About the SARC

Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school. All data are reported for the 2012-13 school-year, unless otherwise indicated. For more information about SARC requirements, see the California Department of Education (CDE) SARC webpage at www.cde.ca.gov/ta/ac/sa/. For additional information about this school, please contact the school administration at (714) 963-8985.

School Description

Moffett School is a K-5 school nestled within a quiet, residential neighborhood comprised of single family homes. Located in the southwest section of Huntington Beach, California, Moffett School is a modern facility, built in 1975 and modernized in 2005, yet the culture within its walls is reminiscent of the early country schoolhouse that served as the center of the community. A sense of belonging and pride can be felt throughout the school. Monday mornings find the Moffett community gathered together to honor our country's flag and to celebrate the accomplishments of students, teachers, parents, and staff.

Operating on a traditional schedule, Moffett School serves a population of 582 students. At the time of this writing, 24 students were identified English Language Learners (4.3%), 39 students received special education services (7.0%), and 34 students were identified GATE (6.1%).

Moffett School is a Learning Community -- a community where learning is valued and engaged in by all. The Moffett School staff is committed to all students succeeding in a rigorous core curriculum. A collaboratively developed mission statement clearly defines the purpose of our learning community. We believe our purpose is:

- To provide students a solid foundation in literacy, mathematics, science, and history;
- To help children respect and value themselves and others;
- To teach children to access and apply information;
- To teach children to be effective communicators (to read, to write, to speak and to listen well);
- To develop critical thinking and problem-solving skills; and
- To provide a safe, secure and supportive learning environment.

The above statement is the foundation that guides our decisions and determines our actions as we work together to provide our children a strong foundation for the future.

Rigorous Common Core Standards further define our purpose and clarify student outcomes and expectations. The Moffett School staff believes that reading is the foundation for all learning. It is essential that every student leave third grade reading to learn. Common Core Standards and specific learning objectives determine what is taught, and it is expected that all students will meet or exceed these standards. Teachers meet regularly in grade level teams to analyze student performance data and to plan research-based instruction. Three elements define the foundation for results at Moffett School: teamwork; clear, measurable goals; and the ongoing analysis of performance data.

Opportunities for Parental Involvement

Parents and the community are very supportive of the educational programs at Moffett School. The Moffett School Parent Teacher Association(PTA), the Huntington Beach Education Foundation, and the Assistance League of Huntington Beach have all made generous contributions of time and money to numerous programs and activities. PTA fundraisers enable the school to offer programs in art, music, and reading. They also enrich classroom learning experiences through donations that support assemblies, field trips, and the purchase support materials relating to instruction.

The Huntington Beach Education Foundation, a joint business and educational partnership, provides funding for teacher mini-grants used to support educational programming. They also support parent education opportunities.

The Moffett School PTA directly supports a variety of instructional programs by providing funding and volunteer hours, including Best Foot Forward, a reading incentive program; vocal music; keyboard instruction for third grade; Art Masters; the annual Science Fair; etc.

The Moffett School Site Council is a leadership body consisting of staff and parents. Interested parents can submit their name in the fall and participate in an election for representation on the council. The council gathers input for use in the decision making process regarding the expenditure of site funds in alignment with the implementation of our school plan.

Parent participation in the Moffett classrooms is critical to the success of our school. Teachers design their lessons knowing parents will assist in the classroom to allow for small group and individualized instruction from kindergarten through fifth grade. Additionally, Moffett parents support the implementation of our homework program by establishing an environment in which the homework can be completed, monitoring their child's efforts, and reviewing homework for accuracy and completion.

School Safety Plan

This section provides information about the school's comprehensive safety plan, including the dates on which the safety plan was last reviewed, updated, and discussed with faculty; as well as a brief description of the key elements of the plan.

Many people visit the campus to volunteer in the classroom and participate in school events. Parents and visitors are welcomed and required to sign in at the school office upon arrival and obtain a visitors badge; visitors are required to return to the school office upon departure and sign out. During lunch, recesses, and before and after school, yard supervisors and teachers monitor students and school grounds, including the cafeteria and playgrounds, to ensure a safe and orderly environment. The Comprehensive Safe School Plan was developed by the district to comply with Senate Bill 187 (SB 187) of 1997. The plan provides students and staff a means of ensuring a safe and orderly learning environment. Moffett School includes the following requirements of SB 187 within our safe school plans: current status of school crime; child abuse reporting procedures; disaster procedures, routine and emergency; policies related to suspension and expulsion; notification to teachers; sexual harassment policy; provision of a school-wide dress code; safe ingress and egress of pupils, parents, and school employees; safe and orderly school environment; and school rules and procedures.

Moffett School evaluates our plan annually and updates it as needed. Safety procedures, including elements of the Safe School Plan, are reviewed with school and district staff in the fall, at the start of each school year. The plan was last updated and reviewed with school staff in October of 2012.

The district progressively addresses structural needs at our school to ensure facilities are safe and comply with education codes as well as building and safety regulations. Improvements at the Moffett campus include replacement of roofing, installation of a new telephone system, and modernization of the classrooms in the building. A \$30 million bond (Measure DD) combined with a \$17million Prop 47 allocation provide the necessary funding for district-wide modernization efforts. Moffett School received an apportionment of \$4.0 million for its upgrades and modernization projects.

School Facility Conditions and Planned Improvements (School Year 2013-14)

This section provides information from the most recent Facility Inspection Tool (FIT) data (or equivalent), including:

- Description of the safety, cleanliness, and adequacy of the school facility
 - Description of any planned or recently completed facility improvements
 - The year and month in which the data were collected
 - Description of any needed maintenance to ensure good repair
-

Year and month in which data were collected: August 27, 2013

Moffett School, built in 1974, consists of a main building with administrative offices, computer lab, library, indoor courtyard/lunch area and 23 classrooms. The site has 3 portable classrooms that were added during the 1990's. The YMCA also has a portable building used for before and after school child care.

This site has been retrofit with energy efficient interior and exterior lighting.

Improvements completed during 2012-13 included addition of a shade structure in the interior courtyard, two concrete ramps for portable classrooms, new carpet in the double portable classroom, painting and refurbishment of the double portable classroom, and slurry coating and striping both parking lots.

Facilities are inspected continuously by custodial and maintenance personnel and work orders are submitted as needed.

School Facility Good Repair Status (School Year 2013-14)

Professional Development

This section provides information on the number of days provided for professional development and continuous professional growth in the most recent three year period.

Staff development at Moffett School is guided by three questions: What are all students expected to know and be able to do? What must teachers know and do in order to ensure student success? Where must we focus our staff development efforts to meet both goals? High quality staff development is essential to creating schools in which all students and staff members are learners who continually improve their performance.

At the beginning of each school year, we analyze school-wide and grade level student performance assessment data to set goals and develop action plans that include staff development. Planning day schedule, every Thursday, facilitates grade level team and whole staff collaboration. Staff meetings are important forums for staff development. Frequently, research and journal articles are shared with teachers during staff meetings.

In teams, individually, and in collaboration with the principal during the instructional supervision process, teachers reference the California Standards for the Teaching Profession as a tool to reflect upon their own performance and to identify areas for individual and collective growth. During the instructional supervision process, the principal facilitates conversations that include opportunities for reflection and inquiry through open-ended questioning.

Teachers regularly engage in dialogue about best practice and research-based instruction during grade level and full staff meetings. Professional publications and memberships in such organizations as the Association for Supervision and Curriculum Development and the International Reading Association are purchased and shared with staff. The Principal's Bookshelf and the Professional Bookshelf in the library provide a wide array of reading and viewing materials.

At Moffett School, technology use complements rather than replaces successful methods that teachers use to help students develop skills and understanding. Teacher leaders provide on-going support, coaching, and training.

Continuous and sustainable school improvement requires three ingredients: a shared language, an empowered leadership group, and time. The Professional Learning Community (PLC) provides a framework for continuous and sustainable school improvement. The essential elements of a PLC include: clarity of purpose, precision in the use of concepts and language, learning through doing as part of the teacher's daily work, interdependent action through teamwork, and a results orientation that focuses on the learning of every student. Teachers at Moffett School understand the elements of a PLC.

Teachers also collaborate on a weekly/bi-weekly basis during our PLC time. Teachers evaluate data, instruction, assessments, and curriculum. They also design and plan for intervention and intervention grouping. Teachers collaborate at grade level meetings to discuss school business and other needs. Curriculum Cadre meets at least monthly to discuss and problem solve school-wide needs and issues. This information is then disseminated to the staff through grade level teams.

Through support of the district office, coaching for Direct Interactive Instruction (DII) and Cognitively Guided Instruction (CGI) will be provided. Moffett staff also received training in the use of Accelerated Reader (AR) and the STAR component of AR for use as a tool to monitor student progress. Following the initial training, staff also received coaching through our staff trainer two times throughout the school year. As well, a district CGI coach met with grade level teams to support on-going instructional improvement in math focused on the Common Core Standards. On-going classroom assistance and support was provided by our Curriculum Cadre and school-level trainer of trainers. These professionals provided resources, intervention groups for students, oversaw our intervention schedule and program, and provided classroom modeling.

Core Academic Classes Taught by Highly Qualified Teachers

The Federal Elementary and Secondary Education Act (ESEA), also known as No Child Left Behind (NCLB), requires that core academic subjects be taught by Highly Qualified Teachers, defined as having at least a bachelor's degree, an appropriate California teaching credential, and demonstrated core academic subject area competence. For more information, see the CDE *Improving Teacher and Principal Quality* webpage at: www.cde.ca.gov/nclb/sr/tq/

Types of Services Funded (Fiscal Year 2012-13)

This section provides specific information about the types of programs and services available at the school that support and assists students. For example, this narrative may include information about supplemental educational services related to the school's federal Program Improvement (PI) status.

A significant portion of Moffett School's categorical program budget is allocated for professional development activities to support improved instruction. The district continuously explores ways to increase extended learning opportunities and improve intervention with at-risk students, students showing needs for accelerated learning, and English Language Learners.

Each year, a portion of Moffett's School/Library Improvement Block Grant funds are used to enable staff members to attend teaching seminars and other events designed to enhance their teaching techniques and expand their knowledge base. Teachers new to the profession and teachers implementing new instructional strategies are supported through peer coaching and are encouraged to attend professional growth learning opportunities. Teachers who attend conferences, seminars, and other events are encouraged to share what they learn with other staff members.

The Beginning Teacher Support and Assessment (BTSA) program offers additional support and opportunities to new teachers. The program is designed to assist those new to teaching to expand and deepen their teaching skills, help the school district retain more new teachers, and improve learning opportunities for students.

The Gifted and Talented Education (GATE) program cluster classes are provided for grades 2 through 5 for appropriately identified students.

Quality, Currency, Availability of Textbooks and Instructional Materials (School Year 2013-14)

This section describes whether the textbooks and instructional materials used at the school are from the most recent adoption; whether there are sufficient textbooks and instruction materials for each student; and information about the school’s use of any supplemental curriculum or non-adopted textbooks or instructional materials.

Year and month in which data were collected: October 2013

Pursuant to the settlement of Williams vs. the State of California, Huntington Beach City School District thoroughly inspected each of its school sites at the start of the 2013-14 school year to determine whether or not each school had sufficient and good quality textbooks, instructional materials, and/or science laboratory equipment.

All students, including English Learners, are required to be given their own individual textbooks and/or instructional materials (in core subjects), for use in the classroom. Additionally, all textbooks and instructional materials used within the District must be aligned with the California State Content Standards and frameworks, with final approval by the Board of Education.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

The Standardized Testing and Reporting (STAR) Program consists of several key components, including:

- **California Standards Tests (CSTs)**, which include English-language arts (ELA) and mathematics (Math) in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science (H-SS) in grades eight, and nine through eleven.
- **California Modified Assessment (CMA)**, an alternate assessment that is based on modified achievement standards in ELA for grades three through eleven; mathematics for grades three through seven, Algebra I, and Geometry; and science in grades five and eight, and Life Science in grade ten. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations.
- **California Alternate Performance Assessment (CAPA)**, includes ELA and mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations.

The assessments under the STAR Program show how well students are doing in relation to the state content standards. On each of these assessments, student scores are reported as performance levels.

For detailed information regarding the STAR Program results for each grade and performance level, including the Percent of Students not tested, see the CDE STAR Results Web site at star.cde.ca.gov.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest webpage at dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., state Academic Performance Index [API], federal Adequate Yearly Progress [AYP]), test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners.

Academic Performance Index

The Academic Performance Index (API) is an annual measure of state academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. For detailed information about the API, see the CDE API webpage at www.cde.ca.gov/ta/ac/ap/.

Academic Performance Index Ranks - Three-Year Comparison

This table displays the school's statewide and similar schools' API ranks. The **statewide API rank** ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state. The **similar schools API rank** reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

Federal Intervention Program (School Year 2013-14)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. For detailed information about PI identification, see the CDE PI Status Determinations webpage: www.cde.ca.gov/ta/ac/ay/tidetermine.asp.

Adequate Yearly Progress

The federal ESEA requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, can be found at the CDE Adequate Yearly Progress (AYP) webpage at www.cde.ca.gov/ta/ac/ay/.
