Senate Bill 187: Comprehensive School Safety Plan Purpose

The California Education Code (sections 32280-32288) outlines the requirements of all schools operating any kindergarten and any grades 1 to 12, inclusive, to write and develop a school safety plan relevant to the needs and resources of that particular school.

In 2004, the Legislature and Governor recast and renumbered the Comprehensive School Safety Plan provisions in SB 719 and AB 115. It is the intent of the Legislature in enacting the provisions to support California public schools as they develop their mandated comprehensive safety plans that are the result of a systematic planning process, that include strategies aimed at the prevention of, and education about, potential incidents involving crime and violence on school campuses.

The historical requirement of the Comprehensive School Safety Plan was presented in Senate Bill 187, which was approved by the Governor and chaptered in 1997. This legislation contained a sunset clause that stated that this legislation would remain in effect only until January 1, 2000. Senate Bill 334 was approved and chaptered in 1999 and perpetuated this legislation under the requirement of the initial legislation.

Comprehensive School Safety Plans are required under SB 719 & AB 115 and contains the following elements:

Assessment of school crime committed on school campuses and at school-related functions

- Child abuse reporting procedures
- Disaster procedures
- Suspension and expulsion policies
- Procedures to notify teachers of dangerous pupils
- Discrimination and harassment policies
- School wide dress code policies
- Procedures for safe ingress and egress
- Policies enacted to maintain a safe and orderly environment
- Rules and procedures on school discipline
- Hate crime reporting procedures

The Comprehensive School Safety Plan will be reviewed and updated by March 1st every year. In July of every year, the school will report on the status of its school safety plan including a description of its key elements in the annual school accountability report card.

A copy of the Comprehensive School Safety Plan is available for review at Ollivier Middle School Office and the Office of the Transportation and Safety Supervisor.

(A) Child Abuse Reporting Procedures (EC 35294.2 [a] [2]; PC 11166)

Child Abuse and Neglect

(Legal Reference: Education Code—44690, 44691)

The responsibility for enforcing legal prohibitions against child abuse and neglect lies with the protective agencies such as the local police department, the sheriff's department, and child protective services. The school district's responsibility is to report evidences of child abuse and neglect to the appropriate authorities.

The law requires that the first person to observe or suspect child abuse report this to the appropriate protective services' agency. Following the verbal report, a written report on prescribed forms must be completed and sent within 36 hours of the verbal report.

During the questioning of the child at school, a certificated staff member may be present unless directed not to do so by the law enforcement person or the child protective services worker.

(B) Disaster Procedures (EC 35295-35297; GC 8607 and 3100)

Disaster Plan (See Appendix C-F)

Ollivier Middle School has procedures in place to address emergency or disaster situations that might affect the school site population. These measures are contained within the following pages. They are updated each year, previewed by the site administrators, and shared with the staff. The District perceives its responsibility to be one of a support agent for sites in times of emergencies. It will provide resources as laid out in these procedures. California has developed a system that is used throughout the state by all state agencies to respond to emergencies and disasters. In the event that a disaster or emergency situation occurred at Ollivier School, this system—the Standardized Emergency Management System (SEMS) would be put in place. The two critical commodities in an emergency (information and resources) flow better with this system. Three of the SEMS concepts most effective to schools are: 1) a management tool called the Incident Command System (ICS); 2) mutual aid systems, in which similar organizations assist each other in emergencies (for example, the school district providing support to the school site); and 3) multiple agency coordination, under which diverse organizations work together and communicate with each other (for example, support to a school site by law enforcement or other emergency services). The management tool used at Ollivier School, the Incident Command System (ICS), provides organizational structure during an emergency. One person is in charge—an Incident Commander (IC) at the school site and the EOC (Emergency Operations Center) Director at the district level. The IC, usually the site principal, DIVIDES up tasks and DELEGATES responsibilities to the site staff members. Staff has received initial training that is followed up by regular emergency drills, along with additional training, as needed. The IC will FOLLOW UP on the decisions made and closely monitor the progress of the incident to its conclusion and beyond. During the incident, the District provides the necessary resources and support to help bring the situation to an expedient resolution. California Government Code Section 3100 declares that in the event of a local or state emergency or federal disaster declaration, public employees are disaster service workers, subject to such disaster service activities as may be assigned to them by their superiors or law. Staff members are assigned specific responsibilities that help to facilitate a well-structured resolution to the emergency situation. The following pages contain a more in-depth explanation of personnel roles and procedures in handling a disaster or emergency at Ollivier Middle School. They give an organized scenario for addressing a critical situation in the most effective manner.

Public Agency Use of School Buildings for Emergency Shelters

The district has no board policy or administrative regulation addressing this issue, however, the district will approve any public agency the use of any of its' school buildings, grounds, and equipment for mass care and welfare shelters during an emergency.

(C) School Suspension, Expulsion and Mandatory Expulsion Guidelines

Suspension: Temporary removal of a student from ongoing instruction at the school site, for purposes of adjustment and calling attention to the seriousness of his/her behavior. Suspended students shall be excluded from all school-related extracurricular activities while under suspension.

The following do not constitute formal suspension:

- 1) Reassignment to another educational program or class at the same school.
- 2) Referral to a district employee designated by the principal to advise students.
- 3) Removal from the class, but without reassignment to another class or program, for the remainder of the class period without sending the student to the principal or designee for appropriate action. Removal from a particular class shall not occur more than once every five (5) school days.

[Education Code Section 48910]

Expulsion: Removal of a student from the immediate supervision and control, or general supervision, of school personnel. An expelled student may not participate in any district program or activity; however, the student may be eligible to attend a community day school program.

[Education Code 48925]

Due Process: The School Board shall provide for the fair treatment of pupils facing suspension or expulsion by affording them due process rights under the law. The Superintendent or designee shall comply with procedures for notices and appeals as specified in law and policy.

[Education Code 48911, 48915, 48915.5]

Using available district or outside agency records, teachers will receive information on each student who has, or is reasonably suspected to have engaged in any suspendable or expellable act, during the previous three school years. Teachers will be given access to records for all of their students with a disciplinary history occurring during the previous three years. Any information received by a teacher shall be received in confidence, for the limited purpose for which it was provided and shall not be further disseminated by the teacher.[Education Code Section 49079]

(E) Sexual Harassment Policies (EC 212.6 [b])

It is the intent of the Greenfield Union School District to provide a working and educational environment for all individuals which is free of sexual harassment or other discriminatory practices based on the gender of the individual. Such harassment is in violation of federal and state laws.

Students in grades 4 through 12 may be suspended or expelled for sexual harassment. The Greenfield Union School District will not condone, permit, or tolerate sexual harassment of students or employees in any manner whatsoever. Persons engaging in such harassment shall be subject to discipline up to and including termination and expulsion.

Unwelcome sexual advances, requests for sexual favors, and other verbal, visual, or physical conduct of a sexual nature constitute sexual harassment when:

- Submission to the conduct is explicitly or implicitly made a term or condition of an individual’s employment, academic status or progress.
- Submission to or rejection of the conduct by an individual is used as the basis for academic or employment decision affecting the individual.

- The conduct has the purpose or effect of having a negative impact on the individual's academic or work performance, or creating an intimidating, hostile, or offensive educational or work environment.
- Submission to or rejection of the conduct by the individual is used as the basis for any decision affecting the individual regarding benefits, services, honors, programs, or activities available at or through the school [Ed Code 212.5]

Other types of conduct which are prohibited in the district and which may constitute sexual harassment include:

- Unwelcome sexual flirtation or propositions
- Verbal abuse of a sexual nature

A student or employee who feels he/she is being harassed is encouraged to immediately report such incident to the immediate supervisor of the accused employee or student without fear of reprisal or retaliation. Administrative procedures set forth in this policy should be followed.

[Ed Code Sections 4890, 48900.3, and 212.6]

(F) School-wide Dress Code Relating to Gang-Related Apparel (EC 35183)

Schools will not allow any clothing, haircut, jewelry, etc., which...

... is disruptive, or potentially disruptive, in the classroom or on the playground.

... prohibits full participation.

... is unsafe.

... indicates gang membership or association.

"The comprehensive safety school plan shall define 'gang-related apparel'... as ...apparel that, if worn or displayed on a school campus, reasonably could be determined to threaten the health and safety of the school environment."

[Education Code 35183, 35294.2]

(G) Procedure for Safe Ingress and Egress of Pupils, Parents, and Staff to and from School (EC 35294.2)

Ollivier operates a closed campus. All visitors must report directly to the front office to register prior to entering campus. All visitors are required to produce a government issued photo ID prior to accessing campus/students. All visitors are scanned into the visitor management system (RAPTOR) and screened against federal database for registered sex offenders. All approved visitors are provided a printed visitor badge containing visitor's information and destination. School Staff receives annual training to observe and enforce visitor ID badge requirement. Any visitors who do not have badge in a visible location are redirected to the office or engaged by school staff for questioning. All visitors exit through the front office and are "checked out" via visitor management system (Raptor) to insure an accurate head count is kept in the event of a disaster. All parameter gates are closed in the locked position.

Access signs establishing supervision hours, campus entrance requirements, including No Smoking/Alcohol signs are displayed prominently at entry points. The school's facilities are used until 6 PM with the presence of the After School Success Program. These procedures remain in effect throughout the extended instructional day. (Community use of these facilities may occur during off-hours.)

Assistant principals and security personnel monitor the school grounds for safety and the addressing of any concerns. The Safe School Committee meets as needed to discuss and reevaluate the safety needs of the school. Yard Duty Assistants patrol school campus entry and exit points throughout the day. Along with teachers, they monitor hallways and bathrooms to limit loitering by students. Two-way radio communication is used by security personnel, teachers, yard duty assistants, office staff, and administration. Paraprofessionals receive training for yard supervision responsibilities.

SAFE DISMISSAL / PHONE MESSAGES:

Your child's safety is of utmost importance. Make every attempt to keep your children's schedules and transportation arrangements the same each day. WE WILL NOT ACCEPT PHONE CALLS for these changes, and we will not call your child out of class to speak to you on the phone. Children can only be released to someone who is listed on the pink emergency card, which is signed by the parent or guardian. A picture ID is required to check out any student from school. These procedures are in the best interest of student safety.

Regular maintenance of the school's facilities is the responsibility of the Maintenance Operations and Transportation Department of GUSD. The site administration works closely with this department to ensure a neat and clean school environment. Administrators and school site staff monitor site buildings for safety and appearance concerns—reporting them in a timely manner. Broken glass, gates, lights, and acts of vandalism are promptly handled by school maintenance. Maintenance personnel and site staff continue to be trained in safety measures such as chemical spills, handling blood, and the use of a sweep team during an emergency. Students are encouraged to assist in maintaining a safe and healthy school living environment.

(H) A Safe and Orderly School Environment Conducive to Learning (EC 35294.2)

Component:

The district is committed to providing a safe school environment that allows all students equal access and opportunities in the district's academic and other educational support programs, services, facilities, and activities. The district prohibits, at any school or school activity, unlawful discrimination, harassment, intimidation, and bullying of any student based on the student's actual race, color, ancestry, national origin, ethnic group identification, age, religion, marital or parental status, physical or mental disability, sex, sexual orientation, gender, gender identity, or gender expression, the perception of one or more of such characteristics; or association with a person or group with one or more of these actual perceived characteristics. Students who engage in discrimination, harassment, intimidation, bullying, or retaliation will be disciplined. For a copy of the district's anti-discrimination, anti-harassment, anti-intimidation, and anti-bullying policies or to file a complaint of a violation of these policies using the Uniform Complaint Procedures form, please contact the district's Assistant Superintendent at (661) 837-6000.

Each student is permitted to participate in sex-segregated school programs and activities and access facilities consistent with his/her gender identity, irrespective of the gender listed on the student's records. To ensure that transgender and gender-nonconforming students are afforded the same rights, benefits, and protections provided to all students, the district will address each situation on a case-by-case basis in accordance with law and Board Policy. If any student believes his/her privacy or religious beliefs and/or practices requires increased privacy he/she may contact the district's Assistant Superintendent (661) 837-6000.

Each such situation will be addressed on a case-by-case basis and in accordance with the law and Board Policy.

Incident Command Team Responsibilities

Standardized Emergency Response Management System Overview

The California Standardized Emergency Management System (SEMS) is designed to centralize and coordinate emergency response through the use of standardized terminology and processes. This greatly facilitates the flow of information and resources among the agencies participating in response to an emergency. SEMS consists of five functions:

Management

During an emergency, the Incident Commander directs response actions from a designated Command Post. To effectively do this, the Incident Commander must constantly assess the situation, and develop and implement appropriate strategies. The Incident Commander must be familiar with the available resources, accurately document all response actions, and effectively communicate response strategies to others participating in the response. This function is typically filled by the school principal. The principal is assisted in carrying out this function by a Public Information & Liaison Officer and Safety Officer.

Planning & Intelligence

Planning and Intelligence involves the use of various methods to efficiently gather information, weigh and document the information for significance, and actively assess the status of the emergency. This understanding and knowledge about the situation at hand is vital to the effective management of a response. These activities are performed by a single person who reports directly to the Incident Commander.

Operations

All response actions are implemented under by Operations. This includes staff performing first aid, crisis intervention, search and rescue, site security, damage assessment, evacuations, and the release of students.

Logistics

Logistics supports the response by coordinating personnel; assembling and deploying volunteers; providing supplies, equipment, and services; and facilitating communications among emergency responders.

Finance & Administration

Finance & Administration involves the purchasing of all necessary materials, tracking financial records, timekeeping for emergency responders, and recovering school records following an emergency. These activities are performed by a single person who reports directly to the Incident Commander.

Emergency Response Guidelines

Step One: Identify the Type of Emergency

Step Two: Identify the Level of Emergency

Step Three: Determine the Immediate Response Action

Step Four: Communicate the Appropriate Response Action

Earthquake

In the event of an earthquake or an earthquake drill during the school day: Students and staff will take the DUCK, COVER, & HOLD position. 1) Drop to your knees (with your back to the windows) under protective cover (desk, table, etc.), if available. 2) Clasp hands behind head, covering neck; bury face in arms, protecting head; close eyes and cover ears with forearms. 3) Stay in this position until ALL CLEAR signal is given or threat is over. -Determine extent of injuries; check for safest exit route. -Calmly vacate the building to the designated Evacuation Assembly Area or, if necessary, to an alternate evacuation site. Take roll, fire extinguisher, and earthquake pack (if Applicable) with you. Deposit fire extinguishers at the Command Post. -Take roll, note any missing students; communicate that information to the Operations Officer-In-Charge. Deliver injured to First Aid. -Supervise and reassure students throughout the emergency. -If a teacher has other duties, e.g., Search & Rescue, Buddy Teacher will now take over until those duties are completed. -Await further instructions.
