BPAC
Bilingual Parent
Advisory Committee

Join us in making a
difference in the education of
your child.

Vision Statement

The purpose of the Bilingual Parent Advisory Committee (BPAC) is to recognize and value the various cultures of our society. BPAC is dedicated to help D98 students achieve their personal, academic and civic potential.

Mission Statement

To be an organization that represents the interests and needs of the bilingual community through active participation in the educational process of our students and making decisions that will impact education our children receive.

Why should I be involved...

Parent Engagement in School Makes a Difference

- Research shows that students achieve more when their parents are involved in the school.
- By being involved, parents have an opportunity to voice concern and suggest areas of improvement in bilingual programming.
- Parents have a unique perspective on the needs of their children and how schools can best serve those needs.
- The purpose of this committee is to participate in developing, implementing, and evaluating the bilingual programs.
- You will be able to work with bilingual program teachers, school counselors, and community members.

Membership Responsibilities

- Participate in training that informs parents about bilingual education and students' rights.
- Meet 4 times each school year.
- Review the bilingual program and offer suggestions to better serve the students.
- Recruit other parents to the committee.
- Plan an educational event for students and their families.
