

Health Requirement

One semester of Health is a required 9th grade course. Students enrolled in programs such as IB, MERITS, APA, MUN, CIBACS, Honors courses and Band may have an impacted 9th grade schedule where health will not fit into the schedule during that year. HBUHSD Alternative Education is working on several ways for students to complete Health before they graduate. We encourage all families to take the HBUHSD courses within the district. Administrative approval at the home high school is required for a student to take the health requirement through an alternative option outside of the district or through a summer program. The Board of Trustees, Administration and teaching staff want to emphasize that the Health curriculum is best offered in a 9th grade classroom setting where content is delivered according to the state standards and where students can discuss health-related issues in a safe and healthy environment.
