 1,697,481
State's Proportionate Share that is Associated with the District	<u>3,852,549</u>
Total	<u>\$ 5,550,030</u>

LEXINGTON INDEPENDENT SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED AUGUST 31, 2017

The net pension liability last was measured as of August 31, 2016 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2015 through August 31, 2016.

At August 31, 2016 the employer's proportion of the collective net pension liability was .0044920563% which was an decrease of .0003524437% from its proportion measured as of the previous measurement date of August 31, 2015.

There were no changes of assumptions or other inputs that affected measurement of the total pension liability during the measurement period. In addition, there were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2017, Lexington Independent School District recognized pension expense of \$76,225 and revenue of \$399,803 for support provided by the State.

At August 31, 2017, Lexington Independent School District reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Economic Experience	\$ 26,616	\$ 50,686
Changes in Actuarial Assumptions	51,736	47,052
Difference Between Projected and Actual Investment Earnings	327,107	183,368
Changes in Proportion and Difference Between the Employer's Contributions and the Proportionate Share of Contributions	359,896	30,006
Contributions Paid to TRS Subsequent to the Measurement Date	192,345	-
Total	\$ 957,700	\$ 311,112

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Measurement Year Ended 8/31:	Pension Expense Amount
2017	\$ 81,526
2018	81,526
2019	173,210
2020	74,483
2021	45,580
Thereafter	(2,081)

9. EMPLOYEE HEALTH CARE COVERAGE

During the year ended August 31, 2017, employees of the District were covered by the state-wide health insurance plan, TRS Active Care. The District contributed \$192 per month per employee to the Plan, the State provided an additional \$75 per month per employee, and employees, at their option, authorized payroll withholdings to pay contributions or premiums for dependents. TRS manages TRS Active Care. The Plan is administered by Aetna while Caremark was assigned the prescription drug plan.

10. RETIREE HEALTH CARE PLAN

Plan Description

The District contributes to the Texas Public School Retired Employees Group Insurance Program (“TRS-Care”), a cost-sharing multiple-employer defined benefit postemployment health care plan administered by TRS. TRS-Care provides health care coverage for certain persons (and their dependents) who retired under TRS. The statutory authority for the program is Texas Insurance Code (TIC), Chapter 1575. Section 1575.052 grants the TRS Board of Trustees the authority to establish and amend basic and optional group insurance coverage for participants. TRS issues a publicly available financial report that includes financial statements and required supplementary information for TRS-Care. That report may be obtained by visiting the TRS website at www.trs.state.tx.us under the TRS Publications heading, by writing to the Communications Department of the Teacher Retirement System of Texas at 1000 Red River Street, Austin, Texas 78701, or by calling the TRS Communications Department at 1-800-223-8778.

Funding Policy

Contribution requirements are not actuarially determined but are legally established each biennium by the Texas Legislature. TIC, Sections 1575.202, 203 and 204 establish state, active employee and public school contributions, respectively. Funding for free basic coverage is provided by the program based upon public school district payroll. Per TIC, Chapter 1575, the public school contribution may not be less than 0.25% or greater than 0.75% of the salary of each active employee of the public school. Funding for optional coverage is provided by those participants selecting the optional coverage. The State of Texas and active public school employee contribution rates were 1.0% and 0.65% of the public school payroll, respectively, with school districts contributing a percentage of payrolls set at 0.55% for fiscal years 2016 and 2017.

Medicare Part-D Subsidies

The Medicare Prescription Drug, Improvement, and Modernization Act of 2003, which was effective January 1, 2006, established prescription drug coverage for Medicare beneficiaries known as Medicare Part-D. One of the provisions of Medicare Part-D allows for the Texas Public School Retired Employee Group Insurance Program (TRS-Care) to receive retiree drug subsidy payments from the federal government to offset certain prescription drug expenditures for eligible TRS-Care participants.

A summary of the subsidy payments received by TRS-Care on behalf of the District for the last two fiscal years is as follows:

Fiscal Year	Medicare Part-D State On-Behalf Payments
2017	\$ 25,922
2016	18,685

11. FUND BALANCES

The District complies with GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, which establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds. Those fund balance classifications are described below.

Nonspendable - Amounts that cannot be spent because they are either not in a spendable form or are legally or contractually required to be maintained intact.

Restricted - Amounts that can be spent only for specific purposes because of constraints imposed by external providers, or imposed by constitutional provisions or enabling legislation.

Committed - Amounts that can only be used for specific purposes pursuant to approval by formal action by the Board.

Assigned - For the General Fund, the Board, or an official or body that has been delegated authority by the Board, may appropriate amounts that are to be used for a specific purpose. For all other governmental funds, any remaining positive amounts not previously classified as nonspendable, restricted or committed.

Unassigned - Amounts that are available for any purpose; these amounts can be reported only in the District's General Fund.

A detail of the fund balance amounts within each category is included on the governmental funds balance sheet.

Fund balance of the District may be committed for a specific purpose by formal action of the Board, the District's highest level of decision-making authority. Commitments may be established, modified, or rescinded only through a resolution approved by the Board. The Board has delegated authority to the Superintendent to assign fund balance for a specific purpose. In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended is as follows: restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance.

Unearned revenue at August 31, 2017 consisted of the following amounts:

Fund	Federal Grants
Non-Major Governmental Funds	\$ 38,511
Total	<u>\$ 38,511</u>

14. RISK MANAGEMENT

The District's risk management program includes coverages through third party insurance providers for property, automobile liability, school professional liability, crime, worker's compensation, and other miscellaneous bonds. During the year ended August 31, 2017, there were no significant reductions in insurance coverage from coverage in the prior year. Losses in excess of the various deductible levels are covered through traditional indemnity coverage for buildings and contents, and vehicle liability with various insurance firms. Settled claims have not exceeded insurance limits for the past three years.

Unemployment Compensation

During the year ended August 31, 2017, the District provided unemployment compensation coverage to its employees through participation in the TASB Risk Management Fund (the Fund). The Fund was created and is operated under the provisions of the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code. The Fund's Unemployment Compensation Program is authorized by Section 22.005 of the Texas Education Code and Chapter 172 of the Texas Local Government Code. All members participating in the Fund execute Interlocal Agreements that define the responsibilities of the parties.

LEXINGTON INDEPENDENT SCHOOL DISTRICT
 NOTES TO THE FINANCIAL STATEMENTS
 FOR THE YEAR ENDED AUGUST 31, 2017

The Fund meets its quarterly obligation to the Texas Workforce Commission. Expenses are accrued monthly until the quarterly payment has been made. Expenses can be reasonably estimated; therefore there is no need for specific or aggregate stop loss coverage for the Unemployment Compensation pool. For the year ended August 31, 2017, the Fund anticipates that the District has no additional liability beyond the contractual obligation for payment of contribution.

The Fund engages the services of an independent auditor to conduct a financial audit after the close of each year on August 31. The audit is accepted by the Fund's Board of Trustees in February of the following year. The Fund's audited financial statements as of August 31, 2016, are available on the TASB Risk Management Fund website and have been filed with the Texas Department of Insurance in Austin.

15. SELF-INSURANCE FUND

The District participates in a workers' compensation plan through a Fixed Cost/Loss Fund Program administered by Claims Administrative Services, Inc (CAS). The District's ultimate liability is the ending liability in its loss fund. CAS has excess insurance for the pool and the current self-insured retention is \$1 million.

A reconciliation of the estimated claim liability is as follows:

Year Ended August 31,	Beginning Liability	Estimated Current Year Claims	Claim Payments	Ending Liability
2017	\$ 58,214	\$ 26,906	\$ 24,029	\$ 40,899

16. COMMITMENTS AND CONTINGENCIES

The District participates in a number of federal financial assistance programs. Although the District's grant programs have been audited in accordance with the provisions of *Government Auditing Standards* and when applicable, the Uniform Guidance, for the year ended August 31, 2017, these programs are subject to financial and compliance audits performed by the specific grantors. These audits, if performed, could result in amounts of expenditures being disallowed by the granting agencies and subject to repayment. The District however expects that such amounts, if any, would be immaterial.

REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS

To the Board of Trustees of
Lexington Independent School District

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Lexington Independent School District, as of and for the year ended August 31, 2017, and the related notes to the financial statements, which collectively comprise Lexington Independent School District's basic financial statements, and have issued our report thereon dated November 17, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Lexington Independent School District's internal control over financial reporting ("internal control") to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Lexington Independent School District's internal control. Accordingly, we do not express an opinion on the effectiveness of Lexington Independent School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

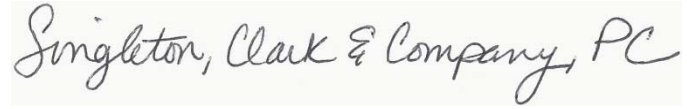

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Lexington Independent School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

THIS PAGE LEFT BLANK INTENTIONALLY

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
