#3	Old Business: <ul style="list-style-type: none"> Academic Plan Updates Principal Takazono shared our experience visiting Pauoa Elementary to see how that school implements i-Ready and uses the data to help build student achievement through student independence in learning centers. We have also been learning more about the use of the i-Ready program, learning centers, and Social Emotional Learning. With the learning from the visit and our own research, we will refine our Waiiau AcPlan addendum. Members were in agreement and excited to hear that resiliency, independence and goal setting are topics that Waiiau admin and teachers are looking at as they see it as a need at home too. Consensus reached that SCC supports the Waiiau Academic Plan and Addendum as written for 2018-19	T. Takazono
