UNIFIED SCHOOL DISTRICT

## Parent Engagement Opportunities

### VISION

Beaumont Unified School District believes that parents, families, schools, and local communities working together, will create meaningful partnerships that lead to gains in student achievement. We also believe this is an ongoing process and over time, active participation, communication and collaboration between parents, and schools will increase.

### MISSION

The goal of Beaumont Unified School District's Parent Engagement Program is to strengthen and bridge the gap between parents, families, schools and the local community, which gives families the opportunity to become proactive in their children's education. The program does this by providing information, training, and assistance through family/parent education courses,.
