

Morning Arrival/Afternoon Dismissal Procedures

Morning car rider drop off:

Pull as close to the cafeteria doors as possible.

Have student's items ready to exit the car promptly.

Unload students using the entire length of the building--- office door to the cafeteria door. Since this allows approximately nine cars to unload at once, morning drop off times are better. 😊

Please do not park at CVS and send your student across the street. It is too dangerous.

Afternoon Parent Pickup:

Park and walk up to cafeteria doors to pick up your child.

You MUST have a white card made by front office to pick up your child using your drivers license.

If you don't have a card, please go to the office to have one made.

Change of transportation requires written notice/permission. It is against our policy to call students from the car-rider area to parent pickup.

Afternoon Car Rider Pickup:

Please have your white card visible for faculty to read and call for your child.

Follow the car line around to the back of the school to claim your student.

Please make sure that transportation changes are communicated to the office (in writing) and that your child is aware they are a car rider.
