RE: Water Notification

Our April water sample collected at Mapleview Elementary exceeded the lead action level of 0.015mg/L (15ppb) with a result of 0.048mg/L (48ppb) at a classroom sink (Room 102). **This is not a drinking fountain but is a classroom sink.**

All cafeteria water, drinking fountains, and other classroom sinks tested have been below the EPA established Action Level of 15 ppb. The system as a whole remains in compliance based on the 90th percentile calculation. The sink has been turned off and repairs are in the process of being completed.

The DEP was contacted and approves PASD's efforts to resolve the problem. The Punxsutawney Area School District will continue assessment of the issue as well as repeat testing.

Our students' well-being is of the utmost importance to all of us at PASD. If you have any questions, please contact Dr. Thomas Lesniewski @ 938-5151 x 5001, Dr. Shari Weber @ 938-5119 or the Supervisor of Maintenance, Mr. Carmen Gett @ 938-5151 x 6750.
