

# Innovated clocks

-THE INVENTION OF CLOCKS STARTED WHEN THE TIMER WAS INVENTED AND FROM THERE THE CLOCK WAS INNOVATED TO THE DIGITAL AND THEN THE PROJECTED OR HOLOGRAM CLOCK.

# FACTS ABOUT CLOCKS

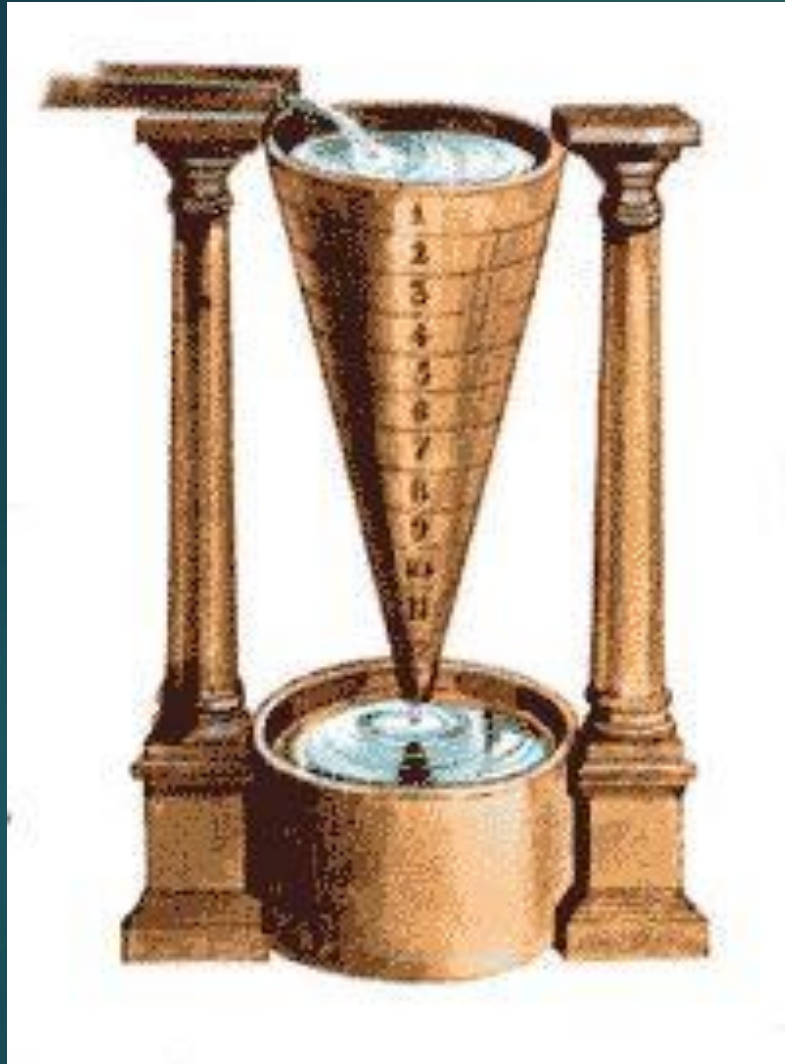

-Did you know the days in the past had ten hours. To keep track of the day the people looked at a shadow clock, which told the time based on where the shadow was.

# How The Clock Impacted The World In A Positive Way.

The clock impacted the world in a positive way because it was able to tell them the time and the date.

# Old Clocks

-The first clock wasn't a clock it was a timer and it was invented by an Egyptian named CTESIBIUS.

# Digital clock

-The clock was innovated in the 20<sup>th</sup> century to a digital clock.

# The Future Clock

The future clocks will most likely be projected or hologram clocks. This will most likely start being popular in about three years.
