

Use of Facilities

Internal School and Group A Users Facility Booking Windows

Facility Booking Windows

In an effort to facilitate equal and fair access to district facilities by all user groups, the PYLUSD has established the following application periods for respective facilities. The purpose of these application periods is to allow all potential user groups reasonable application time frames to accommodate customary use and organizational time lines of the programs requesting each type of facility.

The “Applications Period” for the various facilities indicates the district’s initial review period for applications that have been received for the designated fall, winter, spring or summer “Usage Dates”, as appropriate. The last day of the Application Period is the deadline that all applications that have been received will be equally evaluated and facilities will be assigned immediately following the closing of the Application Period. Applications received after the Application Period will be evaluated on a first-come, first-serve basis.

School Year 2016 - 17		Booking Windows
