Notice of Parental Rights & Responsibilities

As a parent or legal guardian of a child in a public school, and more specifically a pupil in the Kings Canyon Unified School District you have certain rights and responsibilities and you are entitled to be made aware of certain information. The following is our District's annual notice to you of your rights and responsibilities.

Health and Disability Issues

Immunization for Communicable Disease. If your child is entering our District, he or she must be immunized against:

- diphtheria;
- tetanus;
- pertussis (unless your child is already 7 years old);
- poliomyelitis;
- rubella;
- mumps (unless your child is already 7 years old);
- measles;
- hepatitis B (if your child started kindergarten after July 1, 1997);
- and
- haemophilus influenzae type b (unless your child has already reached the age of 4 years and 6 months).¹

Furthermore, if your child started kindergarten after July 1, 2000, he or she must receive the varicella (chicken pox) immunization. You must present a written immunization record of each required vaccine, including date and provider, at school entry.

If your child is entering 7th grade, you will need to provide proof that your child has received all 3 shots in the Hepatitis B series. Your child may be admitted with proof of having received the first shot in the three shot Hepatitis B series, on condition that he or she receives the remaining two shots when due. A repeat DT and MMR may also be required. New for the 2011-12 school year, students entering 7th – 12th grades must provide proof of having received a booster immunization ("Tdap") against pertussis ("whooping cough").

If you file an affidavit with the District stating that immunization is contrary to your beliefs, your child will not be required to be immunized as a condition of admission to school. A student may apply for this exemption him or herself if he or she is an emancipated minor and, in that case, must file the affidavit him or herself. Students exempted from immunization because of their beliefs may be temporarily excluded from their school or institution if there is good cause to believe they have been exposed to a "communicable disease", as that term is defined in subdivision (a) of Section 120325 of the Health & Safety Code, until the local health officer is satisfied that they are no longer at risk of developing the disease.²

Personal Belief Exemptions (PBE) can no longer be accepted after January 1, 2016; and families desiring a PBE for the 2015-2016 school year must submit it to the school by January 1, 2016. The PBE remains in effect until the child advances to the next grade span checkpoint; those being pre-school, Kindergarten, and 7th grade (or first entry into public school).

On or after January 1, 2014, the parent/guardian shall also submit a form prescribed by the CDPH which includes a signed attestation by a health care practitioner that indicates he/she has provided the parent/guardian with information regarding the benefits and risks of the

¹ Health & Safety Code §120335.

² Health & Safety Code §120365.

immunization and the health risks of the communicable diseases listed in Health and Safety Code 120335 to the person and the community. The parent/guardian shall sign a statement indicating that he/she has received this information. Neither the health care practitioner nor the parent/guardian shall sign these statements more than six months prior to the date that the student is subject to the immunization requirement. In lieu of the original form, the District shall accept a photocopy of the signed form or a letter by a health care practitioner that includes all information and attestations included on the form.

Additionally, your child may be exempted from this immunization requirement if his or her health may be adversely affected by immunization. To claim this exemption you must file a letter with the District from a licensed physician detailing the specific nature and probable duration of your child's medical condition or circumstances that prevent safe immunization.³

If the District participates in an immunization program to prevent or control communicable diseases, your child will not participate unless you have provided specific written consent.⁴

Administration of Medication at School. A designated school employee may administer medication to your child at school if you make a written request to that effect and include written instructions from a physician or surgeon with that request detailing the name of the medication, method, amount, and time schedule(s) for the student to take the medication.⁵

Additionally, some students may need to carry and self-administer their medication. Medications which students may carry and self-administer include prescription auto-injectable epinephrine and inhaled asthma medication, and medications to address diabetes. In order for a student to carry and self-administer epinephrine, asthma medication, or insulin/diabetes medications, the school district must receive a written statement from a physician detailing the same physician's instructions as above and confirming that the student is able to self-administer the medication, as well as a written statement from the student's parent, guardian, or foster parent consenting to the self-administration, providing a release for designated school personnel to consult with the prescribing physician regarding any questions about the medication, and releasing the school district and school personnel from civil liability if the self-administration results in any adverse reaction. Students may be disciplined under Section 48900 of the Education Code if they use auto-injectable epinephrine or inhaled asthma medication in a manner other than prescribed.⁶

School staff members who would like to volunteer to be trained to administer an epinephrine auto-injector should notify their site administrator or department director. The training may be provided by school district nurses.

Exemption from Physical Examinations. You can exempt your child from all physical examinations by making a written request that your child be exempted. Your child will be exempted only after the District receives the written request. However, if your child is exempted from physical examinations, he or she may be sent home if there is a good reason to believe that he or she is suffering from a recognized contagious or infectious disease.⁷

Medical and Hospital Services for Pupils. The District may provide medical or hospital service, or accident or liability insurance policies for student injuries occurring while in or on the District's property. Your child will not be compelled to accept such service without your

consent. If the student is emancipated or an adult then he or she will not be compelled to accept such service without his or her consent.⁸

Continuing Medication. If your child needs daily medication, you must inform the school nurse or other designated certificated employee of the medication, the current dosage, and the supervising physician.⁹ If you consent, the school nurse may communicate with the designated physician or other school personnel regarding the effectiveness of the child's medication.

Pesticide Notification. Enclosed with this notice is a notification of the name and active ingredients of all pesticide products expected to be applied at District schools during the upcoming year. You may register with the District if you wish to receive notification of individual pesticide applications at the school facility (see page 22).¹⁰

Tobacco-Free Facilities [TUPE Certification]

All KCUSD facilities are tobacco-free facilities and the use of tobacco is prohibited at all times.

Asbestos Management Plan. An updated management plan for asbestos-containing material in school buildings is available at the District Office upon request.¹¹

Disabled Pupils. Your child will not be discriminated against on the basis of disability. Reasonable accommodation is available for disabled students if necessary. (Section 504 of the Rehabilitation Act of 1973.) School site principals or their designees serve as the § 504 coordinators for their respective school sites.

Pupils With Temporary Disabilities - Individual Instruction. Students with temporary disabilities, who cannot attend regular day classes, may receive individual instruction provided by the District. If you believe your child is such a student, please contact the District.¹²

Pupils With Temporary Disabilities - Residency Requirements. If your child has a temporary disability and is in a hospital or other health facility, excluding a state hospital, that is outside of the school district in which you reside, your child is deemed to have complied with the residency requirements for school attendance in the school district in which the hospital is located.

You have the primary responsibility to notify the school district in which the qualifying hospital is located that your child is in a qualifying hospital within that school district's boundaries. That school district has the obligation to determine whether your child qualifies for individual instruction while he or she is in the qualifying hospital. Your child should be provided with instruction no later than 5 working days after a determination is made that he or she qualifies for individual instruction.¹³

Special Education for Handicapped Pupils, Child Find System; Policies and Procedures.

Any pupil with exceptional needs, who is qualified and eligible to receive educational and related services, shall receive such instruction or services or both, at no cost and in the least restrictive environment as required federally by the Individuals with Disabilities Education Act (IDEA).¹⁴ You and your child may have certain rights and procedural safeguards under the IDEA and its state-law counterparts. If you believe that your child may qualify as a pupil with

Student Attendance and Absence Issues

Attendance Options. Enclosed with this notice is a list of the District's current statutory attendance options and local attendance options available on both an intradistrict and interdistrict basis, together with a description of each option, a description of the application procedure, the location of application forms, and a description of the appeal procedure available, if any (see page 18).¹⁵

Notice of Alternative Schools. "California state law authorizes all school districts to provide for alternative schools. Section 58500 of the Education Code defines alternative school as a school or separate class group within a school which is operated in a manner designed to:

- (a) Maximize the opportunity for students to develop the positive values of self-reliance, initiative, kindness, spontaneity, resourcefulness, courage, creativity, responsibility, and joy.
- (b) Recognize that the best learning takes place when the student learns because of his desire to learn.
- (c) Maintain a learning situation maximizing student self-motivation and encouraging the student in his own time to follow his own interests. These interests may be conceived by him totally and independently or may result in whole or in part from a presentation by his teachers of choices of learning projects.
- (d) Maximize the opportunity for teachers, parents, and students to cooperatively develop the learning process and its subject matter. This opportunity shall be a continuous, permanent process.
- (e) Maximize the opportunity for the students, teachers, and parents to continuously react to the changing world, including but not limited to, the community in which the school is located.

In the event any parent, pupil, or teacher is interested in further information concerning alternative schools, the county superintendent of schools, the administrative office of this District, and the principal's office in each attendance unit have copies of the law available for your information. This law particularly authorizes interested persons to request the governing board of the District to establish alternative school programs in each district."

Absences Excused for Justifiable Reasons. If you request in writing that your child be excused from school for justifiable personal reasons and if your written request is approved by the principal or designated representative, your child will be excused from school. A "justifiable personal reason" includes, but is not limited to:

- illness;
- quarantine;
- medical appointments;
- an appearance in court or jury duty;

¹⁵ Ed. Code §48980(i).

- attendance at a funeral service (one day for a service conducted in California and three days, if the service is outside California);
- observance of a holiday or ceremony of his/her religion, attendance at religious retreats (up to four hours per semester); or
- an employment conference.
- Time spent with parent who is an active duty member of the uniformed services, called to duty for deployment or on leave from such deployment.

A pupil will also be excused from school when he or she is the custodial parent of a child who is ill or has a medical appointment during school hours.

No student may have his or her grade reduced or lose academic credit for any absences excused under Section 48205 of the Education Code, if missed assignments and tests can reasonably be provided and are satisfactorily completed within a reasonable period of time. A copy of Education Code section 48205 is attached for your reference (see page 21).

Absences for Obtaining Confidential Medical Services without Parental or Guardian Consent. Please take note that school authorities may excuse any pupil from school for the purpose of obtaining confidential medical services without the consent of the pupil's parent or guardian. If your child is a pupil in the 7th through 12th grades he or she will also be notified that school authorities may excuse any pupil from school for the purpose of obtaining confidential medical services without the consent of the pupil's parent or guardian.¹⁶

Absence for Religious Purposes. Your child, with your written consent, may be excused from school to participate in religious exercises or receive moral or religious instruction for four or fewer days per month. However, even with your consent your child will not be so excused unless he or she attends school at least the minimum day for his or her grade.¹⁷

Minimum Days and Pupil-Free Staff Development Days. You will be informed of the District's schedule of minimum days and pupil-free staff development days. A copy of the District school calendar is enclosed (see page 7). School sites normally post their school calendars in their site handbooks. The current practice in the District is for minimum days to be held every Wednesday, to provide for collaboration and/or professional development at the sites. If any more minimum days or pupil-free staff development days are scheduled following circulation of this notice, you will be notified as soon as possible, and in no event later than one month prior to the scheduled minimum day or pupil-free staff development day.¹⁸

Students Leaving School Grounds During Lunch. The Governing Board of the District, pursuant to section 44808.5 of the Education Code, has decided to permit eligible high school students to leave the school grounds during the lunch period. See school site handbooks for the guidelines. Neither the District nor any of its officers or employees will be liable for the conduct or safety of any pupil who leaves school grounds during lunch period.¹⁹

Curricular and Instructional Issues

Availability of Prospectus. The prospectus of school curriculum, which the District has prepared pursuant to Education Code section 49091.14, is available upon request. If you request a copy of the prospectus, the District may charge you up to the amount it costs to make the copy.

¹⁷ Ed. Code § 46014.

¹⁸ Ed. Code § 48980(c).

Sex Education or Family Life Education Courses. The District provides students with a comprehensive sexual health education program. In addition, California state law requires that HIV/AIDS prevention education is taught in middle school and in high school. While the District strongly encourages students to communicate with parents/guardians about issues of human sexuality, the District's family life and sexual health education programs can assist parents/guardians in educating students about these important issues. You have the right to excuse your child from all or part of any comprehensive sexual health education, HIV/AIDS prevention education programs, and research on pupil health behaviors and risks. To do so, you must request in writing that your child not receive comprehensive sexual health education or HIV/AIDS prevention education.²⁰

The District contracts with a community agency which provides consultants to teach the comprehensive sexual health education or HIV/AIDS prevention courses during the school year. The written and audio/visual educational materials to be used for this instruction are available for your inspection.

As a parent, you also have the right to request a copy of Title 2, Division 4, Part 28, Chapter 5.6 of the Education Code which addresses the comprehensive sexual health programs and HIV/AIDS prevention education.

If the District plans to conduct anonymous, voluntary and confidential research and evaluation tests, questionnaires or surveys to measure 7th through 12th grade pupils' health behaviors and risks and if your child is in the 7th through 12th grades, the District will notify you, in writing, of the planned evaluations, questionnaires, or surveys prior to conducting the evaluation, questionnaire, or survey. Prior to the evaluation, questionnaire, or survey, the District will also provide you with an opportunity to review the materials to be used, and allow you to request in writing that your child not participate.²¹

If you request, in writing, that your child not participate in any of the above instruction or evaluation, your child will not participate, may not be subject to any disciplinary action, academic penalty, or other sanction, and must be provided with an alternative educational activity during the time instruction or evaluation is taking place.²²

Child Abuse Prevention Training Program. You have the right to refuse to allow your child to participate in a child abuse primary prevention program.²³

High School Exit Examination. Beginning with the Class of 2007, and for each school year thereafter, each pupil completing the 12th grade will be required to successfully pass the high school exit examination administered pursuant to Chapter 8 (commencing with Section 60850) of Part 33 of the Education Code. The exit examination dates are posted on school site calendars. Criteria for passing the exit examination and consequences for failing are also available at the school sites.

Please be aware that passing the high school exit examination is a condition of graduation.²⁴ For further information about the high school exit examination contact any high school principal or counselor.

Pupil Records

Pupil Records; Right to Access. Parents of currently enrolled or former pupils have an absolute right to access to any and all pupil records related to their children that are maintained by school districts or private schools.²⁶

The following specific information related to your child's records is available from the District on request:

- the types of pupil records and information contained therein which are directly related to students and maintained by the District;
- the position of the official responsible for the maintenance of each type of record;
- the location of the log or record required to be maintained pursuant to Section 49064 of the Education Code;
- the policies of the institution for reviewing and expunging pupil records;
- the procedures for challenging the content of pupil records;
- the cost, if any, which you will be charged for reproducing copies of records;
- the procedures for amendment requests;
- the course prospectus availability; and,
- any other rights and requirements set forth in chapter 6.5 of Title 2, Division 4, Part 27 of the Education Code

Other rights to student records include:

- the right to inspect and review student records and the procedures for doing so;
- the right to the categories of information defined as directory information (Ed Code 49073)
- the right to consent to disclosures of personally identifiable information contained in the student's records except when disclosure without consent is authorized by law.

Additionally, the District uses specific criteria in defining "*school officials and employees*" and in determining "*legitimate educational interest*"—terms that are central to determining who has access to your child's pupil records. "*School officials and employees*" are officials or employees whose duties and responsibilities to the District, whether routine or as a result of special circumstances, require that they have access to student records. "*School officials and employees*" also include contractors, consultants, volunteers, or other parties to whom the District has outsourced District functions and who perform services for which the District would otherwise use employees. "*Legitimate educational interest*" is an interest held by school officials and employees whose duties and responsibilities to the District, whether routine or as a result of special circumstances, require them to have access to student records.

By way of this notice, the District hereby notifies parent/guardian and student that the District discloses personally identifiable information to officials of a school, school system, or postsecondary institution where the student seeks to enroll.^{27B}

You, as a parent or guardian, are also granted certain rights under the Family Educational Rights Privacy Act (FERPA) regarding the public disclosure of your child's student information.²⁷ More specific information on those rights is available upon request. Among those

Disclosure for Medi-CAL billing. KCUSD, in cooperation with the California Departments of Health Services and Education, has a program to allow the District to be reimbursed with federal Medicaid dollars for selected health services (such as hearing and vision screenings, health assessments) provided to eligible students at school. In accordance with Local Education Agency rules and guidelines, we are notifying you that eligible student records may be forwarded to the District's billing agency. These records will be forwarded in a confidential manner. The District vendor holds a contract with the District that contains a specific confidentiality clause to ensure information is not disclosed inappropriately; further, the vendor is HIPAA compliant (Federal Health Insurance Portability & Accountability Act). School health services currently provided to all students will not be changed by this program, and you have the right to withdraw your consent to the disclosure of this information for these purposes at any time. Students will not be denied services they require to attend school, and parents will never be billed for services by the school district.

Disclosure of "Directory Information". Your child's personally identifiable information may be disclosed without your consent if the District has appropriately designated that information as "directory information," unless you have exercised your right to bar the District from releasing this information, as discussed below. The District will provide you with the categories of information which the District has designated as directory information, if you so request.

Federal law requires the District to provide directory information access to military recruiters equal to that which is provided to prospective employers and postsecondary educational institutions. This information is routinely requested and disclosed without your consent, unless you have exercised your right to opt out of public disclosure, as discussed below.

Parents wishing to exercise their right to prevent disclosure of their child's directory information in any form and to any party without written consent must notify the District in writing.

Disclosure to School Officials and Employees of the District. The District may permit access to pupil records, without parental consent, to school officials and employees of the District with legitimate educational interests in the records.²⁸ Disclosure may also be provided to The Student Aid Commission, for the purpose of providing grade point average (GPA) of all District students in grade 12 to the Cal Grant postsecondary financial aid program, except when students opt out or are permitted by rules of the Student Aid commission to provide test scores in lieu of GPA (Ed Code 69432.9). School officials and employees of the District include agents of the District assigned duties and responsibilities of the District, including, but not limited to, attorneys, experts and consultants retained by the District.

The Governing Board recognizes its responsibility to ensure that books, materials, equipment, supplies, and other resources necessary for pupils' participation in the educational program are made available to them. No pupil shall be required to pay any fees, deposits, or other charges for his/her participation in an educational activity which constitutes an integral fundamental part of the District's educational program, including curricular and extracurricular activities. Whenever a pupil or parent/guardian believes that an impermissible fee, deposit, or other charge is being required of the pupil for his/her participation in an educational activity, the pupil or his/her parent/guardian may file a complaint with the principal or designee using the District's procedures in BP/AR 1312.3 - Uniform Complaint Procedures (Ed Code 49011).

A copy of the District's UCP policy is attached for your reference (see page 31).

School Uniforms. The KCUSD school Board of Trustees recognizes that, in order to promote student safety and discourage theft, peer rivalry and/or gang activity, the principal, staff and parents/guardians at a District school may wish to establish a reasonable dress code requiring students to wear uniforms. Such a dress code may be included as part of the school safety plan and must be presented to the Board for approval.

The Board shall approve such dress codes when it determines they are necessary for the health and safety of the school's students.

The Superintendent or designee shall establish procedures whereby parents/guardians may choose to have their children exempted from an adopted school uniform policy. Students shall not be penalized academically, otherwise discriminated against or denied attendance to school if their parents/guardians so decide,

The Superintendent or designee shall ensure that resources are identified to assist economically disadvantaged students in obtaining uniforms.

High School Open/Closed Campus. The Governing Board establishes a closed campus at all schools; however, juniors/seniors who meet eligibility requirements may use lunch passes to leave campus during the lunch hour. This open campus privilege may be revoked for students who do not meet the eligibility standards. Otherwise, students shall not leave the school grounds at any other time during the school day without written permission of their parents/guardians and school authorities. Students who leave school or who fail to return following lunch without authorization shall be classified truant and subject to disciplinary action.

Attendance Options Choosing Your Child's School (Education Code 48980(i))

California law requires all school boards to inform each student's parents/guardians at the beginning of the school year of the various ways in which they may choose schools for their children to attend other than the ones assigned by school districts. Students that attend schools other than those assigned by the districts are referred to as "transfer students" throughout this notification. There are several processes for choosing a school within the District which the parents/guardians live (intradistrict transfer), and separate processes for selecting a school in other districts (interdistrict transfer). A variety of forms for each type of request are available at the District Office. The general requirements and limitations of the intradistrict and interdistrict processes are described below:

Intradistrict Transfers (Education Code 35160.5(b))

The law requires the school board of each district to establish by July 1, 1994, a policy that allows parents/guardians to choose the schools their children will attend, regardless of where the parents/guardians live in the district. The law limits choice within a school as follows:

1. Students who live in the attendance area of a school must be given priority to attend that school over students who do not live in the school's attendance area.
2. In cases in which there are more requests to attend a school than there are openings, the selection process is based on date and time of the application for a given school. A District cannot use a student's academic or athletic performance as a reason to accept or reject a transfer.
3. Each district must decide the number of openings at each school which can be filled by transfer students. Each district also has the authority to keep appropriate racial and ethnic balances among its schools, meaning that a district can deny a transfer request if it would upset this balance or would leave the district out of compliance with a court-ordered or voluntary desegregation program.
4. A district is not required to provide transportation assistance to a student that transfers to another school in the district under these provisions.
5. If a transfer is denied, a parent/guardian does not have an automatic right to appeal the decision. A district may, however, voluntarily decide to put in place a process for parents/guardians to appeal a decision.

KCUSD Selection Procedures

1. The Superintendent or designee shall identify those schools which may have space available for additional students.
2. Applications are available the first Monday in March at the District Office. The (Parent Initiated Request) applications are numbered, providing a means to generate a prioritized list of students requesting a given school site. School site administrators meet in May to consider applications based on anticipated space for the following school year. School site administrators also meet soon after school starts to consider applications based on actual student attendance.
3. Priority for enrollment in a school of request shall be determined based on the following criteria:
 - a. Enrollment space available.
 - b. Number on application
 - c. Consideration for identified Special Education students
 - d. Placement of students on mandated transfer options (eg. Program Improvement transfers, Open Enrollment Romero Bill transfers, AB490 for Foster Children, etc.)
4. The District Office shall inform applicants by mail as to whether their applications have been approved or denied.
5. Applicants who receive approval must confirm their enrollment immediately. Failure to confirm enrollment in 5 school days would result in forfeiture of attendance at the requested school.

Complaints or appeals regarding the selection process may be submitted to the Superintendent.

Interdistrict Transfers AB 19 District of Choice (Education Codes 48209 through 48209.16)

The law allows, but does not require, each school district to become a "District of Choice" - that is, a District that accepts transfer students from outside the District under the terms of the Education Codes sections listed above. KCUSD is not an AB 19 District of Choice.

Other Interdistrict Transfers
(Education Codes 46600 through 46611)

The law allows two or more districts to enter into an agreement for the transfer of one or more students for a period of up to five years. KCUSD does not have any such agreements with any other districts at this time.

Allen Bill Transfers - Parental Employment in Lieu of Residency
(Education Code 48204(f))

The law provides that if one or both parents/guardians of an elementary school student are employed in the boundaries of a school district other than the one in which they live (for 10 or more hours during the school week, effective July 2012), the student may be considered a resident of the school district in which his/her parents or guardians work. This code section does not require that a school district automatically accept a student requesting a transfer on this basis, but a student may not be rejected on the basis of race/ethnicity, sex, parental income, academic achievement or any other "arbitrary" consideration.

KCUSD Interdistrict Transfers

KCUSD will consider interdistrict transfer petitions. Interdistrict transfers will be granted, denied or revoked per California Education Code provisions. Available classroom space will be the primary consideration. Interdistrict Attendance Permit forms are available at the District Office.

High School Attendance Options

The Kings Canyon Unified School District Board of Education affirms its commitment and responsibility to assume and maintain a culture of high school choice/open enrollment District-wide. The District's philosophy of choice/open enrollment is grounded in the belief that parents best know their children and should have options from which to choose to best meet their children's needs.

District residents wanting their children to attend a high school other than their neighborhood school may apply for a choice during the high school choice window. This is held yearly during the month of February and provides a means for parent/guardian-initiated enrollment of a student in any District high school.

Choice Guidelines

Students residing within the Kings Canyon Unified School District shall be assigned to attend their neighborhood high school unless an application for high school choice is completed and all deadlines and requirements of application are met. Students who enroll in a school through high school choice/open enrollment, but who do not reside within the neighborhood attendance area, shall be granted admission for all grades served by the school.

The office of the principal of each school will be responsible for checking student enrollment records to determine that each student is a legal resident of that school's attendance area or has been an approved authorization for open enrollment or transfer. Registration in the requested school will not be permitted until the student has received written verification of successful high school choice completion.

Student Selection Criteria: Completed School Choice application in compliance with all guidelines and timelines.

Procedure

If you are interested in having your student participate in the District's High School Choice enrollment option for the 2016-17 (upcoming) school year, there is a process and timeline

which must be followed. You do not need to take part in open enrollment if you would like your student to attend the school serving your current attendance area or if you would like your student to continue at his/her current high school.

Any parent or legal guardian of a Kings Canyon Unified student who desires to enroll in a high school other than their neighborhood high school shall follow the prescribed procedure.

- 1) Secure the "High School Choice" form from the student's current school.
- 2) Return the completed form to the Principal of the neighborhood high school which the student normally would attend. After meeting with the parent/guardian and collecting the form, the home school Principal will forward the request to the District Office.
- 3) The District Office will verify compliance with the timelines and the school of choice process. The District Office will also notify both high school principals and the parents of the student's enrollment status.
- 4) The student will then be included in the spring semester regular enrollment and registration process of their chosen high school. The student shall hold all rights and responsibilities of any student enrolling in that high school.

Student Selection Criteria: All applicants who complete the high school choice process within the prescribed timelines will be granted their requested placement.

Intra District Transfers Open Enrollment

Any parent or guardian who fails to meet the established timelines to choose a high school other than their neighborhood high school, or decides at a later date to request a high school other than their neighborhood high school, has the option of going through the Intradistrict Transfer Process as outlined on page 18, per California Education Code Section 35160.

All intradistrict transfers within KCUSD are dependent upon space available. Other restrictions may apply. Enrollment projections as well as facility capacity will determine the maximum number of students allowed to enroll at any high school.

Student Selection Criteria: Available space at requested High School. The above summary of the attendance alternatives available to parents/guardians and their children is intended to provide them with an overview of the laws applying to each alternative. Any parent/guardian who is interested in securing more information about these options, District policies or procedures, and timelines for applying for transfers should contact his/her own school district, or the district they may be thinking about transferring into.

Pupil Loss of Credit for Excused Absences Education Code Section 48205

- (a) Notwithstanding section 48200, a pupil shall be excused from school when the absence is:
- (1) Due to his or her illness.
 - (2) Due to quarantine under the direction of a county or city health officer.
 - (3) For the purpose of having medical, dental, optometric, or chiropractic services rendered.
 - (4) For the purpose of attending the funeral services of a member of his or her immediate family, so long as the absence is not more than one day if the service is conducted in California and not more than three days if the service is conducted outside California.
 - (5) For the purpose of jury duty in the manner provided for by law.
 - (6) Due to the illness or medical appointment during school hours of a child of whom the pupil is the custodial parent.
 - (7) For justifiable personal reasons, including, but not limited to, an appearance in court, attendance at a funeral service, observance of a holiday or ceremony of

his or her religion, attendance at religious retreats, or attendance at an employment conference, when the pupil's absence has been requested in writing by the parent or guardian and approved by the principal or a designated representative pursuant to uniform standards established by the governing board.

- (8) For the purpose of serving as a member of a precinct board for an election pursuant to section 12302 of the Elections Code.
 - (9) For the purpose of spending time with a member of the pupil's immediate family, who is an active duty member of the uniformed services, as defined in Section 49701, and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat support position.
- (b) A pupil absent from school under this section shall be allowed to complete all assignments and tests missed during the absence that can be reasonably provided and, upon satisfactory completion within a reasonable period of time, shall be given full credit therefore. The teacher of any class from which a pupil is absent shall determine the tests and assignments shall be reasonably equivalent to, but not necessarily identical to, the tests and assignments that the pupil missed during the absence.
- (c) For purposes of this section, attendance at religious retreats shall not exceed four hours per semester.
- (d) Absences pursuant to this section are deemed to be absences in computing average daily attendance and shall not generate state apportionment payments.
- (e) "Immediate family," as used in this section, has the same meaning as that set forth in section 45194, except that references therein to "employee" shall be deemed to be references to "pupil."

Uniform Complaint Procedure (5 CCR 4622)

Board policy contains Uniform Complaint Procedures which apply to all state and federal categorical programs requiring formal complaint procedures regarding alleged acts of unlawful discrimination, harassment, intimidation or bullying, regarding actual or perceived characteristics such as age, ancestry, color, disability, ethnic group identification, gender expression, gender identity, gender, nationality, national origin, race or ethnicity, religion, sex, or sexual orientation, marital or parental status, or genetic information or on the basis of a person's association with a person or group with one or more of these actual or perceived characteristics.

Community Relations (Board Policy 1312.3 and 3260)

The Governing Board recognizes that KCUSD has the primary responsibility to insure compliance with applicable state and federal laws and regulations and has established procedures to address allegations of unlawful discrimination, harassment, intimidation, and bullying, and complaints alleging violation of state or federal laws governing educational programs and the charging of unlawful pupil fees. The District shall investigate and seek to resolve complaints using policies and procedures known as the Uniform Complaint Procedures (UCP) adopted by this local board. Unlawful discrimination, harassment, intimidation, or bullying complaints may be based on actual or perceived age, ancestry, color, ethnic group identification, gender expression, gender identity, gender, mental or physical disability, nationality, national origin, race or ethnicity, religion, sex, or sexual orientation, marital or parental status, or genetic information or on the basis of a person's association with a person or group with one or more of these actual or perceived characteristics in any program or activity that receives or benefits from state financial assistance. Uniform complaint procedures shall also be used when addressing complaints alleging failure to comply with state and/or federal law in

- Adult Education
- Consolidated Categorical Aid Programs
- Migrant Education
- Career Technical and Technical Education and Training Programs
- Child Care and Development Programs
- Child Nutrition Programs
- Special Education Programs
- School Safety Planning Requirements.

A complaint regarding pupil fees may be filed anonymously if the complaint provides evidence or information leading to evidence to support an allegation of noncompliance with laws relating to pupil fees.

If a public school finds merit in a pupil fees complaint the public school shall provide a remedy to all affected pupils, and parents/guardians that where applicable includes reasonable efforts by the public school to ensure full reimbursement to all affected pupils, parents/guardians, subject to procedures established through regulations adopted by the state board (Education Code 49013(d)).

A pupil fee includes, but is not limited to, all of the following:

- A security deposit, or other payment that a pupil is required to make to obtain a lock, locker, book, class apparatus, musical instrument, clothes, or other materials or equipment.
- A purchase that a pupil is required to make to obtain materials, supplies, equipment, or clothes associated with an educational activity.

The Board encourages the early, informal resolution of complaints at the site level whenever possible. Upon receipt of a written complaint from an individual, public agency or organization, uniform complaint procedures shall be initiated. The Superintendent or designee shall distribute full information about these procedures. The Board recognizes that a neutral mediator can often suggest an early compromise that is agreeable to all parties in a dispute. In accordance with uniform complaint procedures, whenever all parties to a complaint agree to try resolving their problem through mediation, the Superintendent or designee shall initiate a mediation process before beginning a formal compliance investigation. The Superintendent or designee shall ensure that mediation results are consistent with state and federal laws and regulations.

The Board acknowledges and respects every individual's right to privacy. Discrimination complaints shall be investigated in a manner that protects the confidentiality of the parties involved and the integrity of the process shall be protected. As appropriate, the Superintendent or designee will keep the identity of a complainant alleging discrimination, harassment, intimidation, or bullying confidential to the extent that the investigation of the complaint is not obstructed.

The Board prohibits retaliation in any form for the filing of a complaint, the reporting of instances of discrimination or participation in complaint procedures. Such participation shall not in any way affect the status, grades or work assignments of the complainant.

(Please call District Office, 305-7015 ext. 7004, if you desire legal references.)

Community Relations (Administrative Regulation 1312.3)

Compliance Officers - The Governing Board designates compliance officers to receive and investigate complaints and ensure District compliance with law. Complaints other than those relating to pupil fees must be filed in writing with the following compliance officer: John Campbell, Deputy Superintendent for Personnel, 675 W. Manning Ave., Reedley, California, (559) 305-7010 ext. 7004. The Superintendent or designee shall ensure that employees designated to investigate complaints are knowledgeable about the laws and programs for which they are responsible. Such employees may have access to legal counsel as determined by the Superintendent or designee.

Notifications – The District is primarily responsible for compliance with state and federal laws and regulations. The Superintendent or designee shall meet the notification requirements of the Code of Regulations, Title 5, Section 4622, including the annual dissemination of District complaint procedures and information about available appeals, civil law remedies and conditions under which a complaint may be taken directly to the California Department of Education. Annual written notification of local complaint procedures shall be made to all students, employees, parents or guardians, District/school advisory committees, appropriate private school officials or representatives, and other interested parties. The Superintendent or designee shall ensure that complainants understand that they may pursue other remedies, including actions before civil courts or other public agencies. The above notification shall state that complainants may seek help from agencies such as legal assistance agencies, local mediation centers or the county office of education, or may utilize any civil law remedies that may be available under state or federal discrimination, harassment, intimidation, or bullying laws, if applicable, and of the appeal pursuant to Education Code Section 262.3 which includes

the complainant's right to take a complaint directly to the California Department of Education (CDE) or to pursue remedies before civil courts or other public agencies. Local resources include: Fresno County Office of Education, 1111 Van Ness Avenue, Fresno, CA 93721-2000; Dispute Resolution Center, 2519 W. Shaw, Suite 106, Fresno, CA 93711.

Procedures - The following procedures shall be used to address all complaints which allege that the District has violated federal or state laws or regulations governing educational programs or has committed unlawful discrimination, harassment, intimidation, or bullying. All complaints shall be investigated and resolved within 60 days of the receipt of the complaint. Compliance officers shall maintain a record of each complaint and subsequent related actions, including all information required for compliance with the Code of Regulations, Title 5, Section 4632. All parties involved in allegations shall be notified when a complaint is filed, when a complaint meeting or hearing is scheduled and when a decision or ruling is made.

Step 1: Filing of Complaint

Any individual, public agency or organization may file a written complaint of alleged noncompliance by the District. Complaints alleging discrimination, harassment, intimidation, or bullying may be filed by a person who alleges that he/she personally suffered unlawful discrimination, harassment, intimidation, or bullying or by a person who believes that an individual or any specific class of individuals has been subjected to unlawful discrimination. The complaint must be initiated no later than six months from the date when the alleged discrimination, harassment, intimidation, or bullying occurred or when the complainant first obtained knowledge of the facts of the alleged discrimination, harassment, intimidation, or bullying, unless the filing is extended by the Superintendent of his/her designee for up to 90 days. The complaint shall be presented to the compliance officer who shall maintain a log of complaints received, providing each with a code number and a date stamp. If a complainant is unable to put a complaint in writing due to conditions such as illiteracy or other disabilities, District staff shall help him/her to file the complaint. Copies of the LEA complaint procedures shall be available free of charge.

Step 2: Mediation

Within three days of receiving the complaint, the compliance officer may informally discuss with all parties the possibility of using mediation. If the parties agree to mediation, the compliance officer shall make all arrangements for this process. Before initiating the mediation of a discrimination, harassment, intimidation, or bullying complaint, the compliance officer shall ensure that all parties agree to make the mediator a party to related confidential information. If the mediation process does not resolve the problem within the parameters of law, the compliance officer shall proceed with his/her investigation of the complaint. The use of mediation shall not extend the District's timelines for investigating and resolving the complaint unless the complainant agrees in writing to such an extension of time.

Step 3: Investigation of Complaint

The compliance officer shall provide the complainant and/or his/her representative an opportunity to present the complaint and any evidence, or information leading to evidence, to support the allegations in the complaint within ten days of receiving the complaint or an unsuccessful attempt to mediate the complaint. The compliance officer also shall collect all documents and interview all witnesses with information pertinent to the complaint.

A complainant's refusal to provide the District's investigator with documents or other evidence related to the allegations in the complaint, failure or refusal to cooperate in the investigation, or engagement in any other obstruction of the investigation may result in the dismissal of the complaint because of a lack of evidence to support the allegation. (5 CCR 4631) Similarly, the refusal by the District to provide an investigator with access to records and/or other information related to the allegation in the complaint, or to otherwise fail or refuse to cooperate in the investigation or engage in any other obstruction of the investigation, may result in a finding based on evidence collected that a violation has occurred and may result in the imposition of a remedy in favor of the complainant. In accordance with law, the District shall provide the

investigator with access to records and/or other information related to the allegation in the complaint. (5 CCR 4631)

Step 4: Response

Within 30 days of receiving the complaint, the compliance officer shall prepare and send to the complainant a written report of the District's investigation and decision as described in Step #5 below. If the complainant is dissatisfied with the compliance officer's decision, he/she may, within five days, file his/her complaint in writing with the Board. This sixty day time period may be extended by written agreement of the complainant. The LEA person responsible for investigation the complaint shall conduct and complete the investigation in accordance with sections 4680-4687 and in accordance with local procedures adopted under section 4621. The Board may consider the matter at its next regular Board meeting or at a special Board meeting convened in order to meet the 60-day time limit within which the complaint must be answered. The Board may decide not to hear the complaint, in which case the compliance officer's decision is final. If the Board hears the complaint, the compliance officer shall send the Board's decision to the complainant within 60 days of the District's initially receiving the complaint or within the time period that has been specified in a written agreement with the complainant.

Step 5: Final Written Decision

The report of the District's decision shall be written in English and in the language of the complainant whenever feasible or required by law. If it is not feasible to write this report in the complainant's primary language, the District shall arrange a meeting at which a community member will interpret it for the complainant. This report shall include:

1. The findings of fact and disposition of the complaint, including corrective actions, if any
2. The conclusion(s) of law
3. The rationale for the above disposition
4. Notice of the complainant's right to appeal the District's decision within 15 days to the California Department of Education, and procedures to be followed for initiating such an appeal.

In addition, any decision concerning a discrimination complaint based on state law shall include a notice that the complainant must wait until 60 days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies. (Education Code 262.3)

If a student or an employee or is disciplined as a result of the complaint, this report shall simply state that effective action was taken and that the student or employee was informed of District expectations. The report shall not give any further information as to the nature of the disciplinary action.

Appeals to the California Department of Education

If dissatisfied with the District's decision, the complainant may appeal in writing to the California Department of Education within 15 days of receiving the District's decision. For good cause, the Superintendent of Public Instruction may grant an extension for filing appeals. When appealing to the California Department of Education, the complainant must specify the basis for the appeal of the District's decision and whether the facts are incorrect and/or the law has been misapplied. The appeal shall be accompanied by a copy of the locally filed complaint and the District's decision.

Upon notification by the CDE that the complainant has appealed the District's decision, the Superintendent or designee shall forward the following documents to the CDE: (5CCR 4633) a copy of the original complaint; a copy of the decision; a summary of the nature and extent of the investigation conducted by the District, if not covered by the decision; a copy of the investigation file including, but not limited to, all notes, interviews, and documents submitted by the parties and gathered by the investigator; a report of any action taken to resolve the complaint; a copy of the District's uniform complaint procedures; other relevant information requested by the CDE. The CDE may directly intervene in a complaint without waiting for action by the District when one of the conditions listed in 5 CCR 4650 exists, including cases in

which the District has not taken action within 60 days of the date the complaint was filed with the District.

Civil law remedies may be available under state or federal discrimination, harassment, intimidation, or bullying laws, if applicable. In appropriate cases, an appeal may be filed pursuant to Education Code Section 262.3. A complainant may pursue available civil law remedies outside of the LEA's complaint procedures. Complainants may seek assistance from mediation centers or public/private interest attorneys. Civil law remedies that may be imposed by a court include, but are not limited to, injunctions and restraining orders.

For discrimination complaints based on state law, a complainant shall wait until 60 days have elapsed from the filing of an appeal with the CDE before pursuing civil law remedies, provided the District has appropriately and in a timely manner apprised the complainant of his/her right to file a complaint in accordance with 5 CCR 4622. The moratorium does not apply to injunctive relief and to discrimination complaints based on federal law.

A copy of the KCUSD's UCP policy and complaint procedures shall be available free of charge.

The coordinator shall respond to the complainant in writing within 10 working days. The coordinator shall conduct any investigation necessary to respond to the complaint, including discussion with the complainant, person(s) involved, appropriate staff members and students, and review of the Level I report and all other relevant documents. If a response from third parties is necessary, the coordinator may designate up to ten additional working days for investigation of the complaint.

Protection of Pupil Rights Amendment

The Protection of Pupil Rights Amendment (PPRA) gives parents and students who are 18 or older or emancipated minors ("eligible students") certain rights regarding the school district's conduct of surveys, collection and use of information for marketing purposes, and conduct of certain physical exams. These include the right to:

1. *Consent to federally funded surveys concerning "protected information."* If the U.S. Department of Education funds a survey in whole or in part, a student's parents or an eligible student must consent in writing before the student may provide information relating to the following categories:
 - Political affiliations;
 - Mental or psychological problems of the student or student's family;
 - Sexual behavior or attitudes;
 - Illegal, anti-social, self-incriminating, or demeaning behavior;
 - Critical appraisals of student's family members;
 - Privileged or similar relationships recognized by law, such as with attorneys, doctors, and ministers;
 - Religious practices, affiliations, or beliefs of the student or student's parents; or
 - Income other than that required by law to determine program eligibility.

A survey that concerns any of these points is called a "protected information survey."

2. *Opt out of certain surveys and exams.* Parents and eligible students will receive notice of any of the following activities and will have the right to opt out of them:
 - Activities involving collection, disclosure, or use of personal information obtained from students for purposes of marketing or selling or otherwise distributing the information to others;
 - Any protected information survey, regardless of funding; and
 - Any nonemergency, invasive physical exam or screening required as a condition of attendance, administered by the school or its agent and scheduled by the school, and not necessary to protect the immediate health and safety of a student or of another student, except for hearing, vision, or scoliosis screenings, or any physical exam or screening permitted or required under state law.

3. *Inspect certain material.* Parents and eligible students have the right to inspect the following, upon request, before the District administers or uses them:
 - Protected information surveys of students (including any instructional materials used in connection with the survey);
 - Documents used to collect personal information from students for any of the above marketing, sales, or other distribution purposes; and
 - Instructional material used as part of the education curriculum.
4. *Receive notification of District policy.* The School District has developed a policy, in consultation with parents, regarding these rights, and has made arrangements to protect student privacy in the administration of protected information surveys and the collection, disclosure, or use of personal information for marketing, sales, or other distribution purposes. The School District will directly notify parents and eligible students, such as through the U.S. Mail or e-mail, of this policy at least annually at the start of each school year and after any substantive changes are made.
5. *Report violations.* Parents and eligible students who believe their rights have been violated may file a complaint with:

No Child Left Behind

The federal No Child Left Behind Act ("Act") contains the following provisions.

I. Teacher Qualifications

Under Section 111(h)(6) of the Act, local education agencies that receive Title 1 funds must inform parents of their rights to request information on the qualifications of their child's teacher, including at a minimum:

- Whether the teacher has met state credentialing or license criteria for grade level and subject matter taught
- Whether the teacher is teaching under emergency or other provisional status
- The baccalaureate degree major of the teacher and any other graduate certification or degree held
- Whether the child is provided services by paraprofessionals, and, if so, their qualifications

The Act also requires that the school district notify parents when their child has been taught for four or more consecutive weeks by a teacher who is not "highly qualified." A definition of "highly qualified" has been approved by the State Board of Education and has been proposed to the U.S. Department of Education. Although not final, the definition lists the following:

- Possession of a Baccalaureate Degree
- Passage of California's state test of reading, writing, and mathematics, unless otherwise specified in the Education Code (currently the CBEST)
- Orientation to the subject(s) and grade levels taught
- Demonstrated competence of the subject or subjects taught, as measured by:
 - a) Successful passage of the state-approved subject matter examination(s) aligned with the State Board of Education-approved student content standards, or
 - b) Successful completion of 18 units of university course work (or the equivalent) in the subject(s) taught that have met state standards adopted by the

- Commission on Teacher Credentialing and that are aligned with the State Board of Education-approved student content standards, or
- c) Teachers serving on teaching assignment options specific in the Education Code (such as vocational education teachers teaching business math).

II. Parents' Right to Inspect Instructional Materials

All instructional materials, including teacher's manuals, films, tapes or other supplementary material which will be used in connection with any survey, analysis or evaluation shall be available for inspection by parents or guardians.

(20 U.S.C. & 1232h(a).)

III. Parents' Right to Object to Certain Tests, Exams, Questionnaires, or Surveys

California Education Code section 51513 already requires school districts, in their annual notices, to inform parents that before the school district can administer a test, questionnaire, survey or examination to the child containing questions about the student's or the parents' personal beliefs, beliefs or practices in sex or attitudes regarding sex, family life, morality or religion, school district must first obtain written parental permission. The Act expands on this duty by requiring school districts to notify in writing whenever the following types of information are sought by way of a test, questionnaire, survey or exam about a parent or student:

- political affiliations or beliefs
- illegal, anti-social, self-incriminating or demeaning behavior
- mental or psychological problems
- the identity of the parent or student's lawyer, physician, or minister (or other relationships that are legally recognized as being privileged)
- critical appraisals of individuals with whom the student or parent has close family relationships
- income (except as required by law to determine eligibility for participation in a program or for receiving financial assistance under such program)

Parents have the right to request such test, questionnaire, survey or examination not be administered to their child. (20 U.S.C. & 132h(b).) It is worth noting that once school districts have notified parents that these categories of information are being sought, parents then have the affirmative duty to notify the school district that they do not wish this information release.

IV. Development and Adoption of Board Policies

The Act requires school districts to develop and adopt policies in consultation with parents regarding the following:

- a. parents' right to inspect surveys created by a third party before the survey is administered by a school;
- b. procedures for granting a parent's request for reasonable access to the survey within a reasonable time;
- c. arrangements to protect student privacy when a survey is distributed that requests information about a student or parent's political affiliations or beliefs, illegal, anti-social, self-incriminating or demeaning behavior, mental or psychological problems, lawyer, physician, minister, or other relationships that are legally recognized as being privileged, critical appraisals of individuals with whom the student or parent has close family relationships, and income;
- d. parents' right to request access to the survey or instructional materials within a reasonable time;
- e. parents' right to inspect any instructional materials used as part of the educational curriculum for their student

- f. procedures for granting a request by a parent for reasonable access to instructional materials within a reasonable period of time;
- g. administration of student physical exams or screenings;
- h. steps taken by the District to ensure student privacy in the event of the collection, disclosure, or use of student personal information for marketing or sale and the right of the parent to inspect any instruments used in the collection of personal information;
- i. right of a parent to inspect any instrument used in the collection of student personal information before the instrument is administered or distributed to a student; and
- j. procedures for granting a parent's request for reasonable access to such instrument within a reasonable period of time. (20 U.S.C. & 1232(c))

V. Access to Student Records By Military Recruiters and Institutes of Higher Learning

Under the Act, secondary schools must notify parents that military recruiters and institutes of higher learning are authorized to access student directory information unless parents request in writing that their student's name, address, and telephone number not be released without prior written consent. (20 U.S.C. & 7908) Parents must inform the school district in writing, within a reasonable number of days after receiving the notice, that they do not wish to have their student's information released to military recruiters or institutes of higher learning.

Sex Offenders
Information on Sex Offenders Living in KCUSD
(AB 488, Penal Code 290.46, Board Policy 3515.5)

Californians seeking names, photos and addresses of sex offenders living in their neighborhoods can now access that information. The state's long awaited Megan's Law Web site went up on the internet in December of 2004. The site, <http://meganslaw.ca.gov>, provides information on more than 63,000 persons required to register in California as sex offenders. Specific home addresses are displayed on more than 33,500 offenders in the California communities. The site displays the last registered address reported by the offender. An additional 30,500 offenders are included on the site with listing by ZIP Code, city, and county. This internet web site also has many valuable links providing information on How to Protect Yourself and Your Family, Facts about Sex Offenders, Frequently Asked Questions, and Sex Offender Registration Requirements in California. Copies of these links are available at all KCUSD school sites.

Safety is the top priority at any school site. This database provides important information in the ongoing effort to keep our children and students safe. Parents/guardians are strongly encouraged to access this web site and review with their children the information provided on the links referred to above.

Transportation
Bus Safety Regulations

Riding a school bus in Kings Canyon Unified School District is a privilege, not a right. This bus service is provided for home-to-school service only and shall not be used for other purposes. Students who ride the bus shall be dropped off only at their authorized stop. Parent or guardian written permission must be given to the school to designate emergency alternate stops for students.

The bus driver is a school official and by law, has the responsibility to ensure passenger safety while on the bus and at the bus stops. He/she may remove any student from the bus who continues to misbehave. In addition, parents/guardians and staff are hereby notified that surveillance may occur on any school bus and that the contents of a recording may be a student record and, as such, may be used in student disciplinary proceedings or referred to local law enforcement, as appropriate.

BUS RIDING IS A PRIVILEGE, NOT A RIGHT

It is important that all students exercise proper conduct on the bus. All students who ride the bus must be familiar with the bus rules. Child(ren) may receive a citation from the bus driver for misbehaving on the bus or at the bus stops. Misconduct on the part of the students may result in a denial of transportation. Please review the following requirements for a successful bus ride for child(ren).

1. Make sure students are at the bus stop ahead of time by at least 5 minutes.
2. Accompany young children to the bus stop and meet them on their return. Kindergarteners will not be dropped off at any bus stop unless an adult is there to meet them.
3. Children who walk to the bus stop are to use the shoulder of the road or sidewalks.
4. Do not allow your child(ren) to play/damage other people's property.
5. Children are to wait in a safe place well off the road, in a single file until the bus stops and the driver opens the door.
6. Enter the bus in an orderly manner, find a seat quickly, and remain seated while the bus is in motion.
7. Students should be reminded to check in at home after leaving the bus.

School Bus Stop Instructions - When Children Must Be Escorted Across the Street -

It is very important that your child understands that it is dangerous for him/her to cross the street. It is especially dangerous at school bus stops. We expect the motoring public to observe a big yellow school bus and use extreme caution but unfortunately this is often not the case.

It is law in California that all school age pupils of eighth grade level or below be escorted across the street by the bus driver when they need to cross a roadway. It is District policy that high school students are also escorted across the roadway. The school bus driver will activate the Red Flashing Lights on the school bus for ALL students loading and unloading at stops. All too often motorists will never even slow down for the stopped school bus with the red lights flashing, much less stop for it. Our school bus drivers need your child's/children's assistance and cooperation to ensure their safety when crossing the street. The following procedure should be followed every time your child is escorted across the street at their stop.

1. Your child must remain seated until the bus stops at their designated stop. The driver will ask if your child needs to cross the street. Please instruct your student to respond to the bus driver's question.
2. The driver will check the traffic for safety. When the traffic has cleared, the driver will activate the red warning lights and then the driver will have the children follow them off of the bus. (They should always follow the driver getting off.)
3. After the children exit the bus, it is very important that they stand beside the entrance door of the bus on the curb, sidewalk or edge of the roadway. The children need to wait here until the driver tells them it is safe to cross the street. (Never assume that the traffic will stop.)
4. Once the driver determines that it is safe for the child to safely cross the street, he/she must walk quickly and carefully in front of the bus, between the bus and the driver, to the other side of the street. When the student has safely crossed the street, the driver will return to the bus. Students should not attempt to return to the bus after the driver leaves the roadway, but should go directly home.

Rules for Passengers

- The Following Rules Are To Be Observed At All Times While Riding The Bus -

1. Passengers are to obey the driver at all times.
2. Passengers must sit facing forward and not leave their seats while the bus is in motion.
3. Passengers shall use a quiet voice on the bus. No loud, obscene or profane language will be allowed.
4. Animals, insects, glass, and large parcels are prohibited on the bus.
5. Passengers must not bother the driver or other passengers on the bus or at the bus stop.
6. Passengers shall not leave trash on the bus.
7. It is against the law for passengers to throw any object in or out of the windows.
8. A passenger may be denied transportation for continued misbehavior.
9. Passengers may be held financially responsible for destruction of property.

School Climate & School Safety

PBIS

Positive Behavioral Interventions and Supports

KCUSD is underway with implementation of PBIS throughout the District. Schools participated in a 3 year training program, starting in the years shown here:

Cohort 1	Cohort 2	Cohort 3	Cohort 4	Cohort 5
2010-2011	2011-2012	2012-2013	2013-2014	2014-2015
Citrus	Dunlap	KCHS	ALConner	Grant
Reedley High	McCord	Lincoln	Alta	Jefferson
Silas Bartsch	TLReed	Navelencia	Great Western	Sheridan
		Riverview

It is the mission of the District PBIS Team at KCUSD to facilitate the effective implementation and teaching of school-wide positive interventions and support for behavior. It is our vision to create and to maintain effective learning environments by establishing behavioral supports and a social culture needed for all students to achieve social, emotional, and academic success. In May 2015, Fresno County Office of Education (FCOE) designated 18 District schools "Model PBIS Schools." 4 bronze level, 5 silver level, and 9 gold level.

The Kings Canyon Unified School District believes that all students have a right to a safe and healthy school environment. The District, schools, and community have an obligation to promote mutual respect, tolerance, and acceptance. Behaviors of harassment or bullying that infringe on the safety of any student will not be tolerated. A pupil shall not intimidate or harass another student through words or actions. Such behavior includes direct physical contact, verbal assaults, and social isolation or manipulation. Any student who engages in bullying may be subject to disciplinary action up to and including expulsion. Anyone witnessing or experiencing bullying, harassment, or any act that decreases school safety or detracts from a positive school climate, is encouraged to report such incidents.

Rules Regarding Student Discipline (Education Code 35291)

The governing board of each school district maintaining grades one through twelve shall notify the parents or guardians of the availability of rules regarding student discipline.

The Kings Canyon Unified School District utilizes all avenues provided in law for the discipline of students. These include, but are not limited to, advising and counseling students, conferences with parents or guardians, detention, alternative educational environments, and, if necessary, suspension and expulsion. The governing board recognizes that maintaining an

educational environment which promotes learning and protects the health, safety and welfare of all students may require the suspension or expulsion of a student from regular classroom instruction for a period of time deemed necessary to correct the behavior of that student.

Discipline Issues Originating Off Campus

Administrators may take appropriate action when information becomes available about student misconduct that originates away from school grounds or school activities that has a direct and detrimental effect on or seriously threatens the discipline, educational environment, safety or general welfare of students, faculty, staff and/or administrators of the District. When assessing the impact of conduct or behavior originating away from school grounds on a District school, staff, students, and/or the educational environment, District administrators will take into consideration the seriousness of the alleged student conduct and the protection of students, faculty, staff and administrators from the effects of violence, drugs, disruption of the educational environment, or other relevant factors. District administrators evaluate each situation relating to conduct originating away from school grounds on a case-by-case basis. Student conduct originating away from school grounds, which may be subject to discipline as provided herein includes but is not limited to electronic acts that result in a substantial disruption to the educational environment, or for which a substantial disruption to the educational environment is reasonably foreseeable under the circumstances (Education Code section 48900(s)). District administration may gather and maintain information that pertains to school or student safety, from the social media of any District student (Education Code section 49073.6).

Notwithstanding any other provision of law, a parent's or guardian's written request to school officials to excuse his or her child from any or all parts of the assessments administered pursuant to this chapter shall be granted.
(Education Code Section 60615)

A parent or guardian may submit to the school a written request to excuse his or her child from any or all parts of any test provided pursuant to Education Code section 60640. Oral Health Assessments (Assembly Bill 1443)

Beginning January 1, 2007, landmark legislation requiring oral health assessments for children entering public school for the first time (at kindergarten or first grade) becomes effective. The ultimate goal of this program is to establish a regular source of dental care for every child.

Schools must notify parents or guardians about this new requirement when they register their children for school.

Children entering public school for the first time, in kindergarten or first grade, are to have a dental check-up by May 31st of the first school year. The evaluation must be completed by a licensed dental professional. Oral health evaluations that occurred within the 12 months prior to school entry also meet this requirement. This assessment, or evaluation can be met in many ways. It can be a complete examination and treatment plan performed by a dentist, or it can be a more basic oral health evaluation, such as a dental screening, which can be performed by dentists, as well as dental hygienists and registered dental assistants with supervision.

Parents may obtain a waiver of this requirement if they cannot find a dental office that takes their child's insurance, cannot afford to pay for it, or the parent chooses not have their child's oral health evaluated.

All required forms are available at your neighborhood school site.

To the extent possible to support children’s health and school nutrition-education efforts, school fundraising activities will involve food that meets the above current legislation. Schools will encourage fundraising activities that promote physical activity. The school district will make available a list of ideas for acceptable fundraising activities.

If schools choose to sell food and beverage items during the school day as a fundraising project, the following California regulations shall be followed (California Code of Regulations Title 5, Sections 15500 and 15501):

Snacks

Snacks served during the school day or in after-school care or enrichment programs will make a positive contribution to children's diets and health, with an emphasis on serving fruits and vegetables as the primary snacks and beverages that are within the nutritional standards, as stated above. Schools will assess if and when to offer snacks based on timing of school meals, children's nutritional needs, children's ages, and other considerations. The District will disseminate a list of healthful snack items to teachers, after-school program personnel, and parents.

If eligible, schools that provide snacks through after-school programs will pursue receiving reimbursements through the National School Lunch Program.

Schools, to the extent possible, will not use foods or beverages, especially those that do not meet the nutrition standards for foods and beverages sold individually (above), as rewards for academic performance or good behavior,⁹ and shall not withhold food or beverages (including food served through school meals) as a punishment. Food Services will provide a list of alternative rewards.

Celebrations & Events

Schools should limit celebrations that involve food during the school day to no more than one party per class per month. Each party should include no more than one food or beverage that does not meet nutrition standards for foods and beverages sold individually (above). The District will disseminate a list of healthy party ideas to parents and teachers.

Nutrition and Physical Activity Promotion and Food Marketing

Kings Canyon Unified School District aims to teach, encourage, and support healthy eating by students. Schools should provide nutrition education and engage in nutrition promotion that:

- is offered at each grade level as part of a sequential, comprehensive, standards-based program designed to provide students with the knowledge and skills necessary to promote and protect their health;
- is part of not only health education classes, but also encouraged to occur in classroom instruction subjects such as math, science, language arts, social sciences, and elective subjects;
- includes enjoyable, developmentally-appropriate, culturally-relevant, participatory activities, such as contests, promotions, taste testing, farm visits, and school gardens;
- promotes fruits, vegetables, whole grain products, low-fat and fat-free dairy products, healthy food preparation methods, and health-enhancing nutrition practices;
- emphasizes caloric balance between food intake and energy expenditure (physical activity/exercise);
- links with school meal programs, other school foods, and nutrition-related community services;
- teaches media literacy with an emphasis on food marketing; and
- includes training for teachers and other staff; including Common Core standards.

Integrating Physical Activity into the Classroom Setting

For students to fully embrace regular physical activity as a personal behavior, students need opportunities for physical activity beyond physical education class. Toward that end:

- classroom health education will complement physical education by reinforcing the knowledge and self-management skills needed to maintain a physically-active lifestyle and to reduce time spent on sedentary activities, such as watching television;
- opportunities for physical activity will be encouraged to be incorporated into other subject lessons;
- classroom teachers are encouraged to provide short physical activity breaks between lessons or classes, as appropriate.
(cf. 6010 – Goals and Objectives); (cf. 6011 – Academic Standards); (cf. 6143 – Courses of Study)

Communications with Parents

- The District/school will support parents' efforts to provide a healthy diet and daily physical activity for their children. In partnership with community health agencies, the District/school will offer healthy eating seminars for parents, send home nutrition information, post nutrition tips on school websites, and provide nutrient analyses of school menus. Schools should encourage parents to pack healthy lunches and snacks.
- The District/school will provide parents SMART SNACK that meet the District's snack standards and ideas for healthy celebrations/parties, rewards, and fundraising activities. In addition, the District/school will provide opportunities for parents to share their healthy food practices with others in the school community.
- The District/school will provide information about physical education and other school-based physical activity opportunities before, during, and after the school day; and support parents' efforts to provide their children with opportunities to be physically active outside of school. Such supports will include sharing information about physical activity and physical education through a website, newsletter, or other take-home materials, special events, or physical education homework.
- The District will supply the nutrition requirements based on *State Education Code 49430-49431.7; 5 CCR Section 15500-15501; 5CCR Section 15575-15578; 7 CFR Sections 210.11-210.12, Appendix B* (or current law) to all parents at the start of the school year.

Food Marketing in Schools

School-based marketing will be consistent health promotion. Schools will limit food and beverage marketing to the promotion of foods and beverages that meet the nutrition standards for meals or for foods and beverages sold individually (legislation summary above).¹⁰ School-based marketing of brands promoting predominantly low-nutrition foods and beverages¹¹ is prohibited. The promotion of healthy foods, including fruits, vegetables, whole grains, and low-fat dairy products is encouraged.

Examples of marketing techniques include the following: logos and brand names on/in vending machines, books, curricula, or textbook covers, school supplies, scoreboards, school structures, and sports equipment, educational incentive programs that provide fruits and/or vegetables as a reward; programs that provide schools with supplies when families buy low-nutrition food products; in-school television free samples or coupons; and food sales through fundraising activities. Marketing activities that promote healthful behaviors (and are therefore allowable) include: vending machine covers promoting water; pricing structures that promote healthy options in a la carte lines or vending machines; and sales of fruit for fundraisers.

Physical Activity Opportunities and Physical Education

Daily Physical Education (P.E.) K-12

All students in grades K-12, including students with disabilities, special health-care needs, and in alternative educational settings, will receive daily physical education (or its equivalent of 200 minutes/10 days for elementary school students and 400 minutes/10 days for middle and high school students) for the entire school year. Students will spend at least 50 percent of physical education class time participating in moderate to vigorous physical activity. *(EC 51210, 51222 and 51223)*

- Grades 1-6 and schools with grades 1-8 will receive physical activity, at minimum, 200 minutes each 10 schooldays, instructed by teachers or staff. (EC 51210, 51223)
- Grades 7-12 will receive, physical activity, at minimum, 400 minutes each 10 schooldays, instructed by qualified physical education teachers. (EC 51222)
- A monitoring system will be implemented to insure mandated physical education time. All school site Principal's or designee will ensure every student receives age-appropriate and health based physical activity standards.
- Teachers will have opportunities for staff development in an approved age/grade appropriate physical activity training program. (cf. 4119.21/4219.21/4319.21)

Daily Recess

All elementary school students will have at least 20 minutes a day of supervised recess, preferably outdoors, during which schools should encourage moderate to vigorous physical activity verbally and through the provision of space and equipment. (NOTE: This period cannot count as physical education). Schools should discourage extended periods (*i.e.*, periods of two or more hours) of inactivity. When activities, such as mandatory school-wide testing, make it necessary for students to remain indoors for long periods of time, schools should give students periodic breaks during which they are encouraged to stand and be moderately active.

Physical Activity Opportunities Before and After School

All elementary, middle, and high schools will offer extracurricular physical activity programs, such as physical activity clubs or intramural programs. All high schools, and middle schools as appropriate, will offer interscholastic sports programs. Schools will offer a range of activities that meet the needs, interests, and abilities of all students, including boys, girls, students with disabilities, and students with special health-care needs.

After-school child care and enrichment programs will provide and encourage – verbally and through the provision of space, equipment, and activities – daily periods of moderate to vigorous physical activity for all participants.

Physical Activity and Punishment

Physical activity may be used as an optional intervention to help a student to continue in the regular school program. (cf. 5121- Grades/Evaluation of Student Achievement); (cf. 6142.8 – Comprehensive Health Education); (cf. 6145.2 – Athletic Competition); (cf. 6146.1 – High School Graduation Requirements); (cf. 6190 – Evaluation of the Instructional Program)

Safe Routes to School

The school district will assess and, if necessary and to the extent possible, make needed improvements to make it safer and easier for students to walk and bike to school. When appropriate, the District will work together with local public works, public safety, and/or police departments in those efforts. The school district will explore the availability of federal "safe routes to school" funds, administered by the state department of transportation, to finance such improvements.

Use of School Facilities Outside of School Hours

School sites are encouraged to partner with the community to encourage use of spaces and facilities. Sites should be available to students, staff, and community members before, during, and after the school day, on weekends, and during school vacations. These spaces and facilities should be available to community agencies and organizations offering physical activity and nutrition programs. School policies concerning safety will apply at all times.

Staff Wellness

Kings Canyon Unified School District highly values the health and well-being of every staff member and will plan and implement activities and policies that support personal efforts by staff to maintain a healthy lifestyle. The Coordinated School Health Advisory Committee will develop, encourage, and oversee a multifaceted plan to promote staff health and wellness. The

plan will be based on input solicited from school staff and should outline ways to encourage healthy eating, physical activity, and other elements of a healthy lifestyle among school staff.

Monitoring and Policy Review

Monitoring

The superintendent or designee will ensure compliance with established District-wide nutrition and physical activity wellness policies.

In each school the guidelines for reimbursable meals will not be less restrictive than federal regulations and guidance issued by the USDA

In each school, the principal or designee will ensure compliance with those policies in his/her school and will report on the school's compliance to the school district superintendent or designee.

School food service staff, at the school or District level, will ensure compliance with nutrition policies within school food service program and will report on this matter to the superintendent (or if done at the school level, to the school principal). In addition, the school district will report on the most recent USDA Administrative Review (AR) review findings and any resulting changes.

The superintendent or designee i.e. Coordinated School Health Program Advisory Committee, will develop a summary report every two years on district-wide compliance with the District's established school health / wellness policies, based on input from schools within the District. That report will be provided to the school board and also distributed to all school health councils, parent/teacher organizations, school principals, and school health services personnel in the District.

In addition to the Coordinated School Health Program Advisory Committee, the superintendent may designate a member of the KCUSD staff to administer, coordinate and evaluate the Local School Wellness Policy. The individual will inform District staff of the wellness policy, provide tips for healthy incentives, fundraising, class rewards and physical activity breaks. Establish protocols, compile evaluations and report to the board at a minimum of one time per school year. A minimum of eight hours per week should be allotted to the individual designated to perform the necessary duties.

Policy Review

To help with the initial development of the District's wellness policies, each school in the District will conduct a baseline assessment of the school's existing nutrition and physical activity environments and policies.¹² The results of those school-by-school assessments will be compiled at the District level to identify and prioritize needs.

As part of an ongoing process, the school district will review the nutrition and physical activity policies; provision of an environment that supports healthy eating and physical activity; and nutrition and physical education policies and program elements. The District, and individual schools within the District, will, as necessary, revise the wellness policies and develop work plans to facilitate their implementation.

Assessments will be repeated every two years to help review policy compliance, assess progress, and determine areas in need of improvement. As part of that review, the school district will review the nutrition and physical activity policies; provision of an environment that supports healthy eating and physical activity; and nutrition and physical education policies and program elements. The District, and individual schools within the District, will, as necessary, revise the wellness policies and develop work plans to facilitate their implementation.
