The Competition is on!

Students in Josiah Custar's 6th hour Web Design class at AHS are competing to see who can create the winning collage design to highlight senior football players. They are researching ideas on design and then putting this electronic design together. Can't wait to see who wins. This group of students

were also the creators of the 2017 Ardmore Tiger football programs. They did a great job.

Have you seen us on the digital billboards around town yet???? Thanks to some private donors, we will be able to submit a new picture each week through the end of the school year. Be sure to check it out.
