ROLE OF THE BOARD

The public schools of the Bordentown Regional School District belong to and are supported by the residents of the school district. They are operated in the public interest by the board of education, a representative body, elected by the community and responsible to the citizens for the proper administration of the schools. It is the primary responsibility of the board to oversee that the educational ideals, values and goals of the community are expressed through policy and implemented by the superintendent and the administrative staff.

The board of education is also responsible for interpreting the educational needs and problems of the school system to its constituency in order to promote public confidence and support for the superintendent and staff.

The board of education is accountable to the public for the efficient operation of the school district and the responsible management of public funds. Therefore, the board is responsible for the continual appraisal of the conduct and operation of the school system. Evaluating the many aspects of school operations enables the board to determine whether the general policies which it has established are being carried out effectively. In the event that policies are not being implemented, the board oversees that the existing shortcomings are remedied.

The general mandatory powers and duties of the board are defined in Title 18A of New Jersey statutes. Other sections of the statutes state or imply that a local board of education has full power to operate the local public schools as it deems fit in compliance with state and federal mandates and pertinent laws of the municipality. The board functions only when in session.

The board of education sees these as its required functions:

A. Policy oversight

The board is responsible for the development of policy and for the employment of a superintendent who shall carry out its policies through the development and implementation of regulations. The board is responsible for evaluating the effectiveness of its policies and their implementation. This includes setting and evaluating goals in educational and financial areas.

B. Educational planning

The board is responsible for requiring and acquiring reliable information from responsible sources that will enable it and the staff to work toward the continuing improvement of the educational program.

C. Provision of financial resources

The board has major responsibilities for the adoption of a budget that will provide the wherewithal--in terms of buildings, staff, materials, and equipment--to enable the school system to carry out its functions.

D. Interpretation

The board is responsible for providing adequate and direct means for keeping the local community informed about the school and for keeping itself and the school staff informed about the wishes of the public. All planning, that which is and that which is not related to the budget, needs to be interpreted to the public if citizens are to support the school program.

ROLE OF THE BOARD (continued)

The board believes that, by diligently exercising these functions, it will be able to provide the best educational opportunities possible for our children within the financial limitations set by the community.

The board shall exercise its powers through the legislation of bylaws and policies for the organization and operation of the school district.

The board shall be responsible for the operation of the school but shall delegate the administration to the superintendent, who shall be appointed by a recorded roll-call majority vote of the full board.

The board may hear appeals in complaints and in grievance and disciplinary actions as defined in these policies and in the law.
