

### I.T. Department – Student Electronics Waiver

Union Academy strives to be a welcoming and accommodating institution for its students. We also strive to enable students to utilize, learn, and use current technology to create the best 21<sup>st</sup> Century learners. With that goal in mind, Union Academy understands students utilize technology not owned by the school. We do not discourage students from bringing their own technology to school, however, we do ask parents sign a waiver of liability. In addition, we would like to ensure students and parents are aware that **no personal devices can be added to the school's wireless network**. For security purposes, only school owned and issued devices are able to be used on school networks.

By signing below, the parent and the student recognize that any personal device brought into the school is the sole responsibility of the student. This includes (but not limited to) cell phones, iPods, MP3 players, eReaders, tablets/iPads, netbooks, and laptops. The parent/guardian and student shall assume all risk with any personal device that is brought onto campus. Union Academy will not be held responsible for lost, stolen, or damaged devices.
